I Am Error Nathan Altice, 2015-05-01 The complex material histories of the Nintendo Entertainment System platform, from code to silicon, focusing on its technical constraints and its expressive affordances. In the 1987 Nintendo Entertainment System videogame *Zelda II: The Adventure of Link*, a character famously declared: I AM ERROR. Puzzled players assumed that this cryptic message was a programming flaw, but it was actually a clumsy Japanese-English translation of "My Name is Error," a benign programmer's joke. In *I AM ERROR* Nathan Altice explores the complex material histories of the Nintendo Entertainment System (and its Japanese predecessor, the Family Computer), offering a detailed analysis of its programming and engineering, its expressive affordances, and its cultural significance. Nintendo games were rife with mistranslated texts, but, as Altice explains, Nintendo's translation challenges were not just linguistic but also material, with consequences beyond simple misinterpretation. Emphasizing the technical and material evolution of Nintendo's first cartridge-based platform, Altice describes the development of the Family Computer (or Famicom) and its computational architecture; the "translation" problems faced while adapting the Famicom for the U.S. videogame market as the redesigned Entertainment System; Nintendo's breakthrough console title *Super Mario Bros.* and its remarkable software innovations; the introduction of Nintendo's short-lived proprietary disk format and the design repercussions on *The Legend of Zelda*; Nintendo's efforts to extend their console's lifespan through cartridge augmentations; the Famicom's Audio Processing Unit (APU) and its importance for the chiptunes genre; and the emergence of software emulators and the new kinds of play they enabled.

The Licit Life of Capitalism Hannah Appel, 2019-12-13 *The Licit Life of Capitalism* is both an account of a specific capitalist project—U.S. oil companies working off the shores of Equatorial Guinea—and a sweeping theorization of more general forms and processes that facilitate diverse capitalist projects around the world. Hannah Appel draws on extensive fieldwork with managers and rig workers, lawyers and bureaucrats, the expat wives of American oil executives and the Equatoguinean women who work in their homes, to turn conventional critiques of capitalism on their head, arguing that market practices do not merely exacerbate inequality; they are made by it. People and places differentially valued by gender, race, and colonial histories are the terrain on which the rules of capitalist economy are built. Appel shows how the corporate form and the contract, offshore rigs and economic theory are the assemblages of liberalism and race, expertise and gender, technology and domesticity that enable the licit life of capitalism—practices that are legally

sanctioned, widely replicated, and ordinary, at the same time as they are messy, contested, and, arguably, indefensible.

Made to Be Seen Marcus Banks, Jay Ruby, 2012-08-01 Made to be Seen brings together leading scholars of visual anthropology to examine the historical development of this multifaceted and growing field. Expanding the definition of visual anthropology beyond more limited notions, the contributors to Made to be Seen reflect on the role of the visual in all areas of life. Different essays critically examine a range of topics: art, dress and body adornment, photography, the built environment, digital forms of visual anthropology, indigenous media, the body as a cultural phenomenon, the relationship between experimental and ethnographic film, and more. The first attempt to present a comprehensive overview of the many aspects of an anthropological approach to the study of visual and pictorial culture, Made to be Seen will be the standard reference on the subject for years to come. Students and scholars in anthropology, sociology, visual studies, and cultural studies will greatly benefit from this pioneering look at the way the visual is inextricably threaded through most, if not all, areas of human activity.

Buyology Martin Lindstrom, 2010-02-02 NEW YORK TIMES BESTSELLER • “A fascinating look at how consumers perceive logos, ads, commercials, brands, and products.”—Time How much do we know about why we buy? What truly influences our decisions in today’s message-cluttered world? In Buyology, Martin Lindstrom presents the astonishing findings from his groundbreaking three-year, seven-million-dollar neuromarketing study—a cutting-edge experiment that peered inside the brains of 2,000 volunteers from all around the world as they encountered various ads, logos, commercials, brands, and products. His startling results shatter much of what we have long believed about what captures our interest—and drives us to buy. Among the questions he explores: • Does sex actually sell? • Does subliminal advertising still surround us? • Can “cool” brands trigger our mating instincts? • Can our other senses—smell, touch, and sound—be aroused when we see a product? Buyology is a fascinating and shocking journey into the mind of today’s consumer that will captivate anyone who’s been seduced—or turned off—by marketers’ relentless attempts to win our loyalty, our money, and our minds.

