Parrot Tales Michael Steven Smith, Debby Smith, 2022-05-24 Charlie Parker is an African Grey Parrot. He entered the life of the Smith family three decades ago when they first encountered him in a downtown Manhattan bird shop and found him so irresistible, they had to bring him home. Charlie is many things in the Smith family, articulating them all in an astonishingly diverse and colorful vocabulary. He can be demanding, squawking imperiously Clean my cage or Want some water. He can be very direct, warning an aggressive business associate who had been yelling at Debby I'm going to kick your ass, you

sonofabitch He can be mischievous, making meowing noises to a neighbor's confused dog in the elevator. He is a survivor, who ended up recovering on an IV after the collapse of the World Trade Center filled the Smiths neighboring apartment with toxic dust. He is often the entertainer, with a songbook that extends across the opening bars of Home on the Range and The Yellow Rose of Texas. Most of the time he is affectionate, as when he hangs upside down against the side of the cage and asks for his tummy to be tickled. In hearing Charlie's tales in this charming book, we come to realize that parrots are intelligent, sociable and loving creatures, to an extent that, as the renowned avian scientist Professor Irene Pepperberg insists in her introduction, they cannot meaningfully be owned by humans but should rather be enjoyed as companions.

Spix's Macaw Tony Juniper, 2004-11-16 Spix's Macaw tells the story of a unique band of brilliant blue birds - who talk, fall in love, and grieve - struggling against extinction. By the second half of the twentieth century the birds had become more valuable than heroin, worth thousands of dollars on the black market. In 1990, only one was found to be living in the wild and an emergency international rescue operation was launched, calling on private collectors to come forward with their birds to mate with the last wild Spix's. In a breathtaking display of stoicism and endurance, the loneliest bird in the world had lived without a mate for fourteen years, outwitting predators and poachers. Would he take to a new companion? Like humans, Spix's Macaws can't be forced to love, but the stakes were as high as they could be: the survival of one of the world's most beautiful birds.--BOOK JACKET.

Mourning Dove Status Report, 1970 James L. Ruos, 1971 U.S. mourning dove population indexes increased by 4% from 1969 to 1970 in the Eastern Management Unit, but declined 2% in the Central Management Unit and 11% in the Western Management Unit. The changes were below the 10-year means, 1960-69, by 3% in the Eastern Unit, 15% in the Central, and 27% in the Western. Regression analyses of the call-count data for 1960-70 indicate a statistically significant downward trend in dove breeding populations in all management units; mean rates of decline were 1% a year in the Eastern Unit,

3% a year in the Central, and 4% in the Western

Birding Without Borders Noah Strycker, 2017-10-10 The story of how the associate editor of Birding magazine set himself a lofty goal: to become the first person to see half the world's birds in one year. In 2015, for 365 days, with a backpack, binoculars, and a series of one-way tickets, Noah Strycker traveled across forty-one countries and all seven continents, eventually spotting 6,042 species—by far the biggest birding year on record. This is no travelogue or glorified checklist. Noah ventures deep into a world of chronic sleep deprivation, airline snafus, breakdowns, mudslides, floods, war zones, ecologic devastation, conservation triumphs, common and iconic species, and scores of passionate bird lovers around the globe. By pursuing the freest creatures on the planet, he gains a unique perspective on the world they share with us—and offers a hopeful message that even as many birds face an uncertain future, more people than ever are working to protect them. “Birding Without Borders is light-hearted and filled with stories of exotic birds, risky adventures, and colorful birding companions.”—New York Times Book Review “Highly recommended for anyone interested in travel, natural history, and adventure.”—Library Journal “Even readers who wouldn't know a marvellous spatuletail from a southern ground hornbill will be awed by Strycker's achievement and appreciate the passion with which he pursues his interest.”—Publishers Weekly
