Hawaii Place Names John R. K. Clark,2003-05-14 In his latest book, John Clark, author of the highly regarded *Beaches of Hawaii* series, gives us the many captivating stories behind the hundreds of Hawaii place names associated with the ocean--the names of shores, beaches, and other sites where people fish, swim, dive, surf, and paddle. Significant features and landmarks on or near shores, such as fishponds, monuments, shrines, reefs, and small islands, are also included. The names of surfing sites are the most numerous and among the most colorful: from the purely descriptive (Black Rock, Blue Hole) to the humorous (No Can Tell, Pray for Sex). Clark began gathering information for the *Beaches* series in 1972, and during the years that followed interviewed hundreds of informants, many of them native Hawaiians, and consulted dozens of Hawaiian reference books, newspapers, and maps. A significant amount of the oral history he collected was unrecorded and remained only in his notebooks and memory. *Hawaii Place Names: Shores, Beaches, and Surf Sites* is the final result of those years of research, and like its popular predecessors, it benefits substantially from Clark's having spent a lifetime surfing and swimming Hawaii's beaches. Presented in the same convenient format as *Pukui, Elbert, and Mookini's Place Names of Hawaii* (UH Press, 1974) this rich compendium of information on Hawaii's surf, shore, and beach sites will satisfy visitors and residents alike.

A Gravity's Rainbow Companion Steven C. Weisenburger,2011-03-15 Adding some 20 percent to the original content, this is a completely updated edition of Steven Weisenburger's indispensable guide to Thomas Pynchon's *Gravity's Rainbow*. Weisenburger takes the reader page by page, often line by line, through the welter of historical references, scientific data, cultural fragments, anthropological research, jokes, and puns around which Pynchon wove his story. Weisenburger fully annotates Pynchon's use of languages ranging from Russian and Hebrew to such subdialects of English as 1940s street talk, drug lingo, and military slang as well as the more obscure terminology of black magic, Rosicrucianism, and Pavlovian psychology. The Companion also reveals the underlying organization of *Gravity's Rainbow*--how the book's myriad references form patterns of meaning and structure that have eluded both admirers and critics of the novel. The Companion is keyed to the pages of the principal American editions of *Gravity's Rainbow*: Viking/Penguin (1973), Bantam (1974), and the special, repaginated Penguin paperback (2000) honoring the novel as one of twenty Great Books of the Twentieth Century.

Deeno's Dream Journeys in the Big Blue Bubble Julia Langensiepen,2009-10-15 Deeno's Dream Journeys in the Big Blue Bubble is a fun and easy-to-use guide to a special relaxation technique for children. Adapted from the system of Autogenics, the six-week programme uses positive affirmations and guided imagery to help children manage their emotions, let go of anxiety and feel calm and confident. Each week, the child is given a new set of 'magic words': a relaxation tool they can draw upon whenever they feel stressed or anxious. An illustrated story based around these words, where the child is asked to imagine they are going on an adventure in a big blue bubble with Deeno the Dinosaur, draws the child into a safe and magical world and guides their minds and bodies into a state of deep, calming relaxation. Suggestions for follow-up practice and creative activities based around that week's words accompany each session, and encourage children to tap into their own imaginations. Separate introductions for parents, teachers and other professionals provide advice on how best to use the technique, whether at home, at school, or elsewhere. There is also a children's introduction, which introduces Deeno and explains the technique in accessible terms. Accessible and engaging, Deeno's Dream Journeys in the Big Blue Bubble is an ideal tool for helping children develop effective relaxation skills in a fun and imaginative way.
