The Last Pirate Tony Dokoupil, 2015-01-06 A haunting and often hilarious memoir of growing up in 80s Miami as the son of Big Tony, a flawless model of the great American pot baron. To his fellow smugglers, Anthony Edward Dokoupil was the Old Man. He ran stateside operations for one of the largest marijuana rings of the twentieth century. In all they sold hundreds of thousands of pounds of marijuana, and Big Tony distributed at least fifty tons of it. To his son he was a rambling man who was also somehow a present father, a self-destructive addict who ruined everything but affection. Here Tony Dokoupil blends superb reportage with searing personal memories, presenting a probing chronicle of pot-smoking, drug-taking America from the perspective of the generation that grew up in the aftermath of the Great Stoned Age.

Hatching Twitter Nick Bilton, 2014-09-30 The dramatic, unlikely story behind the founding of Twitter, by New York Times bestselling author and Vanity Fair special correspondent The San Francisco-based technology company Twitter has become a powerful force in less than ten years. Today it's everything from a tool for fighting political oppression in the Middle East to a marketing must-have to the world's living room during live TV events to President Trump's preferred method of communication. It has hundreds of millions of active users all over the world. But few people know that it nearly fell to pieces early on. In this rousing history that reads like a novel, Hatching Twitter takes readers behind the scenes of Twitter's early exponential growth, following the four hackers—Ev Williams, Jack Dorsey, Biz Stone, and Noah Glass, who created the cultural juggernaut practically by accident. It's a drama of betrayed friendships and high-stakes power struggles over money, influence, and control over a company that was growing faster than

they could ever imagine. Drawing on hundreds of sources, documents, and internal e-mails, Bilton offers a rarely-seen glimpse of the inner workings of technology startups, venture capital, and Silicon Valley culture.

Shovel Ready Bernard K. Means,2013-01-25 Beginning in March 1933 with the excavation of the Marksville mound site in Louisiana, and throughout the next decade, ordinary citizens labored in New Deal jobs programs and participated in archaeological excavations across the United States. Under the auspices of work relief programs, people were provided the opportunity to explore and document American Indian villages and mounds, important historic places, and homes associated with events and people critical to the foundation of the country.

Teach Like Finland: 33 Simple Strategies for Joyful Classrooms Timothy D. Walker,2017-04-18 Easy-to-implement classroom lessons from the world's premier educational system. Finland shocked the world when its fifteen-year-olds scored highest on the first Programme for International Student Assessment (PISA), a set of tests touted for evaluating critical-thinking skills in math, science, and reading. That was in 2001; but even today, this tiny Nordic nation continues to amaze. How does Finnish education—with short school days, light homework loads, and little standardized testing—produce students who match the PISA scores of high-powered, stressed-out kids in Asia? When Timothy D. Walker started teaching fifth graders at a Helsinki public school, he began a search for the secrets behind the successes of Finland's schools. Walker wrote about several of those discoveries, and his Atlantic articles on this subject became hot topics of conversation. Here, he gathers all he learned and reveals how any teacher can implement many of Finland's best practices. Remarkably, Finland is prioritizing the joy of learning in its newest core curricula and Walker carefully highlights specific strategies that support joyful K-12 classrooms and integrate seamlessly with educational standards in the United States. From incorporating brain breaks to offering a peaceful learning environment, this book pulls back the curtain on the joyful teaching practices of the world's most lauded school system. His message is simple but profound: these Finland-inspired strategies can be used in the U.S. and other countries. No educator—or parent of a school-aged child—will want to miss out on the message of joy and change conveyed in this book.

Permanent Crisis Paul Reitter,Chad Wellmon,2023-04-05 Leads scholars and anyone who cares about the humanities into more effectively analyzing the fate of the humanities and digging into the very idea of the humanities as a way to find meaning and coherence in the world. The humanities, considered by many as irrelevant for modern careers and hopelessly devoid of funding, seem to be in a perpetual state of crisis, at the mercy of modernizing and technological forces that are driving universities towards academic pursuits that pull in grant money and direct students to lucrative careers. But as Paul Reitter and Chad Wellmon show, this crisis isn't new—in fact, it's as old as the humanities themselves. Today's humanities scholars experience and react to basic pressures in ways that are strikingly similar to their nineteenth-century German counterparts. The humanities came into their own as scholars framed their work as a unique resource for resolving crises of meaning and value that threatened other cultural or social goods. The self-understanding of the modern humanities didn't merely take shape in response to a perceived crisis; it also made crisis a core part of its project. Through this critical, historical perspective, *Permanent Crisis* can take scholars and anyone who cares about the humanities beyond the usual scolding, exhorting, and hand-wringing into clearer, more effective thinking about the fate of the humanities. Building on ideas from Max Weber and Friedrich Nietzsche to Helen Small and Danielle Allen, Reitter and Wellmon dig into the very idea of the humanities as a way to find meaning and coherence in the world. ,

