A Casual Revolution Jesper Juul, 2012-02-10 How casual games like Guitar Hero, Bejeweled, and those for Nintendo Wii are expanding the audience for video games. We used to think that video games were mostly for young men, but with the success of the Nintendo Wii, and the proliferation of games in browsers, cell phone games, and social games video games changed fundamentally in the years from 2000 to 2010. These new casual games are now played by men and women, young and old. Players need not possess an intimate knowledge of video game history or devote weeks or months to play. At the same time, many players of casual games show a dedication and skill that is anything but casual. In *A Casual Revolution*, Jesper Juul describes this as a reinvention of video games, and of our image of video game players, and explores what this tells us about the players, the games, and their interaction. With this reinvention of video games, the game industry reconnects with a general audience. Many of today's casual game players once enjoyed Pac-Man, Tetris, and other early games, only to drop out when video games became more time-consuming and complex. Juul shows that it is only by understanding what a game requires of players, what players bring to a game, how the game industry works, and how video games have developed historically that we can understand what makes video games fun and why we choose to play (or not to play) them. Borderland Infrastructures Alessandro Rippa, 2020-08-06 Across the Chinese borderlands, investments in large-scale transnational infrastructure such as roads and special economic zones have increased exponentially over the past two decades. Based on long-term ethnographic research, *Borderland infrastructures. Trade, Development, and Control in Western China* addresses a major contradiction at the heart of this fast-paced development: small-scale traders have lost their historic strategic advantages under the growth of massive Chinese state investment and are now struggling to keep their businesses afloat. Concurrently, local ethnic minorities have become the target of radical resettlement projects, securitization, and tourism initiatives, and have in many cases grown increasingly dependent on state subsidies. At the juncture of anthropological explorations of the state, border studies, and research on transnational trade and infrastructure development, *Borderland infrastructures* provides new analytical tools to understand how state power is experienced, mediated, and enacted in Xinjiang and Yunnan. In the process, Rippa offers a rich and nuanced ethnography of life across China's peripheries.

The Myth of Shangri-La Peter Bishop, 1989-01-01 Bishop's engrossing and readable account provides us with a fascinating picture of European myths concerning the Land of the Snows and of the role these myths played in shaping perceptions of the Orient. Bishop's riveting portrait of European conceptions is an important and exceptionally well written contribution to an understanding of Western attitudes toward Tibet and all of East Asia.--Morris Rossabi, author of *Khubilai Khan: His Life and Times*

Communicating Effectively with the Chinese Ge Gao, Stella Ting-Toomey, 1998-06-10 Utilizing the 'self-OTHER' perspective as a conceptual foundation, the authors portray and interpret some of the distinctive communication practices in Chinese culture. They examine how self-conception, role and hierarchy, relational dynamics and face affect ways of conducting everyday talk in Chinese culture. They explain why miscommunication between Chinese and North Americans takes place and suggest ways to improve communication. By incorporating instances of everyday talk, the authors offer a realistic and clear illustration of the specific characteristics and functions of Chinese communication, as well as problematic

areas of Chinese//North American encounters.

Hawaiian Modern Vladimir Ossipoff, Marc Treib, 2007-01-01 At the forefront of the postwar phenomenon known as tropical modernism, Vladimir Ossipoff (1907-1998) won recognition as the master of Hawaiian architecture." Although he practiced at a time of rapid growth and social change in Hawaii, Ossipoff criticized large-scale development and advocated environmentally sensitive designs, developing a distinctive form of architecture appropriate to the lush topography, light, and microclimates of the Hawaiian islands. This book is the first to focus on Ossipoff's career, presenting significant new material on the architect and situating him within the tropical modernist movement and the cultural context of the Pacific region. The authors discuss how Ossipoff synthesized Eastern and Western influences, including Japanese building techniques and modern architectural principles. In particular, they demonstrate that he drew inspiration from the interplay of indoor and outdoor space as advocated by such architects as Frank Lloyd Wright, applying these to the concerns and vernacular traditions of the tropics. The result was a vibrant and glamorous architectural style, captured vividly in archival images and new photography. As the corporate projects and private residences that Ossipoff created for such clients as IBM, Punahou School, Linus Pauling, Jr., and Clare Boothe Luce surpass their fiftieth anniversaries, critical assessment of these structures, offered here by distinguished scholars in the field, will illuminate Ossipoff's contribution to the universal challenge of making architecture that is delightfully particular to its place and durable over time.

