**MADA and the MAGIC TREE: Script 1 of the "Films I Never Got To Make" Book Series.** Tony White,2019-10-22 It is said that ADAM was the first man who fell from God's grace. MADA's journey is a return to Godhead - an imaginative hero's journey, where a blind youth embarks on a long metaphysical quest that enables him to not only restore his sight but to also see his true, higher self for the very first time. MADA's quest is one that begins on the earth and takes him to the stars. It

is inspired by ancient astrological wisdom, framed within an established Kabbalistic ground-plan. MADA's quest is our quest too, being a path of discovery that we must all take eventually. Tony White is a respected award-winning animator, author and teacher. He has also worked as an astrological counselor for the past several years, following a lifetime's restless search into all things metaphysical. MADA and the MAGIC TREE is the screenplay for a full-length animated feature film that Tony has always dreamed of making. However, with the absence of the animation industry's disinterest in funding original and innovative hand-drawn movies, Tony has now decided to release his script in this published format as one of his Films I never got to make book series. That way others can enjoy his movie in the privacy of their own imagination.

### **Tap the Magic Tree Board Book** Christie

Matheson, 2016-06-07 The acclaimed interactive picture book about the changing seasons. "Like Hervé Tullet's *Press Here*, Matheson's *Tap the Magic Tree* proves you don't need apps for interactivity," praised the New York Times. This board book edition is perfect for little hands. Every book needs you to turn the pages. But not every book needs you to tap it, shake it, jiggle it, or even blow it a kiss. Innovative and timeless, *Tap the Magic Tree* asks you to help one lonely tree change with the seasons. Now that's interactive—and magical! It begins with a bare brown tree. But tap that tree, turn the page, and one bright green leaf has sprouted! Tap again—one, two, three, four—and four more leaves have grown on the next page. Pat, clap, wiggle, jiggle, and see blossoms bloom, apples grow, and the leaves swirl away with the autumn breeze. The collage-and-watercolor art evokes the bright simplicity of Lois Ehlert and Eric Carle and the interactive concept will delight fans of *Pat the Bunny*. Combining a playful spirit and a sense of wonder about nature, Christie Matheson has created a new modern classic that is a winner in every season—and every story time! And don't miss the follow-up,

**Rules of Play** Katie Salen Tekinbas, Eric

Zimmerman, 2003-09-25 An impassioned look at games and game design that offers the most ambitious framework for understanding them to date. As pop culture, games are as important as film or television—but game design has yet to develop a theoretical framework or critical vocabulary. In *Rules of Play* Katie Salen and Eric Zimmerman present a much-needed primer for this emerging field. They offer a unified model for looking at all kinds of games, from board games and sports to computer and video games. As active participants in game culture, the authors have written *Rules of Play* as a catalyst for innovation, filled with new concepts, strategies, and methodologies for creating and understanding games. Building an aesthetics of interactive systems, Salen and Zimmerman define core concepts like play, design, and interactivity. They look at games through a series of eighteen game design schemas, or conceptual frameworks, including games as systems of emergence and information, as contexts for social play, as a storytelling medium, and as sites of cultural resistance. Written for game scholars, game developers, and interactive designers, *Rules of Play* is a textbook, reference book, and theoretical guide. It is the first comprehensive attempt to establish a solid theoretical framework for the emerging discipline of game design.