Nam June Paik Melissa Chiu, Michelle Yun, 2014 This new, fully illustrated catalogue on the celebrated progenitor of video art, Nam June Paik (1932-2006), brings together a host of scholars, artists, and Paik’s own collaborators to illuminate the work of this innovative artist. An essay by curator Michelle Yun takes readers through Paik’s highly original career, providing insight into his radical and witty experiments with technology, especially in relation to the body, which he viewed as vital platforms for the future of art, science, and popular culture. Scholars David Joselit and John Maeda contribute texts examining the artist’s interest in new media and popular culture. A roundtable discussion with three of Paik’s own artistic collaborators and contemporary artists’ statements shed light on the collaborative process and Paik’s enduring influence on artistic practice today. Drawing on the newly established Nam June Paik Archive at the Smithsonian American Art Museum, this book also features never-before-published primary sources that highlight Paik’s prescient attitude towards the integration of increasingly indispensable technologies into modern life. I Don't Like the Blues B. Brian Foster,2020-10-08 How do you love and not like the same thing at the same time? This was the riddle that met Mississippi writer B. Brian Foster when he returned to his home state to learn about Black culture and found himself hearing about the blues. One moment, Black Mississippians would say they knew and appreciated the blues. The next, they would say they didn't like it. For five years, Foster listened and asked: How? Why not? Will it ever change? This is the story of the answers to his questions. In this illuminating work, Foster takes us where not many blues writers and scholars have gone: into the homes, memories, speculative visions, and lifeworlds of Black folks in contemporary Mississippi to hear what they have to say about the blues and all that has come about since their forebears first sang them. In so doing, Foster urges us to think differently about race, place, and community development and models a different way of hearing the sounds of Black life, a method that he calls listening for the backbeat.

Blood Brothers B. Lintner,2016-04-30 From pirates singing Ricky Martin to mob hits carried out with samurai swords, Bertil Lintner offers a fascinating look at organized crime in the Asia Pacific. Both Western and Asian pundits assert that shady deals are an Asian way of life. Some argue that corruption and illicit business ventures - gambling, prostitution, drug trafficking, gun running, oil smuggling - are entrenched parts of the Asian value system. Yet many Asian leaders maintain that their cities are safer than Sydney, Amsterdam, New York, and Los Angeles. Making use of expertise gained from twenty years of living in Asia, Lintner exposes the role crime plays in the countries of the Far East. In *Blood Brothers* , he takes you inside the criminal fraternities of Asia, examining these networks and their past histories in order to answer one question: How are civil societies all over the world to be protected from the worst excesses of increasingly globalised mobsters?

Game Preview Nicolae Sfetcu,2014-05-04 A guide for game preview and rules: history, definitions, classification, theory, video game consoles, cheating, links, etc. While many different subdivisions have been proposed, anthropologists classify games under three major headings, and have drawn some conclusions as to the social bases that each sort of game requires. They divide games broadly into, games of pure skill, such as hopscotch and target shooting; games of pure strategy, such as checkers, go, or tic-tac-toe; and games of chance, such as craps and snakes and ladders. A guide for game preview and rules: history, definitions, classification, theory, video game consoles, cheating, links, etc.

Extremely Loud & Incredibly Close Jonathan Safran Foer, 2005 Jonathan Safran Foer emerged as one of the most original writers of his generation with his best-selling debut novel, *Everything Is Illuminated*. Now, with humor, tenderness, and awe, he confronts the traumas of our recent history. What he discovers is solace in that most human quality, imagination. Meet Oskar Schell, an inventor, Francophile, tambourine player, Shakespearean actor, jeweler, pacifist, correspondent with Stephen Hawking and Ringo Starr. He is nine years old. And he is on an urgent, secret search through the five boroughs of New York. His mission is to find the lock that fits a mysterious key belonging to his father, who died in the World Trade Center on 9/11. An inspired innocent, Oskar is alternately endearing, exasperating, and hilarious as he careens from Central Park to Coney Island to Harlem on his search. Along the way he is always dreaming up inventions to keep those he loves safe from harm. What about a birdseed shirt to let you fly away? What if you could actually hear everyone's heartbeat? His goal is hopeful, but the past speaks a loud warning in stories of those who've lost loved ones before. As Oskar roams New York, he encounters a motley assortment of humanity who are all survivors in their own way. He befriends a 103-year-old war reporter, a tour guide who never leaves the Empire State Building, and lovers enraptured or scorned. Ultimately, Oskar ends his journey where it began, at his father's grave. But now he is accompanied by the silent stranger who has been renting the spare room of his grandmother's apartment. They are there to dig up his father's empty coffin.
