Quad Plus and Indo-Pacific Jagannath P.

Panda, Ernest Gunasekara-Rockwell, 2021-12-28 This book explores how the Quad Plus mechanism is set to reshape the global multilateral economic and security co-operations between Quad partner countries and the rest of the world. With the Quad partners - Australia, India, Japan and the United States - seeing deteriorating ties with China, the book provides a holistic understanding of the reasons why Quad Plus matters and what it means for the post-COVID Indo-Pacific and Asian order. It goes beyond the existing literature of the global Post-COVID reality and examines how Quad Plus can grow and find synergy with national and multilateral Indo-Pacific initiatives. The chapters analyze the mechanism's uncharacteristic

yet active approach of including countries like South Korea, Israel, Brazil, New Zealand and ASEAN/Vietnam for their successful handling of the pandemic crisis, thereby reshaping the new world's geopolitical vision. A unique study focused solely on the intricacies and the broader dialogue of the 'Quad Plus' narrative, the book caters to strategic audiences as well as academics researching International Relations, Politics, and Indo-Pacific and Asian Studies.

Philosophy and the Martial Arts Graham Priest, Damon Young, 2014-09-19 This is the first substantial academic book to lay out the philosophical terrain within the study of the martial arts and to explore the significance of this fascinating subject for contemporary philosophy. The book is divided into three sections. The first section concerns what philosophical reflection can teach us about the martial arts, and especially the nature and value of its practice. The second section deals with the other direction of the dialectical interplay between philosophy and the martial arts: how the martial arts can inform philosophical issues important in their own right. Finally, because many of the notable martial arts are of Asian origin, there are particularly close links between the arts and Asian philosophies - and Buddhism in particular - and therefore the last section is devoted to this topic. The essays in this

collection deal with a wide range of philosophical issues: normative ethics, meta-ethics, aesthetics, phenomenology, the philosophy of mind, Ancient Greek and Buddhist thought. By demonstrating the very real nature of the engagement between the martial arts and philosophy, this book is essential reading for any serious student or scholar with an interest in the martial arts, Eastern philosophy, the philosophy of sport, or the study of physical culture.
