The Handbook of the Economics of Corporate Governance Benjamin Hermalin,Michael Weisbach,2017-09-18 The Handbook of the Economics of Corporate Governance, Volume One, covers all issues important to economists. It is organized around fundamental principles, whereas multidisciplinary books on corporate governance often concentrate on specific topics. Specific topics include Relevant Theory and Methods, Organizational Economic Models as They Pertain to Governance, Managerial Career Concerns, Assessment & Monitoring, and Signal Jamming, The Institutions and Practice of Governance, The Law and Economics of Governance, Takeovers, Buyouts, and the Market for Control, Executive Compensation, Dominant Shareholders, and more. Providing excellent overviews and summaries of extant research, this book presents advanced students in graduate programs with details and perspectives that other books overlook. Concentrates on underlying principles that change little, even as the empirical literature moves on Helps readers see corporate governance systems as interrelated or even intertwined external (country-level) and internal (firm-level) forces Reviews the methodological tools of the field (theory and empirical), the most relevant models, and the field's substantive findings, all of which help point the way forward

Map and Territory Eliezer Yudkowsky,2018-12-14 When human brains try to do things, they can run into some very strange problems. Self-deception, confirmation bias, magical thinking-it sometimes seems our ingenuity is boundless when it comes to shooting ourselves in the foot. In Map and Territory, decision theorist Eliezer Yudkowsky asks what a martial art of rationality would look like, beginning with the basic fighting stance-the orientation toward the world that lets us get the most bang for our cognitive buck, that best positions us to understand and react to brains' strange acts of self-destruction.

Day Kenneth Goldsmith,2003 Poetry. I am spending my 39th year practicing uncreativity. On Friday, September 1, 2000, I began retyping the day's NEW YORK TIMES word for word, letter for letter, from the upper left hand corner to the lower right hand corner, page by page. With these words, Kenneth Goldsmith embarked upon a project which he termed uncreative writing, that is: uncreativity as a constraint-based process; uncreativity as a creative practice. By typing page upon page, making no distinction between article, editorial and advertisement, disregarding all typographic and graphical treatments, Goldsmith levels the daily newspaper. DAY is a monument to the ephemeral, comprised of yesterday's news, a fleeting moment concretized, captured, then reframed into the discourse of literature. When I reach 40, I hope to have cleansed myself of all creativity-Kenneth Goldsmith.
