boxes are revised to show typical code examples rather than abstract notation. This includes optional example modules using Alice and Greenfoot. The examples feature annotations with dos and don'ts along with cross references to more detailed explanations in the text. New tables show a large number of typical and cautionary examples. New programming and review problems are also presented that ensure a broad coverage of topics. In addition, Java 7 features are included to provide programmers with the most up-to-date information.

   Solitaire Spirit Les Powles,2012-01-15 Les Powles only had 8 hours of sailing experience when he decided to sail solo around the world. Many novices would be content to just dream of such an adventure, and maybe get as far as a solo Channel crossing a couple of years down the line. Not so Les Powles, one of the twentieth century's most extraordinary and eccentric sailors. Les was in his 50s when he built himself a yacht with little prior knowledge of boatbuilding. Remarkably he made it across the Atlantic, though his navigation skills didn't match his boatbuilding abilities; his first landfall was Brazil. He'd been aiming for Barbados – 100 miles north, and in a different hemisphere! Three complete solo circumnavigations followed, all of them full of incident. The last one saw him given up for dead when he hadn't been heard from for four months. His boat had been damaged in a storm, he'd lost all communications and had virtually run out of food. When he sailed up the Lymington River (aged 70) in a skeletal state his arrival caused a media frenzy. Lymington Yacht Haven subsequently gave him a free berth for life. A terrific achiever who has beaten the odds, Les Powles tells his story in a lively, entertaining, humorous and compelling way. It will resonate with sailors and non sailors alike, and may inspire one of them to become the twenty-first century's Les Powles.