History DK, 2022-04-26 This lavishly illustrated visual encyclopedia tells the story of our world in depth and detail from the dawn of civilization to the present day. Charting human endeavor from every angle, SI History chronicles the significant events, ground-breaking ideas, political forces, and technological advances that have shaped our planet. Every historical episode is explored and explained with the help of stunning images that bring the authoritative text to life. Important points in history, from the battle of Hastings and the storming of the Bastille to D-Day and 9/11, have clear but concise coverage, together with profiles of influential figures, such as Julius Caesar, Cleopatra, and Nelson Mandela. It's time to head back in time and explore the past with this striking history book, which features: - Profiles of key people who have made history. - Features on inventions, discoveries, and ideas that changed the world. - Graphics lend immediacy and impact to key statistics. - National Histories section separately chronicles key events of every country As each moment in history is defined and detailed, supporting panels note the causes and consequences, providing wider context and broadening our horizons. New and enhanced coverage of recent events – such as the Arab Spring – and contemporary issues such as climate change and the COVID-19 pandemic, bring the book firmly into the present. With its broad-themed approach to important historical events, this book shows that ours is a history with genes and viruses, not just battle and treaties – and the stories and biographies of men and women from every corner of the globe who have shaped today's world reaffirm that SI History is the story of humankind in which everyone has a part to play.

Twelve Years a Slave Solomon Northup, 2024-01-04 Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Nortup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try

'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

The First Quarter Steve L. Kent, 2000 As a child, Philip Sherlock loved to listen to folk tales. Since then he has made a significant contribution to Caribbean folklore by recording many of them in print for the first time. Here are fables of the birds and animals of the West Indies: jaguar, snake, crested curassow, wild pig, parrot, wise owl, and of Anansi--the spider who can assume human form. These twenty-one stories are a wonderful mixture of early tales from the Arawak and the Carib people, the original inhabitants of the Caribbean, and from the Ashanti people of West Africa. Read together they help to provide a background to the history of the West Indies. The stories are retold here in a warm, rich style--some tales gentle and philosophical, some humorous and full of action.

Directors' Liability and Indemnification Edward Smerdon, 2011 Directors' liabilities have been a key concern in boardrooms since the various high-profile corporate failures in Europe and the United States over the past two decades, when regulation increased and shareholders' and companies' rights to bring civil claims were extended. The current financial crisis will inevitably bring with it greater risks and challenges for directors. There is an increasingly aggressive environment for civil claims, fuelled by insolvencies, shareholders' pressure and public outcry. The attention of the regulators is also ever more sharply focussed on directors' conduct. directors are understandably looking closely at the protection available to them, through both indemnification and directors' and officers' insurance. The exposures faced by directors and the extent to which indemnification and insurance may provide protection vary significantly around the world. This comprehensive second edition features contributions by leading experts on the important aspects of directors' liability, the protection available to directors and the risks of doing business in multiple jurisdictions. New to the second edition are chapters on China, the Czech Republic, Kazakhstan, Saudi Arabia, Slovakia, South Korea and the United Arab Emirates. In addition to civil claims and indemnification, each chapter now includes commentary on regulatory and criminal liability. Particular focus is placed on the impact of the credit crisis. There is also a new section dealing with regulatory issues surrounding global directors' and officers' programmes and their ability to provide cover in all intended jurisdictions. Unique in its approach, this forthcoming second edition is a powerful tool in assisting directors, officers, in-house counsel and the private practice lawyers advising them to make well-informed judgements about the risks they are taking.

Achtung-Panzer! Heinz Guderian,1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.
