Ron and the Wild Men Pat Cooney,2018-11-07 Because of the differing beliefs on how Australia should be governed in the future, the country splits in two separate nations—to the south, New South Wales, Victoria, Tasmania, and South Australia becoming known as Greater Australia, and Queensland the Northern Territory and Western Australia, Northern Australia. The northern nation continues to use the old Westminster form of government, and upon review of all past registration and procedures becomes prosperous and populated by freedom-loving and happy people, while to the south, the land is governed in such a way that the needs of the environment is considered as paramount. The design of the southern government can be considered to be inefficient, cumbersome, and impractical, allowing the real power being usurped by radicals, anarchists, and power hungry near megalomaniacs. A large area of western New South Wales has been given over to indigenous people in which to live in their traditional ways. To assist in this, all white people and their improvements have been removed. Initially, this causes great suffering and deaths among the indigenous people who have become dependent on the social services and the lifestyle or way of life of

the whites. When they gain a form of organisation, they actually revert to a form of living similar to that which existed prior to white settlement. Ron, in his travels escaping from Southern Australia, meets up with these people and lives with them for a while. An expedition is sent to this area from the north, brought on because of a sudden collapse in population numbers because of disease, Ron finds himself conscripted as leader. The book deals with the achievements of the expedition, the people involved, especially Ron and his lover, Gwen, and those who try to sabotage it or take share of the glory.

American International Pictures Rob Craig, 2019-02-19 American International Pictures was in many ways the missing link between big-budget Hollywood studios, poverty-row B-movie factories and low-rent exploitation movie distributors. AIP first targeted teen audiences with science fiction, horror and fantasy, but soon grew to encompass many genres and demographics--at times, it was indistinguishable from many of the major studios. From Abby to Zontar, this filmography lists more than 800 feature films, television series and TV specials by AIP and its partners and subsidiaries. Special attention is given to American International Television (the TV arm of AIP) and an appendix lists the complete AITV catalog. The author also discusses films produced by founders James H. Nicholson and Samuel Z. Arkoff after they left the company.

Remembering the 40'S TRUMAN FIELDS, 2009-09-12 I've often heard it said that everybody has a story to tell, and I know this is true, but I have found also that we all have a yearning to tell our story. Also, we have numerous ways to do it: through voice, writing instruments and machines, through photographic and digital images that we make or assemble, and also through the pattern of our living, and in the things that we create. Truman Fields is a many-faceted person, and he has left plenty of evidence of his interesting story to supplement what he tells us in this book. He has been a persistent student, teacher and craftsman, a successful businessman, and an award-winning tennis player, a superb craftsman, and a public servant. He was born in the center of the Appalachian coal fields, where he attended local schools until his father, perceived that Truman had a desire to learn more than might be possible locally, sent his reluctant son to Berea Foundation High School at the age of sixteen. There, in addition to the usual academic subjects, he began probing the complexities of electronics, metal-and-wood, and of course basketball and tennis. Without money, he was a half-day student, meaning he took classes for half the day and worked in the rest of the day for his room and board. Thus it would have taken him five years to complete high school, so ever restless and inquisitive, he decided at the age of twenty, to join the Navy for four years. The Navy sent him to electronic school before assigning him to a destroyer tender. On this ship, he saw a great deal of the world. At age 24, he re-entered the Foundation School for a semester to finish high school, and then

enrolled at Berea College. There he majored in Industrial Arts and played tennis so well that he was a finalist in several tournaments. In college, he met Joyce Barnes from Tennessee, and they were married. After graduation Truman taught in Louisville and then moved to Cleveland, Ohio, where he and Joyce taught for 30 years. There, Truman also worked successfully part-time as a real estate broker and he coached tennis at Baldwin Wallace College. Joyce and Truman reared two daughters in Cleveland, and their grandchildren, who know little of life in the Appalachian Mountains, became the main inspiration for this book. When Joyce and Truman retired from teaching, their love of Berea College and the Berea community drew them back to Kentucky. Here they have managed several rental properties and developed home-building sights. Truman was elected for several terms to Berea City Council, taught students, faculty, and community people to make furniture in the Colleges woodworking shop, and coached the college tennis team. He also continued to follow the tennis circuits, winning many gold metals in his age class. Joyce has also been much involved in the arts and crafts scene for which Berea is famous. She and Truman are active members of Union Church, the mother church of Berea College. They are also generous supporters of Berea College in the knowledge that the lives of other young people from the mountains will be enriched there, as theirs have been. In this book, Joyce and Trumans grandchildren, and others, will learn much about the life Truman lived as a boy, about the one-room school he attended, his classmates, the games they played, the spelling bees, the sporting contests, the victories and disappointments in his budding life, his teachers and pastors vigorous efforts to teach right from wrong, and his own family history. Along the way, from Big Creek to Berea, to Louisville, and Cleveland and back to Berea, we learn Trumans story and the events that shaped him from the lad on the cover in Happy Jack overalls looking with sharp and expectant eyes, to the disciplined tireless, teacher, public servant, athlete, auctioneer, craftsman, and student of all Kentucky things today. Hes been a little modest, however, like most mountain people, in telling his story. So keep in mind all that he has done, all his interests and involvements, as he remembers and tells you about his life in the heart of Appalachia. Loyal Jones Berea, Kentucky

