The Law Lord's paradox:1 Tanuja Tarale ,2022-06-14 This is a mystical new age tale with some esoteric ponderings. It's about two forfeit voyagers Trushna and Samay , the protagonists of this paradox ,who came from the virgin cosmos to this inconclusive planet Earth to seek the experience of absolute truth and reconnoitre their traits. In this expedition, they came with their slates clean but here they had to confront all the forms of avarices and somehow unknowingly they had to indulge in them .From there the real journey eventually proceeded further and gathered every aspect of life along sufferings of reality. In the seeking of transformations undergone, they had been through different forms of avarices like wealth, physical intimacy, attachments, revenge ,love , etcetera. In the process of gathering for the satisfaction of lust and impulses of mind, they had to face the hidden paradoxes of humanity which takes this tale on the ride of social views like women assault, child abuse, prostitution, corruption, homosexuality and so on. All these transformations in this story are written in the format of phases that contain the homogeneous mixture of greed and social problems. The epilogue of this tale displays the quintessence of absolute knowledge and later the absolute truth along with enigmatic query. It is totally kept hidden till the end for the readers to figure out the conclusion of the mystery that holds the real voyage of Trushna and Samay

, also it may totally vary from reader to reader. In this form, the story reveals the path of acquiring reality in the cradle of agony.

Lord of Light Roger Zelazny,2004-05-11 Earth is long since dead. Only one dares oppose them: he who was once Siddhartha and is now Mahasamatman. Binder of Demons. Lord of Light.

The Lord of the Rings and Philosophy Gregory Bassham,Eric Bronson,2013-11-13 The Lord of the Rings is intended to be applicable to the real world of relationships, religion, pleasure, pain, and politics. Tolkien himself said that his grand tale of wizards, orcs, hobbits, and elves was aimed at truth and good morals in the actual world. Analysis of the popular appeal of The Lord of the Rings (on websites and elsewhere) shows that Tolkien fans are hungry for discussion of the urgent moral and cosmological issues arising out of this fantastic epic story. Can political power be wielded for good, or must it always corrupt? Does technology destroy the truly human? Is it morally wrong to give up hope? Can we find meaning in chance events? In The Lord of the Rings and Philosophy, seventeen young philosophy professors, all of them ardent Tolkien fans and most of them contributors to the four earlier volumes in the Popular Culture and Philosophy series, address some of these important issues and show how clues to their solutions may be found in the imaginary world of Middle-earth. The book is divided into five sections, concerned with Power and the Ring, the Quest for Happiness, Good and Evil in Middle-earth, Time and Mortality, and the Relevance
