Standing on Holy Ground in the Middle Ages Lucy Donkin,2022-02-15 Standing on Holy Ground in the Middle Ages illuminates how the floor surface shaped the ways in which people in medieval western Europe and beyond experienced sacred spaces. The ground beneath our feet plays a crucial, yet often overlooked, role in our relationship with the environments we inhabit and the spaces with which we interact. By focusing on this surface as a point of encounter, Lucy Donkin positions it within a series of vertically stacked layers—the earth itself, permanent and temporary floor coverings, and the bodies of the living above ground and the dead beneath—providing new perspectives on how sacred space was defined and decorated, including the veneration of holy footprints, consecration ceremonies, and the demarcation of certain places for particular activities. Using a wide array of visual and textual sources, Standing on Holy Ground in the Middle Ages also details ways in which interaction with this surface shaped people's identities, whether as individuals, office holders, or members of religious communities. Gestures such as trampling and prostration, the repeated employment of specific locations, and burial beneath particular people or actions used the surface to express likeness and difference. From pilgrimage sites in the Holy Land to cathedrals, abbeys, and local parish churches across the Latin West, Donkin frames the ground as a shared surface, both a feature of diverse, distant places and subject to a variety of uses over time—while also offering a model for understanding spatial relationships in other periods, regions, and contexts.

Trophies of Victory T. Leslie Shear Jr.,2016-08-16 The Greek military victories at Marathon, Salamis, and Plataia during the Persian Wars profoundly shaped fifth-century politics and culture. By long tradition, the victors commemorated their deliverance by dedicating thank-offerings in the sanctuaries of their gods, and the Athenians erected no fewer than ten new temples and other buildings. Because these buildings were all at some stage of construction during the political ascendancy of Perikles, in the third quarter of the fifth century, modern writers refer to them collectively as the Periklean building program. In *Trophies of Victory*, T. Leslie Shear, Jr., who directed archaeological excavations at the Athenian Agora for more than twenty-five years, provides the first comprehensive account of the Periklean buildings as a group. This richly illustrated book examines each building in detail, including its archaeological reconstruction, architectural design, sculptural decoration, chronology, and construction history. Shear emphasizes the Parthenon's revolutionary features and how they influenced smaller contemporary temples. He examines inscriptions that show how every aspect of public works was strictly controlled by the Athenian Assembly. In the case of the buildings on the Acropolis and the Telesterion at Eleusis, he looks at accounts of their overseers, which illuminate the administration, financing, and organization of public works. Throughout, the book provides new details about how the Periklean buildings proclaimed Athenian military prowess, aggrandized the city's cults and festivals, and laid claim to its religious and cultural primacy in the Greek world.

Global Heritage Stone D. Pereira, B.R. Marker, S. Kramar, B.J. Cooper, B.E. Schouenborg, 2015-06-04 This Special Publication is dedicated to heritage stone: those natural stones that have special significance in human culture. Some stones that have had important uses in the past are now neglected because they are no longer extracted. Others are still commercially important, but their heritage uses have not been well documented in widely available sources. The Heritage Stone Task Group of the International Union of Geological Sciences is working to establish a new formal designation of 'Global Heritage Stone Resource' to recognize those stones that have had internationally significant architectural and ornamental uses. The aim is to spread awareness of the cultural heritage aspects of these stones, to help to encourage continued supply for maintenance and repair of important monuments and to preserve historically important quarries. The aim is neither to promote nor to limit these stones for new construction: in some cases continuing commercial use might help to ensure future supplies for building conservation purposes.
