**Marivaux and Moliere** Alfred Cismaru, 1977 Marivaux and Moliere are, respectively, the greatest comedy writers of the eighteenth and seventeenth centuries. Whereas a library of critical material exists on Moliere, Marivaux has benefited from less commentary, and many questions concerning this eighteenth-century playwright remain unanswered. Among these, of primary importance is his relationship with Moliere. The present study represents an illuminating discussion of this relationship. It devotes a chapter to each of Marivaux's plays that recalls any aspect of Moliere's comedies. Without detracting from Marivaux's basic originality, Dr. Cismaru shows that Marivaux's alleged scorn for his illustrious predecessor did not prevent him from using molieresque scenes, tone, and vocabulary. The first book-length study of the relationship between Moliere and Marivaux is lucidly written and free from technical jargon. It should benefit both the student of the two playwrights and the specialist.

*Goethe's Families of the Heart* Susan E. Gustafson, 2016-06-30 Throughout his literary work Goethe portrays characters who defy and reject 18th and 19th century ideals of aristocratic and civil families, notions of heritage, assumptions about biological connections, expectations about heterosexuality, and legal mandates concerning marriage. The questions Goethe's plays and novels pose are often modern and challenging: Do social conventions, family expectations, and legal mandates matter? Can two men or two women pair together and be parents? How many partners or parents should there be? Two? One? A

group? Can parents love children not biologically related to them? Do biological parents always love their children? What is the nature of adoptive parents, children, and families? Ultimately, what is the fundamental essence of love and family? Gustafson demonstrates that Goethe's conception of the elective affinities is certainly not limited to heterosexual spouses or occasionally to men desiring men. A close analysis of Goethe's explication of affinities throughout his literary production reveals his rejection of loveless relationships (for example, arranged marriages) and his acceptance and promotion of all relationships formed through spontaneous affinities and love (including heterosexual, same-sex, nonexclusive, group, parental, and adoptive).

**There are No Slaves in France** Sue Peabody, 1996 *There Are No Slaves in France: The Political Culture of Race and Slavery in the Ancient Regime* examines the paradox of political antislavery and institutional racism in the century prior to the French Revolution. Black slaves who came to France as domestic servants of colonial masters challenged their servitude in courts. On the basis of the Freedom Principle, a judicial maxim granting freedom to any slave who set foot in the kingdom, hundreds of slaves won their freedom.

Lucidor, Or Travels of a Philosopher, Through the Various Parts of Europe; Humourously Describing the Manners and Customs. Interspersed with Anecdotes and Characters Louis-Antoine marquis Caraccioli, 1789

Rounding Wagner's Mountain Bryan Gilliam, 2014-11-13 Richard Strauss' fifteen operas, which span

the years 1893 to 1941, make up the largest German operatic legacy since Wagner's operas of the nineteenth century. Many of Strauss's works were based on texts by Europe's finest writers: Oscar Wilde, Hugo von Hofmannsthal and Stefan Zweig, among others, and they also overlap some of the most important and tumultuous stretches of German history, such as the founding and demise of a German empire, the rise and fall of the Weimar Republic, the period of National Socialism, and the post-war years, which saw a divided East and West Germany. In the first book to discuss all Strauss's operas, Bryan Gilliam sets each work in its historical, aesthetic, philosophical, and literary context to reveal what made the composer's legacy unique. Addressing Wagner's cultural influence upon this legacy, Gilliam also offers new insights into the thematic and harmonic features that recur in Strauss's compositions.

War of the Maps Paul McAuley, 2020-03-19 'The underrated McAuley is in top form in this hard science fiction novel with heart.' Washington Post Book World On a giant artificial world surrounding an artificial sun, one man - a lucidor, a keeper of the peace, a policeman - is on the hunt. His target was responsible for an atrocity, but is too valuable to the government to be truly punished. Instead he has been sent to the frontlines of the war, to use his unique talents on the enemy. So the lucidor has ignored orders, deserted from his job, left his home and thrown his life away, in order to finally claim justice. Separated by massive seas, the various maps dotted on the surface of this world rarely contact each other. But something has begun to infiltrate the edges of the lucidor's map, something that genetically alters animals and plants and turns them into killers. Only the lucidor knows the depths to which his quarry will sink in order to survive, only the lucidor can capture him. The way is long and dangerous. The lucidor's government has

set hunters after him. He has no friends, no resources, no plan. But he does have a mission.
