Smart Money Trading for Self-Directed Beginners J.R. Guita, Brand new traders all make the same mistakes over and over because they don't know any better, now you do. They do what everyone else is doing and study what everyone else is studying thus they have the same results and failures as everyone else, don't be that trader! If you can just take the time to read the information in this book, let it sink in and then continue on your educational journey you will have done yourself a huge favor and also begun to give yourself the required edge to succeed in this business. Brand new investors and traders also waste a serious amount of valuable education and training time on learning information that will not do them any good and can even cause them to lose some of their hard earned money right away in the live markets. No one wants that however it is a huge mistake that brand new traders make because as I said, they don't know any better. The learning curve in this business and it is a business can be long, brutal and very very expensive if you learn the wrong way. Smart Money Trading for Self-Directed Beginners aims to tell you how do study it the right way the first time and greatly reduce that long learning curve by showing you what the market is really made of and who are actually in control of it and when they are in control of it. When you have this information and can see it on a live price chart in real time and pull the trigger without hesitation you can make a lot of damn money! What are you waiting for?

10 Steps to Profitable Trading as a Beginner Slacker Trader, Mixing emotions with money-based decisions as a beginner is usually a plan for disaster! I ask people who come to me for help if they want to be a winner and be right all the time or be a money maker. Unfortunately, too many brand new traders think that being right is more important than making money, I beg to differ and you're crazy if you look at it any other way in this business. It is huge step when you make the decision to become a trader. Most brand new traders are getting into this business because they think they can make quick money and become rich beyond their dreams. While that may be true, it is not as easy as one thinks and certainly will not happen as soon as one thinks. There are only two groups of people who are doing business in the markets, the professionals and the retail investors and traders by the time you're done reading this book you'll be able to join the professionals. Pay attention to the 10 steps this book lays out if you wish to compete with the top professional traders in the world, there is information in this book that they don't want you to know. By buying this book you will have taken the first step needed to end up in the group that achieves consistent low risk profits on a daily basis, the professionals and the smart money. If you are not ready to take that step yet then you may be a part of the group called the sheeple of the herd that provides those profits. While that may seem like a harsh statement, I think it's important to point out the a few of the harshest realities of how the markets work right up front, so you know what's at stake when your hard-earned money is at risk in the live market and the techniques in this book are what the smart money uses every day to make a consistent unlimited income from trading in the financial markets and you can too.

How to make money right away as a Beginner Futures Trader J.R. Guita, 2017-10-13 The probability that you as a beginner futures trader will ever beat Wall Street is low. You can however learn to see what the smart money is doing and profit with them if you know what to look for and where to look for it on a price chart. This book can help you to understand what you need to see in order to consistently make money with the smart money. If you're brand new to investing and futures trading you can learn to go from financial mediocrity to financial prosperity in the time it takes you to read this entire book. This book details what it will take to become a consistently profitable investor and trader in today's financial markets working against the best investors and traders in the world. There is no faking it in the live financial markets for beginners, either you get it or you don't. The live markets will expose every flaw you have as a human being and then some. Smart money knows you are flawed and make the same mistakes over and over again and they prey on the retail investor and futures trader until they either do get it or are cleaned out of their account and sent on their way. Success in investing and futures trading is only success if it translates to spendable dollars. The lure of easy money has a very strong appeal and attracts innocent new people all the time, very few of

them end up successful, while the rest become the Sheeple of the herd and Muppets for Wall Street pros. The learning of this business is time consuming and most of what is taught to brand new investors and traders is not realistic to do in the live markets with the best futures traders on the planet. This book has some powerful information in it to guide the beginner investor and futures trader to the easiest way to reduce the long learning curve there can be in the business of making money with money. No other business in the world other than financial market trading allows you to work at your own pace and make an unlimited amount of money. A brand new futures trader with no experience can read this book and depending on how fast they can grasp the concepts and learn them can be making an income for themselves in as little as 30 days to 6 months.

All futures traders who have made it and make money consistently in the market are making it from the beginner traders who have visions of grandeur and dollar signs rolling around in their eyes like some old cartoon, don't be that trader. How to get Rich from Trading Josef Argent, New people getting into financial market trading most of the time have not done their research and have no idea they are entering a business where there are people in the live market who will walk over dead bodies to make money. They are entering a business where the smart money in the business are looking to drain your trading capital account on a daily basis and most of the time they do because new people come into the business unprepared or at best under prepared as well as underfunded and have not developed a trading edge before they enter the market with real money. How to get Rich from Trading is meant to expedite your learning curve which can sometimes be long and costly. You can Google this or that information however it would take you many years to learn what I am going to tell you in this book before you could invest any of your hard earned real money in the live markets and have a chance making real money trading in the financial markets of the world and some of the information in the book is specific to it and can't be found anywhere else. The best part about the method of trading in this book is that it can be used in any tradable liquid market on any time frame you wish to work in and anyone can learn it fast and make money right away with once they master learning how to use it properly. How to get Rich from Trading gives you the first steps needed to end up in the group of traders that achieves consistent low risk profits on a daily basis, the professionals and the smart money. If you are not ready to take that step yet then you may end up part of the group called the sheeple of the herd that provides those profits and make up the 97% of traders who lose all of their money from not being prepared to work in this brutal and harsh business. While that may seem like a harsh statement, I think it's important to point out the a few of the harshest realities of how the markets work right up front, so you know what's at stake when your hard-earned money is at risk in the live market, it is the sole purpose of this book. Ask yourself this question: do I want to be the one who pays or do I want to be the one who gets paid.
