Seeing Through Maps Ward L. Kaiser, Denis Wood, 2001 Synopsis: Maps become a means of seeing the world from many perspectives in this appealing guide, which is aimed at training readers to look at images with a critical eye. The authors (a social scientist and a pastor/community organizer) challenge readers to stretch their intellectual boundaries while they wrap their minds around demonstrations of the many ways of making maps and the truth that no way is the right one. A final chapter provides a guide to using map projections in human resource development and adult education. It's a smart book but not a beautiful one-many of the illustrations went muddied in the transfer from color to b&w, and seven unlovely pages of the publisher's advertising precede the index. Wide format: 11x8.5.

Vision Map Joel Malm,2014-10-01 Is there a gap between you and your dream? A few years back, Joël Malm had the idea to lead people on outdoor expeditions with a spiritual, God-centered focus. Following God's lead, he created a vision map, started his organization, and made it happen. This book is a response to the question he often gets: How do you do something like that? Whether you want to start a business, raise a family, run a marathon, plant a church, restore a relationship, or climb a mountain, you can take practical steps to see your vision come to be. Vision Map is not a formula for overnight success, but it is a template to start anyone on the path to envisioning a God-given dream. God often gives us a difficult problem to solve, and we just need a push in the right direction to find the answer.
