Forms of List-Making: Epistemic, Literary, and Visual Enumeration Roman Alexander Barton, Julia Böckling, Sarah Link, Anne Rügge-meier, 2022-01-18 This open access book attempts to show that an examination of the list's formal features has the potential to produce genuine insights into the production of knowledge, the poetics of literature and the composition of visual art. Following a conceptual introduction, the twelve single-authored chapters place the list in a variety of well-researched contexts, including ancient Roman historiography, medieval painting, Enlightenment periodicals, nineteenth-century botanical geography, American Beat poetry and contemporary photobooks. With its interdisciplinary approach, this book is a unique contribution to an emerging field dedicated to the study of lists.

Watch Me Play T.L. Taylor, 2018-10-16 A look at the revolution in game live streaming and esports broadcasting Every day thousands of people broadcast their gaming live to audiences over the internet using popular sites such as Twitch, which reaches more than one hundred million viewers a month. In these new platforms for interactive entertainment, big esports events featuring digital game competitors live stream globally, and audiences can interact with broadcasters—and each other—through chat in real time. What are the ramifications of this exploding online industry? Taking readers inside home studios and backstage at large esports events, Watch Me Play investigates the rise of game live streaming and how it is poised to alter how we understand media and audiences. Through extensive interviews and immersion in this gaming scene, T. L. Taylor delves into the inner workings of the live streaming platform Twitch. From branding to business practices, she shows the pleasures and work involved in this broadcasting activity, as well as the management and governance of game live streaming and its hosting communities. At a time when gaming is being reinvented through social media, the potential of an ever-growing audience is transforming user-generated content and alternative distribution methods. These changes will challenge the meaning of ownership and intellectual property and open the way to new forms of creativity. The first book to explore the online phenomenon Twitch and live streaming games, Watch Me Play offers a vibrant look at the melding of private play and public entertainment.

Lineages and Advancements in Material Culture Studies Timothy Carroll, Antonia Walford, Shireen Walton, 2020-11-10 This volume comprises a curated conversation between members of the Material Culture Section of University College London Anthropology. In laying out the state of play in the field, it challenges how the anthropology of material culture is being done and argues for new directions of enquiry and new methods of investigation. The contributors consider the ramifications of specific research methods and explore new methodological frameworks to address areas of human experience that require a new analytical approach. The case studies draw from a range of contexts, including digital objects, infrastructure, data, extraterrestriality, ethnographic curation, and medical materiality. They include timely reappraisals of now-classical analytical models that have shaped the way we understand the object, the discipline, knowledge formation, and the artefact.

Encyclopedia of Schizophrenia W. Wolfgang Fleischhacker, Ian P. Stolerman, 2014-06-17 This mini-encyclopedia aims to provide a survey of the wide range of interventions available for treating schizophrenia at a level appropriate for non-specialists who are beginning their engagement in the area and for others as a source of reference for the specialist. The pharmacological options are considered alongside psychosocial management approaches and the advantages and disadvantages of each treatment modality are outlined. The entries are written by leading experts, including basic and clinical scientists in academia and industry, and include descriptions of many relevant fundamental psychological and biological processes of the disorder. The volume owes much to the Encyclopedia of Psychopharmacology edited by Ian Stolerman IP (published by Springer-Verlag in 2010), from which some entries are reproduced. Where entries deal with pharmacological interventions, the aim is to provide detailed information on the neuropsychopharmacology of the substances from domains such as clinical, experimental, and molecular pharmacology, insofar as they impact upon understanding of schizophrenia. Articles on non-drug interventions review the most recent evidence base related to commonly applied psychotherapeutic and rehabilitative measures. Other essays focus upon the key concepts and research methods used in the field, describing the main features of investigative techniques and outlining their roles, the types of information obtained and why they are needed; the advantages and limitations of a technique may also be summarized. The essays are complemented by many short definitions of important terms; in the interest of ease of reading, these definitions are not assigned to named authors; they are typically related to specific essays that they cross-reference and relevant authorship details can be found in the latter.

Law, Privacy and Surveillance in Canada in the Post-Snowden Era Michael Geist, 2015-05-28 Years of surveillance-related leaks from US whistleblower Edward Snowden have fuelled an international debate on privacy, spying, and Internet surveillance. Much of the focus has centered on the role of the US National Security Agency, yet there is an important Canadian side to the story. The Communications Security Establishment, the Canadian counterpart to the NSA, has played an active role in surveillance activities both at home and abroad, raising a host of challenging legal and policy questions. With contributions by leading experts in the field, Law, Privacy and Surveillance in Canada in the Post-Snowden Era is the right book at the right time: From the effectiveness of accountability and oversight programs to the legal issues raised by metadata collection to the privacy challenges surrounding new technologies, this book explores current issues torn from the headlines with a uniquely Canadian perspective.

