The White Coat Investor James M. Dahle,2014-01 Written by a practicing emergency physician, The White Coat Investor is a high-yield manual that specifically deals with the financial issues facing medical students, residents, physicians, dentists, and similar high-income professionals. Doctors are highly-educated and extensively trained at making difficult diagnoses and performing life saving procedures. However, they receive little to no training in business, personal finance, investing, insurance, taxes, estate planning, and asset protection. This book fills in the gaps and will teach you to use your high income to escape from your student loans, provide for your family, build wealth, and stop getting ripped off by unscrupulous financial professionals. Straight talk and clear explanations allow the book to be easily digested by a novice to the subject matter yet the book also contains advanced concepts specific to physicians you won't find in other financial books. This book will teach you how to: Graduate from medical school with as little debt as possible Escape from student loans within two to five years of residency graduation Purchase the right types and amounts of insurance Decide when to buy a house and how much to spend on it Learn to invest in a sensible, low-cost and effective manner with or without the assistance of an advisor Avoid investments which are designed to be sold, not bought Select advisors who give great service and advice at a fair price Become a millionaire within five to ten years of residency graduation Use a Backdoor Roth IRA and Stealth IRA to boost your retirement funds and decrease your taxes Protect your hard-won assets from professional and personal lawsuits Avoid estate taxes, avoid probate, and ensure your children and your money go where you want when you die Minimize your tax burden, keeping more of your hard-earned money Decide between an employee job and an independent contractor job Choose between sole proprietorship, Limited Liability Company, S Corporation, and C Corporation Take a look at the first pages of the book by clicking on the Look Inside feature Praise For The White Coat Investor Much of my financial planning practice is helping doctors to correct mistakes that reading this book would have avoided in the first place. - Allan S. Roth, MBA, CPA, CFP(R), Author of How a Second Grader Beats Wall Street Jim Dahle has done a lot of thinking about the peculiar financial problems facing physicians, and you, lucky reader, are about to reap the bounty of both his experience and his research. - William J. Bernstein, MD, Author of The Investor's Manifesto and seven other investing books This book should be in every career counselor's office and delivered with every medical degree. - Rick Van Ness, Author of Common Sense Investing The White Coat Investor provides an expert consult for your finances. I now feel confident I can be a millionaire at 40 without feeling like a jerk. - Joe Jones, DO Jim Dahle has done for physician financial illiteracy what penicillin did for neurosyphilis. - Dennis Bethel, MD An excellent practical personal finance guide for physicians in training and in practice from a non biased source we can actually trust. - Greg E Wilde, M.D Scroll up, click the buy button, and get started today!

How to Get a Mortgage in 24 Hours James E. A. Lumley,1994-02-09 The latest edition continues to help readers find low-cost financing in the quickest possible time. Explores many novel alternative mortgage plans. New guidelines will aid in selecting among competing options—all with the goal of saving you money. Details how loans work, how to evaluate their costs and how to choose the one that's best for you. Abounds with examples of different types of mortgages and how they work. Includes two new chapters—the first deals with prequalifying yourself with a lender before finding a specific property; the second explains using low rates to trade up or down.

Kingdom of the Netherlands-Netherlands: Financial Sector Assessment Program: International Monetary Fund. Monetary and Capital Markets Department,2017-04-13 This Technical Note discusses the findings and recommendations in the Financial Sector Assessment Program for the Netherlands on financial stability and stress testing of the banking, household, and corporate sectors. The Dutch banking system appears resilient to risks. The stress test results indicate that a scenario of extreme adverse macroeconomic conditions would have a significant negative impact on Basel III fully loaded capital ratios, but all banks would maintain capital ratios above minimum regulatory requirements. However, the results for the leverage ratio show that a significant bank could fall just below the fully loaded minimum 3 percent hurdle.

Assessing China's Residential Real Estate Market Ding Ding,Xiaoyu Huang,Tao Jin,W. Raphael Lam,2017-11-16 China's real estate market rebounded sharply after a temporary slowdown in 2014-2015. This paper uses city-level data to estimate the range of house price overvaluation across city-tiers and assesses the main risks of a sharp housing market slowdown. If house prices rise further beyond “fundamental” levels and the bubble expands to smaller cities, it would increase the likelihood and costs of a sharp correction, which would weaken growth, undermine financial stability, reduce local government spending room, and spur capital outflows. Empirical analysis suggests that the increasing intensity of macroprudential policies tailored to local conditions is appropriate. The government should expand its toolkit to include additional macroprudential measures and push forward reforms to address the fundamental imbalances in the residential housing market.

Tips and Traps when Mortgage Hunting Robert Irwin,1992 Expert guidance to help you find a top broker, low rate, and speedy approval on any mortgage Tips and Traps When Mortgage Hunting, Third Edition, covers every vital aspect of finding the right mortgage, from finding and locking in the lowest available interest rate to eliminating unwelcome surprises at the closing table. Essential details include strategies for clearing up credit problems before your search begins; resources you can use if you are a first-time home buyer to get the best deal; and new information on working

with a mortgage broker, reverse mortgages, proven refinancing strategies, and more.

Credit Supply and House Prices Manuel Adelino,Antoinette Schoar,Felipe Severino,2012 We show that easier access to credit significantly increases house prices by using exogenous changes in the conforming loan limit as an instrument for lower cost of financing. Houses that become eligible for financing with a conforming loan show an increase in house value of 1.16 dollars per square foot (for an average price per square foot of 220 dollars) and higher overall house prices controlling for a rich set of house characteristics. However, these estimated coefficients are consistent with a local elasticity of house prices to interest rates that is lower than some previous studies proposed (below 10). In addition, loan to value ratios around the conforming loan limit deviate significantly from the common 80 percent norm, which confirms that it is an important factor in the financing choices of home buyers. In line with our interpretation, the results are stronger in the first half of our sample (1998-2001) when the conforming loan limit was more important, given that other forms of financing were less common and substantially more expensive. Results are also stronger in zip codes where personal income growth is low or declining, and in regions with lower elasticity of housing supply.
