**Learn Malay - Quick / Easy / Efficient** Pinhok Languages, 2019-05-14 A curated Malay word frequency list Are you looking for unconventional ways to speed up the process of learning Malay? Then this book is exactly what you are looking for. Following the Pareto principle (80/20 rule), this book is built to streamline the learning process by concentrating on the core words and sentence structures that make up everyday conversations. The result is a unique vocabulary book with 2000 of the most important Malay words and phrases ordered by their frequency of use. Who this Malay learning book is for: This book is for beginners and intermediate learners of Malay who are self-motivated and willing to spend 15 to 20 minutes a day on learning vocabularies. The simple structure of this vocabulary book is the result of taking all unnecessary things out allowing the learning effort to solely be spent on the parts that help you make the biggest progress in the shortest amount of time. If you are willing to put in 20 minutes of learning every day, this book is very likely the single best investment you can make if you are at a beginner or intermediate level. You will be amazed at the speed of progress within a matter of just weeks of daily practice. Who this Malay frequency list is not for: This book is not for you if you are an advanced learner of Malay. In this case, please go to our website or search for our Malay vocabulary book which comes with more vocabularies and is grouped by topic which is ideal for advanced learners who want to improve their language capabilities in certain fields. Furthermore, if you are looking for an all in one Malay learning book that guides you through the various steps of learning Malay, this book is most likely also not what you are looking for. This book contains vocabularies only and we expect buyers to learn things like grammar and pronunciation either from other sources or through language courses. The strength of this book is its focus on quick acquisition of core

vocabularies which comes at the expense of information many people might expect in a conventional language learning book. Please be aware of this when making the purchase. How to use this Malay workbook: This book is ideally used on a daily basis, reviewing a set number of pages in each session. The book is split into sections of 50 vocabularies which allows you to step by step progress through the book. Let's for example say you are currently reviewing vocabularies 101 to 200. Once you know vocabularies 101 to 150 very well, you can start learning vocabularies 201 to 250 and on the next day skip 101-150 and continue reviewing vocabularies 151 to 250. This way, step by step, you will work your way through the book and your language skills will jump with each page you master. Some final thoughts: Like many language hacking methods, this book is quite unconventional in its approach, but for a driven person that uses it correctly it can significantly speed up the learning process. Vocabulary books have been around for centuries and as with so many things that have been around for some time, they are not very fashionable and a bit boring, but they usually work quite well – and that is what counts in the end.

The Malay language, also known locally as bahasa Melayu, is an Austronesian language spoken by the Malay people who reside in the Malay Peninsula, southern Thailand, the Philippines, Singapore, central eastern Sumatra, the Riau islands, and parts of the coast of Borneo. It is an official language of Malaysia, Brunei and Singapore. It is very similar to Indonesian, known locally as Bahasa Indonesia, the official language of Indonesia and also the native of Papua New Guinea. There are around 350 - 400 Million people speak this language estimated by me. In Malaysia, the language is known as Bahasa Melayu or Bahasa Malaysia, which means the Malay, or Malaysian, language. The latter term, which was introduced by the National Language Act 1967, was predominant until the 1990s, when most academics and government officials reverted to the older term, which is used in the Malay version of the Federal Constitution. Indonesia adopted a form of Malay as its official language upon independence, naming it Bahasa Indonesia and although a degree of mutual intelligibility exists, Indonesian is considerably distinct from Malay as spoken in Malaysia. In Singapore and Brunei it is known simply as Malay or Bahasa Melayu.