The Value of an Archaeological Open-air Museum is in Its Use Roeland Paardekooper, 2012 There are about 300 archaeological open-air museums in Europe, which do more than simply present (re)constructed outdoor sceneries based on archaeology. They have an important role as education facilities and many showcase archaeology in a variety of ways. This research assesses the value of archaeological open-air museums, their management and their visitors, and is the first to do so in such breadth and detail. After a literature study and general data collection among 199 of such museums in Europe, eight archaeological open-air museums from different countries were selected as case studies. Management and visitors have different perspectives leading to different priorities and appreciation levels. The studies conclude with recommendations, ideas and strategies which are applicable not just to the eight archaeological open-air museums under study, but to any such museum in general. The recommendations are divided

into the six categories of management, staff, collections, marketing, interpretation and the visitors.

Ecosemiotics Timo Maran, 2020-12-10 This Element provides an accessible introduction to ecosemiotics and demonstrates its pertinence for the study of today's unstable culture-nature relations. Ecosemiotics can be defined as the study of sign processes responsible for ecological phenomena. The arguments in this Element are developed in three steps that take inspiration from both humanities and biological sciences: 1) Showing the diversity, reach and effects of sign-mediated relations in the natural environment from the level of a single individual up to the functioning of the ecosystem. 2) Demonstrating numerous ways in which prelinguistic semiotic relations are part of culture and identifying detrimental environmental effects that self-contained and purely symbol-based sign systems, texts and discourses bring along. 3) Demonstrating how ecosemiotic analysis centred on models and modelling can effectively map relations between texts and the natural environment, or the lack thereof, and how this methodology can be used artistically to initiate environmentally friendly cultural forms and practices.

Descending with angels Christian Suhr, 2019-07-28 Over several years, Christian Suhr followed Muslim patients being treated for jinn possession and psychosis in a Danish mosque and in a psychiatric hospital. Through rich filmic and textual case studies, he shows how the bodies and souls of Muslim patients become a battlefield between the moral demands of Islam and the psychiatric institutions of European nation-states. The book reveals how both psychiatric and Islamic healing work to produce relief from pain, and also entail an ethical transformation of the patient and the cultivation of religious and secular values through the experience of pain. Creatively exploring the analytic possibilities provided by the use of a camera, both text and film show how disruptive ritual techniques are used in healing to destabilise individual perceptions and experiences of agency, which allows patients to submit to the invisible powers of psychotropic medicine or God.

Artistic Experimentation in Music Darla Crispin, Bob Gilmore, 2014-10-07 Essential reading for anyone interested in artistic research applied to music This book is the first anthology of writings about the emerging subject of artistic experimentation in music. This subject, as part of the cross-disciplinary field of artistic research, cuts across boundaries of the conventional categories of performance practice, music analysis, aesthetics, and music pedagogy. The texts, most of them specially written for this volume, have a common genesis in the explorations of the Orpheus Research Centre in Music (ORCiM) in Ghent, Belgium. The book critically examines experimentation in music of different historical eras. It is essential reading for performers, composers, teachers, and others wanting to inform themselves of the issues and the current debates in the new field of artistic research as applied to music. The publication is accompanied by a CD of music discussed in the text, and by an online resource of video illustrations of specific issues. Contributors Paulo de Assis (ORCiM), Richard Barrett (Institute of Sonology, The Hague), Tom Beghin (McGill University), William Brooks (University of York, ORCiM), Nicholas G. Brown (University of East Anglia), Marcel Cobussen (University of Leiden), Kathleen Coessens (Vrije Universiteit Brussel, ORCiM); Paul Craenen (Director Musica, Impulse Centre for Music), Darla Crispin (Norwegian Academy of Music), Stephen Emmerson (Queensland Conservatorium, Griffith University, Brisbane), Henrik Frisk (Malmö Academy of Music), Bob Gilmore (ORCiM), Valentin Gloor (ORCiM), Yolande Harris (Center for Digital Arts and Experimental Media – DXARTS), University of Washington, Seattle), Mieko Kanno (Royal Conservatoire of Scotland), Andrew Lawrence-King (Guildhall School of Music and Drama, London, Royal Danish Academy of Music, Copenhagen, University of Western Australia), Catherine Laws (University of York, ORCiM), Stefan Östersjö (ORCiM), Juan Parra (ORCiM), Larry Polansky (University of California, Santa Cruz), Stephen Preston, Godfried-Willem Raes (Logos Foundation, Ghent), Hans Roels (ORCiM), Michael Schwab (ORCiM, Royal College of Art, London, Zurich University of the Arts), Anna Scott (ORCiM), Steve Tromans (Middlesex University), Luk Vaes (ORCiM), Bart Vanhecke (KU Leuven, ORCiM)

