Constant Killer M. Smart, 2020-12-18 The Chicago PD is in an uproar. Someone is lacing street drugs with rat poison, and the bodies are piling up. Narcotics officers, Danni D'Anna and Declan Maguire, are temporarily assigned to Homicide to help solve The Exterminator crossover case. Despite their plans to move up the ranks together, only one of them will be promoted to Detective when the case is closed. But there's another exterminator on the loose who is flying completely under the radar. A female serial killer has been eliminating men from Los Angeles to Chicago. When she sets her sights on Declan, she'll do whatever it takes to stay close to both officers long enough to pull off the biggest coup of her killing career--exterminating a police officer... or two. Caught in her web of sexual tension and deception, Danni and Declan are unaware of the games being played with their personal lives... until the unthinkable happens. When Danni finds herself matching wits in a dual game of cat and mouse, it'll take every ounce of courage she can muster to quash the childhood insecurities that thwart her determination to outmaneuver both The Exterminator and The Constant Killer.

Where the Hell Is Tesla? a Novel Rob

Dircks,2015-01-16 I found the journal at work. Well, I don't know if you'd call it work, but that's where I found it. It's the lost journal of Nikola Tesla, one of the greatest inventors and visionaries ever. Before he died in 1943, he kept a notebook filled with spectacular claims and outrageous plans. One of these plans was for an Interdimensional Transfer Apparatus--That allowed someone (in this case me and my friend Pete) to travel to other versions of the infinite dimensions that make up the multiverse. Crazy, right? But that's just where the crazy starts. [back cover].

The Fingerprint U. S. Department Justice, 2014-08-02
The idea of The Fingerprint Sourcebook originated during a meeting in April 2002. Individuals representing the fingerprint, academic, and scientific communities met in Chicago, Illinois, for a day and a half to discuss the state of fingerprint identification with a view toward the challenges raised by Daubert issues. The meeting was a joint project between the International Association for Identification (IAI) and West Virginia University (WVU). One recommendation that came out of that meeting was a suggestion to create a sourcebook for friction ridge examiners, that is, a single source of researched information regarding the subject. This sourcebook would provide educational, training, and research information for the international scientific community.