Unfollow Megan Phelps-Roper,2019-10-08 The activist and TED speaker Megan Phelps-Roper reveals her life growing up in the most hated family

in America At the age of five, Megan Phelps-Roper began protesting homosexuality and other alleged vices alongside fellow members of the Westboro Baptist Church in Topeka, Kansas. Founded by her grandfather and consisting almost entirely of her extended family, the tiny group would gain worldwide notoriety for its pickets at military funerals and celebrations of death and tragedy. As Phelps-Roper grew up, she saw that church members were close companions and accomplished debaters, applying the logic of predestination and the language of the King James Bible to everyday life with aplomb—which, as the church’s Twitter spokeswoman, she learned to do with great skill. Soon, however, dialogue on Twitter caused her to begin doubting the church’s leaders and message: If humans were sinful and fallible, how could the church itself be so confident about its beliefs? As she digitally jousts with critics, she started to wonder if sometimes they had a point—and then she began exchanging messages with a man who would help change her life. A gripping memoir of escaping extremism and falling in love, *Unfollow* relates Phelps-Roper’s moral awakening, her departure from the church, and how she exchanged the absolutes she grew up with for new forms of warmth and community. Rich with suspense and thoughtful reflection, Phelps-Roper’s life story exposes the dangers of black-and-white thinking and the need for true humility in a time of angry polarization.

No Encore! Drew Fortune, 2019-07-16 “They hated us and started throwing cups, bottles, change, chairs, and anything that wasn’t nailed down.” —Dean Ween This hilarious, sometimes horrifying, collection spans four decades and chronicles the craziest, druggiest, and most embarrassing concert moments in music history—direct from the artists who survived them. “In the midst of my insanity, I thought it would be a very romantic gesture to go into Fiona Apple’s dressing room and write a message on her wall in my own blood.” —Dave Navarro From wardrobe malfunctions to equipment failures, from bad decisions to even worse choices, this is a riveting look into what happens when things go wrong onstage and off. “Ozzy had a sixty-inch teleprompter with the song lyrics, and that got stolen, along with microphones, snare drums and cymbals. Our drummer at the time was stabbing people in the neck with his drumstick.” —Zakk Wylde *No Encore!* is an unflinchingly honest account of the shows that tested the dedication to a dream—from Alice Cooper’s python having a violent, gastric malfunction on stage to Lou Barlow’s disastrous attempt to sober up at Glastonbury, from Shirley Manson’s desperate search for a bathroom to the extraordinary effort made to awaken Al Jourgenson as Ministry was taking the stage. As Hunter S. Thompson famously wrote, “Buy the ticket, take the ride.” “I go to exit the venue, and there’s 25 people marching towards us. It’s about 3:00 AM, and they weren’t there to be nice. They were carrying bats, boards, chains, hammers, and they were coming for us.” —Dee Snider

Brainstorm Rebecca Gardyn Levington, 2022-07-15 When it’s time to write in class, one child feels like she has absolutely nothing to say. All Our Waves Are Water Jaimal Yogis, 2017-07-04 In this meditative memoir—a compelling fusion of *Barbarian Days* and the journals of Thomas Merton—the author of *Saltwater Buddha* reflects on his failing toward enlightenment, his continued search to find meaning and a greater understanding of grace in the world’s oceans as well as everyday life. Born to a family of seekers, Jaimal Yogis left home at sixteen to surf in Hawaii and join a monastery—an adventure he chronicled in *Saltwater Buddha*. Now, in his early twenties, his heart is broken and he’s lost his way. Hitting the

road again, he lands in a monastery in Dharamsala, where he meets Sonam, a displaced Tibetan. To help his friend, Jaimal makes a cockamamie attempt to reunite him with his family in Tibet by way of America. Though he does not succeed, witnessing Sonam's spirit in the face of failure offers Jaimal a deeper understanding of faith. When the two friends part, he cannot fathom the unlikely circumstances that will reunite them. All Our Waves Are Water follows Jaimal's trek from the Himalayas to Indonesia; to a Franciscan Friary in New York City to the dusty streets of Jerusalem; and finally to San Francisco's Ocean Beach. Along his journey, Jaimal prays and surfs; mourning a lost love and seeking something that keeps eluding him. The poet Rumi wrote, We are not a drop in the ocean. We are the ocean in a drop. All Our Waves Are Water is Jaimal's attempt to understand the ocean in a drop, to find that one moon shining in the water everywhere—to find the mystery that unites us.
