Enigma Catherine Coulter, 2017-09-12 The highly anticipated twenty-first FBI thriller by #1 New York Times bestselling author Catherine Coulter presents Agents Savich and Sherlock with two baffling mysteries. Working with Agent Cam Wittier (Insidious) and New York-based former Special Forces agent Jack Cabot, they must race against the clock to catch an international criminal and solve the enigma of the man called John Doe. When Agent Dillon Savich saves Kara Moody from a seemingly crazy man, he doesn't realize he will soon be facing a scientist who wants to live forever and is using "John Doe" to help him. But when the scientist, Lister Maddox, loses him, he ups the stakes and targets another to take his experiments to the next level. It's a race against time literally as Savich and Sherlock rush to stop him and save both present and future victims of his experiments. In the meantime, Cam Wittier and Jack Cabot must track a violent criminal through the Daniel Boone National Forest. When he escapes through a daring rescue, the agents have to find out who set his escape in motion and how it all ties into the murder of

Mia Prevest, the girlfriend of the president's Chief of Staff's only son, Saxton Hainny. It's international intrigue at the highest levels and they know they have to succeed or national security is compromised. Featuring Coulter's signature "breakneck plot and magnetic characters" (Huffington Post), *Enigma* is a shocking thrill ride that will keep you turning pages as fast as you can.

The Golden Maze Richard Fidler, 2020-08-01 Beloved ABC
broadcaster and bestselling author of *Ghost Empire* and *Saga Land*, Richard Fidler is back with a personally curated history of the magical city that is Prague. In 1989, Richard Fidler was living in London as part of the provocative Australian comedy trio The Doug Anthony All Stars when revolution broke out across Europe. Excited by this galvanising historic, human, moment, he travelled to Prague, where a decrepit police state was being overthrown by crowds of ecstatic citizens. His experience of the Velvet Revolution never let go of him. Thirty years later Fidler returns to Prague to uncover the glorious and grotesque history of Europe's most instagrammed and uncanny city: a jumble of gothic towers, baroque palaces and zig-zag lanes that has survived plagues, pogroms, Nazi terror and Soviet tanks. Founded in the ninth Century, Prague gave the world the golem, the robot, and the world's biggest statue of Stalin, a behemoth that killed almost everyone who touched it. Fidler tells the story of the reclusive emperor who brought the world's most brilliant minds to Prague Castle to uncover the occult secrets of the universe. He explores the Black Palace, the wartime headquarters of the Nazi SS, and he meets victims of the communist secret police. Reaching back into Prague's mythic past, he finds the city's founder, the pagan priestess Libussa who prophesised: I see a city whose glory will touch the stars. Following the story of Prague from its origins in medieval darkness to

its uncertain present, Fidler does what he does so well - curates an absolutely engaging and compelling history of a place. You will learn things you never knew, with a tour guide who is erudite, inquisitive, and the best storyteller you could have as your companion. PRAISE FOR THE GOLDEN MAZE: 'Fidler's passion and love for the ancient city infuses every word, pours off every page, and if you've never been interested in Prague, it will find a way into your heart after reading this book.' - Favel Parrett, The Age 'In The Golden Maze, Richard Fidler covers acres of rich history with a light and loving touch.' - The Canberra Times 'Rollicking story of Prague.' - The Standard

The Judge of Ages John C. Wright, 2014-02-11 The year is 10,515 AD. The Hyades Armada, traveling at near lightspeed, will reach Earth in just four centuries to assess humanity's value as slaves. For the last 8,000 years, two opposing factions have labored to meet the alien threat in very different ways. One of them is Ximen del Azarchel, immortal leader of the mutineers from the starship Hermetic and self-appointed Master of the World, who has allowed his followers to tamper continuously with the evolutionary destiny of Man, creating one bizarre race after another in an apparent search for a species the Hyades will find worthy of conquest. The other is Menelaus Montrose, the posthuman Judge of Ages, whose cryonic Tombs beneath the surface of Earth have preserved survivors from each epoch created by the Hermeticists. Montrose intends to thwart the alien invaders any way he can, and to remain alive long enough to be reunited with his bride Rania, who is on a seventy-millennia journey to confront the Hyades' masters, tens of thousands of light-years away. Now, with the countdown to the Hyades' arrival nearing its end, del Azarchel and Montrose square off for what is to be their

final showdown for the fate of Earth, a battle of gunfire and cliometric calculus; powered armor and posthuman intelligence. Judge of Ages is the wildly inventive third volume in a series exploring future history and human evolution from John C. Wright. A Marvellous Light Freya Marske, 2021-11-02 An International Bestseller! Winner of the 2022 Romantic Novel Award in Fantasy! Locus Award Finalist! An Indie Next pick and LibraryReads pick—with four starred reviews! A Best of 2021 Pick for NPR | Amazon | Kobo | Barnes & Noble Red, White & Royal Blue meets Jonathan Strange & Mr Norrell in debut author Freya Marske's *A Marvellous Light*, featuring an Edwardian England full of magic, contracts, and conspiracies. Robin Blyth has more than enough bother in his life. He's struggling to be a good older brother, a responsible employer, and the harried baronet of a seat gutted by his late parents' excesses. When an administrative mistake sees him named the civil service liaison to a hidden magical society, he discovers what's been operating beneath the unextraordinary reality he's always known. Now Robin must contend with the beauty and danger of magic, an excruciating deadly curse, and the alarming visions of the future that come with it—not to mention Edwin Courcey, his cold and prickly counterpart in the magical bureaucracy, who clearly wishes Robin were anyone and anywhere else. Robin's predecessor has disappeared, and the mystery of what happened to him reveals unsettling truths about the very oldest stories they've been told about the land they live on and what binds it. Thrown together and facing unexpected dangers, Robin and Edwin discover a plot that threatens every magician in the British Isles—and a secret that more than one person

has already died to keep. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.
