Situational Policing James J. Nolan,2008-03 A
recent study explored whether community policing
(CP) could work in different types of
neighborhoods. The analysis found it successful in
some communities, but not in others. Of the 15
participating Chicago police beats, the
researchers rated 9 excellent & 6 struggling. The
research question itself garners even more
interest for it suggests that CP should have
similar benefits in different types of
neighborhoods. The authors present a theoretical
framework to help police decide what type of CP
strategy could work best in specific
neighborhoods. Through the Situational Policing
Model, the authors present a clear & observable
desired end state for officers as they work to
respond to neighborhood crime & disorder.
