Facilitating Learning Christine Hogan,1999 [The book] is a series of tried and tested, practical classroom strategies for all tertiary educators in any discipline. These strategies are designed to energise students and classroom interaction. They are intended to assist student learning and comprehension, and to help develop better interactive relationships between lecturer and student, and between students themselves. By adopting and adapting the processes described in this book lecturers can significantly improve student motivation, comprehension and performance, as well as their own enjoyment of the teaching and learning process. [publisher's note]

Facilitating Empowerment Christine F. Hogan,2012 Empowerment is a term that has grown in use dramatically in community development and the business world in recent years. Until now, however,

few books have actually detailed the processes that individuals and groups can use in order to behave and act in a more empowered way. This thought-provoking book demystifies power and challenges the narrow ways in which it has been described in the past. Empowerment is about choice and this well-researched book is packed with proven techniques and numerous exercises that will enable adult learners to analyze their past experiences, change accepted definitions of power and empowerment and develop strategies to address problems and projects in a more 'empowered' way. The author encourages facilitators, trainers and individuals to adopt and adapt the wide variety of tools included in this book-tools that include: card sorts; stories and myths; exercises to practise new skills; film analysis; and the author's personal experiences. The book also includes detailed case studies from a variety of settings (business, education, healthcare and social work) and a sample empowerment workshop framework, complete with instructions for workshop participants. The processes have been used to great effect in Europe, the USA, Canada and Australasia. They have also been very successfully applied within a number of different cultures including Abroiginal groups in Australia, Moslem women in Malaysia, cross-cultural groups in South Africa, Danish and Nepalese development workers in Kathmandu, and lecturers in Mongolia!
