Safari Dan Kainen,Carol Kaufmann,2012-10-16 A New York Times bestseller, Safari is a magical journey for the whole family. Readers, as if on African safari, encounter eight wild animals that come alive using never-before-seen Photicular technology. Each full-color image is like a 3-D movie on the page, delivering a rich, fluid, immersive visual experience. The result is breathtaking. The cheetah bounds. The gazelle leaps. The African elephant snaps its ears. The gorilla munches the leaves off a branch. It's mesmerizing, as visually immediate as a National Geographic or Animal Planet special. Accompanying the images is Safari, the guide: It begins with an evocative journal of a safari along the Mara River in Kenya and interweaves the history of safaris. Then for each animal there is a lively, informative essay and an at-a-glance list of important facts. It's the romance of being on safari—and the thrill of seeing the animals in motion— in a book unlike any other.

Rwanda Philip Briggs,2023-12-06 Now into its eighth edition and written by Philip Briggs, the world's leading author of African guidebooks, Bradt's Rwanda has been the go-to guide for visitors to the 'Land of a Thousand Hills' for more than 20 years. Still the only standalone guide in English to this increasingly popular destination, it remains in a class of its own for in-depth information. With fresh research into developments across the country, Bradt's Rwanda includes expanded coverage of Gishwati-Mukura National Park, which opened to tourism in 2021, and up-to-date details of rapidly modernising Kigali, considered Africa's cleanest city. Rwanda continues to change and develop at an unprecedented pace - no country has a higher proportion of female parliamentarians - and there's hardly a more accessible part of Africa. It's no less intriguing for the convenience, however, and Rwanda's superlative natural attractions constantly improve, with growing animal populations, as in Akagera National Park, where Africa's Big Five (rhino, lion, leopard, elephant and buffalo) can be seen. This new edition also includes extensive maps and natural history information, while details of kayak and canoe excursions on Lake Kivu and the Mukungwa River complement advice about staying on tea plantations at Sorwathe or Gisovu. It contains everything you need to know about tracking mountain gorillas in Volcanoes National Park (workplace of primatologist Dian Fossey of Gorillas in the Mist fame) and chimpanzees in Nyungwe National Park (East Africa's largest surviving montane forest, harbouring numerous endemic birds and primates) and Gishwati-Mukura (which is also the only location for the rare golden monkey outside the Virunga mountains). Also covered are Nyanza, with its hilltop Rukari King's Palace Museum, and the Ethnographic Museum of Rwanda, the top cultural site in Butare (Huye). A chapter on nearby cities and national parks provides key necessary information to take an excursion into neighbouring DRC, including how to see lowland gorillas. As not only the most in-depth guide available in English, but also the guide with the longest history in the country itself, Bradt's Rwanda is the indispensable companion for visitors, including wildlife enthusiasts and Africa aficionados.

Safari Mazes Janet Sacks,2006-03 Take a safari through the savanna! With their special pen to guide them, kids will wend their way along the river, around a water hole, and past snakes in the grass. They'll branch out with a swinging monkey to find the vine it's playing on, and map a path from animal to animal. The charming drawings feature plenty of appealing creatures, and as children solve each maze, they'll also learn fascinating facts about lions, leopards, black rhinos, chimps, gorillas, and other jungle beasts.
