Magic and Ritual in the Ancient World Paul Mirecki, Marvin Meyer, 2002-01-01 This volume contains a series of provocative essays that explore expressions of magic and ritual power in the ancient world. The essays are authored by leading scholars in the fields of Egyptology, ancient Near Eastern studies, the Hebrew Bible, Judaica, classical Greek and Roman studies, early Christianity and patristics, and Coptic and Islamic Egypt. The strength of the present volume lies in the breadth of scholarly approaches represented. The book begins with several papyrological studies presenting important new texts in Greek and Coptic, continuing with essays focusing on taxonomy and definition. The concluding essays apply contemporary theories to analyses of specific test cases in a broad variety of ancient Mediterranean cultures.

Magic and Magicians in the Middle Ages and the Early Modern Time Albrecht Classen, 2017-10-23 There are no clear demarcation lines between magic, astrology, necromancy, medicine, and even sciences in the pre-modern world. Under the umbrella term 'magic,' the contributors to this volume examine a wide range of texts, both literary and religious, both medical and philosophical, in which the topic is discussed from many different perspectives. The fundamental concerns address issues such as how people perceived magic, whether they accepted it and utilized it for their own purposes, and what impact magic might have had on the mental structures of that time. While some papers examine the specific appearance of magicians in literary texts, others analyze the practical application of magic in medical contexts. In addition, this volume includes studies that deal with the rise of the witch craze in the late fifteenth century and then also investigate whether the Weberian notion of disenchantment pertaining to the modern world can be maintained. Magic is, oddly but significantly, still around us and exerts its influence. Focusing on magic in the medieval world thus helps us to shed light on human culture at large.

Language and Revolutionary Magic in the Orinoco Delta Juan Luis Rodriguez, 2020-10-15 Winner of the 2021 New Voices Book Award by the Society for Linguistic Anthropology Exploring the ways in which the development of linguistic practices helped expand national politics in remote, rural areas of Venezuela, *Language and Revolutionary Magic in the Orinoco Delta* situates language as a mediating force in the creation of the 'magical state'. Focusing on the Waraos speakers of the Orinoco Delta, this book explores center-periphery dynamics in Venezuela through an innovative linguistic anthropological lens. Using a semiotic framework informed by concepts of 'transduction' and 'translation', this book combines ethnographic and historical evidence to analyze the ideological mediation and linguistic practices involved in managing a multi-ethnic citizenry in Venezuela. Juan Luis Rodriguez shows how indigenous populations participate in the formation and contestation of state power through daily practices and the use of different speech genres, emphasising the performative and semiotic work required to produce revolutionary subjects. Establishing the centrality of language and semiosis in the constitution of authority and political power, this book moves away from seeing revolution in solely economic or ideological terms. Through the collision between Warao and Spanish, it highlights how language ideologies can exclude or integrate indigenous populations in the public sphere and how they were transformed by Hugo Chavez' revolutionary government to promote loyalty to the regime.

Drafting Fundamentals for the Entertainment Classroom Eric Appleton, 2021-11-23 *Drafting Fundamentals for the Entertainment Classroom: A Process-Based Introduction to Hand Drafting, Vectorworks, and SketchUp* guides students through a syllabus-formatted semester of integrated drafting concepts and skills. This book links beginner visualization practices with fundamental software knowledge through step-by-step exercises and examples. By presenting hand drafting and Vectorworks through incremental exercises, students not only gain an understanding of the tools used in drafting but also learn why the tools, practices, and standards exist in the first place. SketchUp, a user-friendly 3D modeling program, is integrated into the various exercises to help readers visualize concepts and begin modeling their own ideas. By the end of the book, students will understand drawing construction techniques, United States Institute for Theatre Technology (USITT)-recommended graphic standards, and the typical drawings created for entertainment design, preparing them to dive more deeply into the further complexities and opportunities of Vectorworks and SketchUp. *Drafting Fundamentals for the Entertainment Classroom* is written to complement a 14- or 15-week semester of an Entertainment Drafting course. The book's format also provides structure for independent and self-directed study.

Nine Medieval Romances of Magic Marijane Osborn, 2010-03-05 In this book, Marijane Osborn translates into modern English nine lively medieval verse romances, in a form that both reflects the original and makes the romances inviting to a modern audience. All nine tales contain elements of magic: shapeshifters, powerful fairies, trees that are portals to another world, and enchanted clothing and armor. Many of the tales also feature powerful women characters, while others include representations of "Saracens." The tales address issues of enduring interest and concern, and also address sexuality, agency, and identity formation in unexpected ways.

Shamanism and Violence Davide Torri, 2016-04-01 Proposing a new theoretical framework, this book explores Shamanism's links with violence from a global perspective. Contributors, renowned anthropologists and authorities in the field, draw on their research in Mongolia, China, Korea, Malaysia, Nepal, India, Siberia, America, Papua New Guinea, Taiwan to investigate how indigenous shamanic cultures dealt, and are still dealing with, varying degrees of internal and external violence. During ceremonies shamans act like hunters and warriors, dealing with many states related to violence, such as collective and individual suffering, attack, conflict and antagonism. Indigenous religious complexes are often called to respond to direct and indirect competition with more established cultural and religious traditions which undermine the sociocultural structure, the sense of identity and the state of well-being of many indigenous groups. This book explores a more sensitive vision of shamanism, closer to the emic views of many indigenous groups.

History and Silence Charles W. Hedrick, 2010-01-01 "It is so rare and refreshing to read a Roman history book which recognizes and celebrates the sheer difficulty of writing history" (The Times Literary Supplement). The ruling elite in ancient Rome sought to eradicate even the memory of their deceased opponents through a process now known as damnatio memoriae. These formal and traditional practices included removing the person's name and image from public monuments and inscriptions, making it illegal to

speak of him, and forbidding funeral observances and mourning. Paradoxically, however, while these practices dishonored the person's memory, they did not destroy it. Indeed, a later turn of events could restore the offender not only to public favor but also to re-inclusion in the public record. This book examines the process of purge and rehabilitation of memory in the person of Virius Nicomachus Flavianus. Charles Hedrick describes how Flavianus was condemned for participating in the rebellion against the Christian emperor Theodosius the Great—and then restored to the public record a generation later as members of the newly Christianized senatorial class sought to reconcile their pagan past and Christian present. By selectively remembering and forgetting the actions of Flavianus, Hedrick asserts, the Roman elite honored their ancestors while participating in profound social, cultural, and religious change. “One of the most interesting and original books about the Later Roman Empire that I have ever read.” —T. D. Barnes