A Tale of Two Truckers Rolene,2012-08-03 A Tale of Two Truckers tells the story of the transition of the author from a perfectly normal life into the predominantly male operated trucking industry in the early 1980 s and the trials she endured. The story takes you back to a lifestyle and time many young people today could never imagine because there was little technology - not even mobile phones! The tale reveals the relentless struggles and challenges she faced along with her partner Randy, and her dog named Hooter, as they ventured forth to secure a career in the trucking industry. She finds herself in unimaginable and sometimes frightful predicaments, taking her readers with her into a world they never knew existed. Maintaining her sense of humor throughout the ordeal, she is not afraid to tell it like it was, something her trucker partner Randy, never would have done.

Memories of Mount St. Helens Jim Erickson,2020-03-30 "Takes a local and regional perspective in looking back on the mountain's history, the frenzied days surrounding the eruption, and its aftermath." –The Oregonian In the spring of 1980, Mount St. Helens awoke from a century-long slumber with a series of dramatic changes. Most

threatening was a bulge on the side of the snowy peak, pushing steadily outward. Near Spirit Lake, local resident Harry Truman refused to leave his lodge, even as scientists like David Johnston warned about potential destruction. On May 18, the mountain finally blew, enveloping whole communities in ash and smoke. Mudflows destroyed bridges, houses and highways, and fifty-seven people, including Truman and Johnston, lost their lives. Today, the mountain is quiet. Plants and animals have returned and hiking trails have been rebuilt, but the scars remain. Join author and journalist Jim Erickson as he recounts the unforgettable saga of the Mount St. Helens eruption.

In the Evil Day Richard Adams Carey, 2015-08-22 On the afternoon of August 19, 1997, John Harrigan-owner and publisher of the News and Sentinel newspaper in Colebrook, New Hampshire-arrived at his building to find the woman he loved lying dead in the parking lot. Lawyer Vickie Bunnell had been shot and killed by a local carpenter wielding an assault rifle. By then, three more people were already dead or dying. More mayhem was to ensue in an afternoon of plot twists too improbable for a novel. The roots of the incident stretch back twenty-five years, with tendrils deep in the history of New England's North Country. These bloody events shocked America and made headlines across the world. Hundreds of local citizens became unwilling players in the drama-friends and colleagues of the dead, men and women who were themselves real or potential targets, along with their neighbors in law enforcement-but the town and its inhabitants were never passive victims. From the first shot fired that day, they remained courageously determined to survive. This is the story of that town, those people, and that day. In the Evil Day is a moving portrait of small-town life and familiar characters forever changed by sudden violence.

The Trucker's Nightmare Chris Hanly, 2019-08-15 The Truckers Nightmare enters a darker side of the events that take place in the trucking world. Things can change so drastically without a moments notice. The simple task of delivering a load to a customer could very quickly turn into a series of events where one could possibly be facing his own demise. The events in these stories are about the lives, hardships, and unexpected, life changing circumstances that occur, in the lonely life of a driver out on the road. The fatigue, the stress, and the insanity that can consume the very life and can even go as far as to destroy one's family are written in these pages. The long hours, unexpected break downs, delays, and time away from home, along with the lonely nights and even longer days, test the men and women, bringing them to a point, in many cases of no return. Many of them allow the insanity that consumes them to run rampant in their lives, while others become victims of circumstances, unaware of the consequences involved. Others become victims of their environment, not being able to have a say in what happens to them. The stories in this series are each written with its own unexpected story line and twists to throw the reader off.