Clio's Lives Doug Munro, John G. Reid, 2017-10-09 Including contributions from leading scholars in the field from both Australia and North America, this collection explores diverse approaches to writing the lives of historians and ways of assessing the importance of doing so. Beginning with the writing of autobiographies by historians, the volume then turns to biographical studies, both of historians whose writings were in some sense nation-defining and those who may be regarded as having had a major influence on defining the discipline of history. The final section explores elements of collective biography, linking these to the formation of historical networks. A concluding essay by Barbara Caine offers a critical appraisal of the study of historians' biographies and autobiographies to date, and maps out likely new directions for future work. *Clio's Lives* is a very good scholarly collection that advances the study of autobiography and biography within the writing of history itself, taking theoretical questions in significant new directions. The contributors are well known and highly respected in the history profession and write with an insight and intellectual energy that will ensure the book has considerable impact. They examine cutting-edge issues about the writing of history at the personal level through autobiography and biography in diverse and innovative ways. Together the writers have provided reflective chapters that will be widely read for their impressive theoretical advances as well as being inspirational for new entrants to the disciplinary area. — Patricia Grimshaw, University of Melbourne *Clio's Lives* brings together a most interesting and varied cast of contributors. Its chapters contain sophisticated and well-penned ruminations on the uses of biography and autobiography among historians. These are clearly connected with the general themes of the volume. This delightfully mixed bag makes very good reading and, as well, will serve as a substantial contribution to the study of the biography and autobiography. — Eric Richards, Flinders University

Debugging Game History Henry Lowood, Raiford Guins, 2024-02-06 Essays discuss the terminology, etymology, and history of key terms, offering a foundation for critical historical studies of games. Even as the field of game studies has flourished, critical historical studies of games have lagged behind other areas of research. Histories have generally been fact-by-fact chronicles; fundamental terms of game design and development, technology, and play have rarely been examined in the context of their historical, etymological, and conceptual underpinnings. This volume attempts to “debug” the flawed historiography of video games. It offers original essays on key concepts in game studies, arranged as in a lexicon—from “Amusement Arcade” to “Embodiment” and “Game Art” to “Simulation” and “World Building.” Written by scholars and practitioners from a variety of disciplines, including game development, curatorship, media archaeology, cultural studies, and technology studies, the essays offer a series of distinctive critical “takes” on historical topics. The majority of essays look at game history from the outside in; some take deep dives into the histories of play and simulation to provide context for the development of electronic and digital games; others take on such technological components of games as code and audio. Not all essays are history or historical etymology—there is an analysis of game design, and a discussion of intellectual property—but they nonetheless raise questions for historians to consider. Taken together, the essays offer a foundation for the emerging study of game history. Contributors Marcelo Aranda, Brooke Belisle, Caetlin Benson-Allott, Stephanie Boluk, Jennifer deWinter, J. P. DiverCity - Global Cities as a Literary Phenomenon Melanie U. Pooch,2016-02 This work examines global cities as a literary phenomenon, the DiverCity, based on the reading of selected North American novels. Pooch provides the connecting link for exploring the triad of globalization and its effects, global cities as cultural nodal points, and cultural diversity in a globalizing age as a literary phenomenon.

Mary Wept Over the Feet of Jesus Chester Brown,2016-04-12 The idiosyncratic master Chester Brown continues his thoughts on sex work “The Bible is Chester Brown’s holy harlot. He plumbs the mysteries of her depths while she schools him in the ways of love. Like all of Chester’s work, *Mary Wept Over the Feet of Jesus* is confounding, yet addictive, instantly re-readable, and expands with revelations in his hundred pages of notes. A work of passion, research, and elegant clarity. My new favourite.”—Craig Thompson, author of *Blankets* and *Habibi* “Chester Brown is both God’s and the devil’s gift to the world.”—David Henry Sterry, author of *Hos*, *Hookers*, *Call Girls* and *Rent Boys* “Chester’s work never fails to surprise and delight me. Since I always enjoy mythic and legendary tales of harlots, I knew I would like *Mary Wept Over the Feet of Jesus*, but I was pleased and impressed by the way he used all these stories to illustrate a larger theme about humanity’s relationship to Divinity and the role my profession plays in that relationship. Chester shows that spirituality and sexuality, which are so often depicted in our culture as opposed to one another, are actually deeply intertwined.”—Maggie McNeill, author of *The Honest Courtesan* The iconoclastic and bestselling cartoonist of *Paying for It: A comic-strip memoir* about being a john and Louis Riel returns and with a polemical interpretation of the Bible that will be one of the most controversial and talked-about graphic novels of 2016. *Mary Wept Over the Feet of Jesus* is the retelling in comics form of nine biblical stories that present Chester Brown's fascinating and startling thesis about biblical representations of prostitution. Brown weaves a connecting line between Bathsheba, Ruth, Rahab, Tamar, Mary of Bethany, and the Virgin Mother. He reassesses the Christian moral code by examining the cultural implications of the Bible's representations of sex work. *Mary Wept Over the Feet of Jesus* is a fitting follow-up to Brown's sui generis graphic memoir *Paying for It*, which was reviewed twice in *The New York Times* and hailed by sex workers for Brown's advocacy for the decriminalization and normalization of prostitution. Brown approaches the Bible as he did the life of Louis Riel, making these stories compellingly readable and utterly pertinent to a modern audience. In classic Chester Brown fashion, he provides extensive handwritten endnotes that delve into the biblical lore that informs *Mary Wept Over the Feet of Jesus*.
