Math Fact Fluency Jennifer Bay-Williams, Gina Kling, 2019-01-14 This approach to teaching basic math facts, grounded in years of research, will transform students' learning of basic facts and help them become more confident, adept, and successful at math. Mastering the basic facts for addition, subtraction, multiplication, and division is an essential goal for all students. Most educators also agree that success at higher levels of math hinges on this fundamental skill. But what's the best way to get there? Are flash cards, drills, and timed tests the answer? If so, then why do students go into the upper elementary grades (and beyond) still counting on their fingers or experiencing math anxiety? What does research say about teaching basic math facts so they will stick? In *Math Fact Fluency*, experts Jennifer Bay-Williams and Gina Kling provide the answers to these questions—and so much more. This book offers everything a teacher needs to teach, assess, and communicate with parents about basic math fact instruction, including The five fundamentals of fact fluency, which provide a research-based framework for effective instruction in the basic facts. Strategies students can use to find facts that are not yet committed

to memory. More than 40 easy-to-make, easy-to-use games that provide engaging fact practice. More than 20 assessment tools that provide useful data on fact fluency and mastery. Suggestions and strategies for collaborating with families to help their children master the basic math facts. Math Fact Fluency is an indispensable guide for any educator who needs to teach basic math facts.

3rd Grade Math Games & Puzzles Amy Kraft, Sylvan Learning, Inc, 2010 Success in math requires children to make connections between the real world and math concepts in order to solve problems. Successful problem solvers will be ready for the challenges of mathematics as they advance to more complex topics. The games and puzzles in this workbook are designed to help children enjoy practicing their math skills. Best of all, they'll have lots of fun doing it! Here's a peek at what's inside: Code Breaker After solving problems with addition and subtraction, multiplication, fractions, temperature, time, or money, students use the answers to solve a fun riddle. Uniform Central The Callicoon Clippers need new hockey uniforms. Students see how many uniforms can be made by choosing from different hockey jerseys and pants. Fraction Factory Using the game board in the workbook, players see who can move the quickest through fractions of muffins to get to the box at the end. Incredible Illusions Students fill in blanks in a tessellation, or a repeating pattern of shapes, to discover the illusion. Plus! Game Pieces

The workbook includes spinners, pattern blocks, tangram pieces, and beans for students to cut out and use with the games and puzzles. Give your child's confidence in math a boost with 3rd Grade Math Games & Puzzles.
