**Mahjong** Annelise Heinz,2021 Mahjong: A Chinese Game and the Making of Modern American Culture illustrates how the spaces between tiles and the moments between games have fostered distinct social cultures in the United States. This mass-produced game crossed the Pacific, creating waves of popularity over the twentieth century. Mahjong narrates the history of this game to show how it has created a variety of meanings, among them American modernity, Chinese American heritage, and Jewish American women's culture. As it travelled from China to the United States and caught on with Hollywood starlets, high society, middle-class housewives, and immigrants alike, mahjong became a quintessentially American pastime. This book also reveals the ways in which women leveraged a game for a variety of economic and cultural purposes, including entrepreneurship, self-expression, philanthropy, and ethnic community building. One result was the forging of friendships within mahjong groups that lasted decades. This study unfolds in two parts: the first half is focused on mahjong's history as related to consumerism, with a close examination of its economic and cultural origins. The second half of the book explores how mahjong interwove with the experiences of racial inclusion and exclusion in the evolving definition of what it means to be American. Mahjong players, promoters, entrepreneurs, and critics tell a broad story of American modernity. The apparent contradictions of the game - as both American and foreign, modern and supposedly ancient, domestic and disruptive of domesticity - reveal the tensions that lie at the heart of modern American culture--

**Merry Laughter and Angry Curses** Juan Wang,2012-10-23 Merry Laughter and Angry Curses reveals how the late-Qing-era tabloid press became the voice of the people. As periodical publishing reached a fever pitch, tabloids had free rein to criticize officials, mock the elite, and scandalize readers. Tabloid writers produced a massive amount of anti-establishment literature, whose distinctive humour and satirical style were both potent and popular. This book shows the tabloid community to be both a producer of meanings and a participant in the social and cultural dialogue that would shake the foundations of imperial China and lead to the 1911 Republican Revolution.

Understanding Crime in Villages-in-the-City in China Zhanguo Liu,T. Wing Lo,2019-08-15 Rapid urbanization of economic zones in China has resulted in a special social phenomenon: villages-in-the-city. Underdeveloped villages are absorbed during the expansion of urban areas, while retaining their rustic characteristics. Due to the rural characteristics of these areas, social security is much lower compared with the urbanized city. This book uses Tang Village, a remote area in the Shenzhen Special Economic Zone, as an example to establish a comprehensive analytical framework by integrating existing crime theories in analyzing villages-in-the-city. The analysis covers the community, individual, and macro levels to detail the diverse social and behavioral factors causing crime at multiple levels. First, a brief history of the urbanization process of Tang Village is provided to establish how urban planning contributed to the issues in the village today. The authors go on to explain how socially disorganized communities dictate the crime hotspots and the common types of crime. The book examines other risk factors that may contribute to the level of crime such as weak social controls, building density, and floating populations of poor working-class migrants. The routine activities of victims, offenders, and guardians are examined. The book concludes with the current trends in the social structure within the villages-in-the-city and their expected outcome after urbanization.

At Home in the World Xia Shi,2018-03-20 During the years spanning the late Qing dynasty and the early Republican era, the status of Chinese women changed in both subtle and decisive ways. As domestic seclusion ceased to be a sign of virtue, new opportunities emerged for a variety of women. Much scholarly attention has been given to the rise of the modern, independent "new women" during this period. However, far less is known about the stories of married nonprofessional women without modern educations and their public activities. In *At Home in the World*, Xia Shi unearths the history of how these women moved out of their sequestered domestic life; engaged in charitable, philanthropic, and religious activities; and repositioned themselves as effective public actors in urban Chinese society. Investigating the lives of individual women as well as organizations such as the YWCA and the Daoyuan, she shows how her protagonists built on the past rather than repudiating it, drawing on broader networks of family, marriage, and friendship and reconfiguring existing beliefs into essential components of modern Chinese gender roles. The book stresses the collective forms of agency these women exercised in their endeavors, highlighting the significance of charitable and philanthropic work as political, social, and civic engagement. Shi also analyzes how men—alive, dead, or absent—both empowered and constrained women's public ventures. She offers a new perspective on how the public, private, and domestic realms were being remade and rethought in early twentieth-century China, in particular, how the women navigated these developing spheres. *At Home in the World* sheds new light on how women exerted their influence beyond the home and expands the field of Chinese women's

history.
