Tom Frasier, an infamous proponent of crashed saucers and frozen alien bodies, claims the local military base houses some intriguing secrets. After a visit from the FBI gives legitimacy to Tom's story, Ken will ultimately decide how far he's willing to go to witness humanity's greatest close encounter.

EcoGothic Andrew Smith, William Hughes, 2015-11-01 This book will provide the first study of how the Gothic engages with ecocritical ideas. Ecocriticism

has frequently explored images of environmental catastrophe, the wilderness, the idea of home, constructions of 'nature', and images of the post-apocalypse – images which are also central to a certain type of Gothic literature. By exploring the relationship between the ecocritical aspects of the Gothic and the Gothic elements of the ecocritical, this book provides a new way of looking at both the Gothic and ecocriticism. Writers discussed include Ann Radcliffe, Mary Shelley, Ambrose Bierce, Algernon Blackwood, Margaret Atwood, Cormac McCarthy, Dan Simmons and Rana Dasgupta. The volume thus explores writing and film across various national contexts including Britain, America and Canada, as well as giving due consideration to how such issues might be discussed within a global context.

Fear and Nature Christy Tidwell, Carter Soles, 2021-05-10 Ecohorror represents human fears about the natural world—killer plants and animals, catastrophic weather events, and disquieting encounters with the nonhuman. Its portrayals of animals, the environment, and even scientists build on popular conceptions of zoology, ecology, and the scientific process. As such, ecohorror is a genre uniquely situated to address life, art, and the dangers of scientific knowledge in the Anthropocene. Featuring new readings of the genre, *Fear and Nature* brings ecohorror texts and theories into conversation with other critical discourses. The chapters cover a variety of media forms, from literature and short fiction to manga, poetry, television, and film. The chronological range is equally varied, beginning in the nineteenth century with the work of Edgar Allan Poe and finishing in the twenty-first with Stephen King and Guillermo del Toro. This range highlights the significance of ecohorror as a mode. In their analyses, the contributors make explicit connections across chapters, question the limits of the genre, and address the ways in which our fears about nature intersect with those we hold about the racial, animal, and bodily "other." A foundational text, this volume will appeal to specialists in horror studies, Gothic studies, the environmental humanities, and ecocriticism. In addition to the editors, the contributors include Kristen Angierski, Bridgitte Barclay, Marisol Cortez, Chelsea Davis, Joseph K. Heumann, Dawn Keetley, Ashley Kniss, Robin L. Murray, Brittany R. Roberts, Sharon Sharp, and Keri Stevenson.

The China Clippers Basil Lubbock, 2015-02-15 This book is an effort to preserve the records of the most perfect type of sailing ship at the very height of its development, and it has been written entirely for sailors and those who are interested in shipping. I have put down as simply as possible the personal history of certain ships and that in the plain language of the sea without any attempt to explain technical or seafaring terms for the

benefit of the landsman. The materiell gathered together in this book has been culled from countless abstract log books, as well aa from information supplied to me, not only by the men who sailed the ships but also by their owners, designers and builders. Indeed I have to thank so many people for their help that a page of print would not contain their names, and I can only hope that this book may, perhaps, recall some pleasant sea memories and thus in some slight way recompense them for their kindness und trouble. Brands and Branding Rita Clifton,2009-04-01 With contributions from leading brand experts around the world, this valuable resource delineates the case for brands (financial value, social value, etc.) and looks at what makes certain brands great. It covers best practices in branding and also looks at the future of brands in the age of globalization. Although the balance sheet may not even put a value on it, a company's brand or its portfolio of brands is its most valuable asset. For well-known companies it has been calculated that the brand can account for as much as 80 percent of their market value. This book argues that because of this and because of the power of not-for-profit brands like the Red Cross or Oxfam, all organisations should make the brand their central organising principle, guiding every decision and every action. As well as making the case for brands and examining the argument of the anti-globalisation movement that brands are bullies which do harm, this second edition of *Brands and Branding* provides an expert review of best practice in branding, covering everything from brand positioning to brand protection, visual and verbal identity and brand communications. Lastly, the third part of the book looks at trends in branding, branding in Asia, especially in China and India, brands in a digital world and the future for brands. Written by 19 experts in the field, *Brands and Branding* sets out to provide a better understanding of the role and importance of brands, as well as a wealth of insights into how one builds and sustains a successful brand.

Brands and Branding Stephen Brown, 2016-08-17 Lecturers/Instructors - Request a free digital inspection copy here A fun and humorous introductory book, written in Stephen Brown's entertaining and highly distinctive style, that introduces curious readers to the key components of brands and helps them to begin to make sense of them - what they are, what they do, why and how - using plenty of examples and references drawn from a wide range brands such as Amazon, Apple, Google, Gucci, Nike, Nintendo, Starbucks, Swatch and The Worst Hotel in the World. With 3,000 branding books published each year, why would you (or your students) want to read *Brands & Branding*? Here are seven reasons why: It's introductory, aimed at undergraduate students or postgrads without a bachelor degree in business and assumes nothing more than readers' awareness of high profile brands such as Coca-Cola, Microsoft and Chanel It's indicative, focusing on the basics and thus being a more reliable revision aid than Lucozade It's immersive, taking readers on a journey and, working on the assumption that they have smartphones or tablet computers to hand, the print text links to images, articles and academic publications to give emphasis and context where appropriate. It's inclusive, considering articles and reports but also blogs, novels, newspapers, reviews, social media and other sources It's irreverent – branding is not always a deadly serious business! It's intimate, Stephen speaks to you directly and together you will pick your way through the sometimes weird and unfailingly wonderful world of brands and branding using examples rather than abstract ideas to illustrate points. It's inspirational, celebrating the curious and successful stories of brands from Cillit Bang to Cacharel Suitable for first and second year marketing or advertising students, and for those new to or interested in branding and who are keen to know more.

A Guide to the Guide Yaakov Yosef Reinman, Yosef Chaim Elazar Kohn, 2022-02-10 A Guide to the Guide is an annotated summary of the classic Moreh Nevuchim, known in English as A Guide for the Perplexed, one of the greatest philosophical works of the medieval period. The author, Moses Maimonides, the Rambam, is a towering figures of Jewish history and scholarship. Born in Spain in the twelfth century, he spent most of his life in Morocco and Egypt. He wrote this book for intelligent young people discovering the world of philosophy. While his system is based on classic Jewish writings, Maimonides quotes Aristotle exhaustively and contrasts Greek and Muslim philosophy. Not surprisingly, the publication of this book triggered a storm of rabbinic controversy. The author addresses a wide range of topics, such as creation vs. an ancient universe, divine attributes, divine unity, providence, prophecy and angels, as well as anthropomorphism in

the Bible and other issues of Torah interpretation. The last part of the book is an explanation of the commandments of the Torah and their rationales. The author describes pagan rites recorded in the ancient texts *The Book of Tom Tom* and *The Nabatean Agriculture* and points out that numerous commandments counteract them. Although there is a great deal of curiosity about *A Guide for the Perplexed*, it is a dense and complicated book, practically inaccessible to the average intelligent reader. *A Guide to the Guide* makes this book easily accessible. It is not a translation but rather a chapter-by-chapter summary written in easily understood modern English. It is also fully annotated with many illuminating insights and parallels to contemporary science and technology. If any chapter captures the reader's particular interest, he can go to a translation and plow through the original chapter in its entirety. This work is the product of a five-year collaboration between Yaakov Yosef Reinman, a Talmudist, historian and novelist, author of the twelve-volume *Strasbourg Saga* under the name Avner Gold, and Yosef Chaim Kohn, a medical doctor, scientist and mathematician.
