Los Angeles in Maps Glen Creason,2010-10-19 An illustrated cartographic history of the City of Angels from the colonial era to the present. Los Angeles inhabits a place of the mind as much as it does a physical geographic space. A land of palm trees and movie stars, sunshine and glamour, the city exists in the imagination as a paradise; of course, the reality is much bigger than this. Through seventy reproductions of seminal and historic documents, Los Angeles in Maps presents the evolution of this almost mythical place. Maps featured include historic Spanish explorers' charts from as early as 1791, as well as more recent topographic surveys, tourist guides, real estate maps, bird's-eye views, and more. Like the course of the Los Angeles River, the book winds through essential terrain: the discovery of oil, the rise of Hollywood, the streetcar system, Los Angeles Harbor, earthquakes, sprawl, and splendor.

Suzanne Lacy Sharon Irish,Suzanne Lacy,2010 Often controversial and sometimes even shocking to audiences, the work of California-based artist Suzanne Lacy has challenged viewers and participants with personal accounts of traumatic events, settings that require people to assume uncomfortable positions, multisensory productions that evoke emotional as well as intellectual responses, and even flayed lambs and beef kidneys. Lacy has experimented with ways to claim the power of mass media, to use women’s consciousness-raising groups as a performance structure, and to connect her projects to lived experiences. The body and large groups of bodies are the locations for her lifelike art, revealing the aesthetics of relationships among people. In this critical examination of Suzanne Lacy, Sharon Irish surveys Lacy’s art from 1972 to the present, demonstrating the pivotal roles that Lacy has had in public art, feminist theory, and community organizing. Lacy initially used her own body—or animal organs—to visually depict psychological states or social conditions in photographs, collages, and installations. In the late 1970s she turned to organizing large groups of people into art events—including her most famous work,The Crystal Quilt, a 1987 performance broadcast live on PBS and featuring hundreds of women in Minneapolis—and pioneered a new genre of public art. Irish investigates the spaces between art and life, self and other, and the body and physical structures in Lacy’s multifaceted artistic projects, showing how throughout her influential career Lacy has created art that resists racism, promotes feminism, and explores challenging human relationships.
