Mansions of the Moon: A Lunar Zodiac for Astrology and Magic Christopher Warnock, 2010 Christopher Warnock's *Mansions of the Moon* is the definitive source for the Arabic and Western lunar Mansions and their use in traditional electional astrology and astrological magic. *Mansions of the Moon* provides an introduction to this fascinating and hidden system of traditional astrology. With beautiful black and white illustrations of each of the images of the 28 Mansions from Picatrix by Nigel Jackson, the talented mage and artist, the *Mansions of the Moon* is an ideal source for talismanic magic. Warnock provides a complete history and introduction to the Mansions, practical instructions for their use and extensive appendices from traditional sources on the Mansions.

The Quran: A New Interpretation M. B. Behbudi, Dr Colin Turner, 2013-09-13 This new rendering of the Holy Quran into the English language is the first of its kind, since it is a combination of translation and exegesis in which the author 'opens out' the verses of the Holy Book to reveal some of the layers of meaning expounded by the Prophet and transmitted through the ages by the Prophet's companions, family and the scholars who followed them. The fruit of over thirty years of research into the principles of Quranic exegesis and hadith analysis, this work matches a depth of Arabic and Islamic learning with a mastery of English that is lucid and accessible while preserving the integrity of the original text.

The Making of Yeats's A Vision George Mills Harper, 1987 According to Yeats, his wife surprised him on 24 October 1917, four days after their marriage, "by attempting automatic writing." Excited, he offered to spend the remainder of his life organizing and explaining the "scattered sentences." Over a period of approximately 30 months they collaborated in 450 sittings, he asking questions, she responding to fill a total of more than 3,600 pages. Quoting copiously from the Script, Harper has traced in two volumes these incredible experiments day by day as the Yeatses moved about England, Ireland, and America. He has also cited hundreds of parallel explanatory passages from many workbooks, notebooks, and the concordance arranged like a card index in which Yeats codified the System he projected in *A Vision* and numerous poems and plays. Harper also has examined the extensive personal revelations that were excluded from *A Vision* and carefully concealed in many passages of "personal Script." As Professor Harper demonstrates, Yeats had these often oblique, highly allusive passages in mind when he admitted "To Vestigia" that he had "not even dealt with the whole of my subject, perhaps not even with what is most important, writing nothing about the Beatific Vision, little of sexual love."

Arab Painting Anna Contadini, 2010-07-15 Arab painting is treated here as a significant artistic corpus in its own right. Rejecting the traditional emphasis on individual paintings, the distinguished contributors to this volume stress the integration of text and image as a more productive theoretical framework.

The Practical Sanskrit-English Dictionary Vaman Shivaram Apte, 1998 This Dictionary has been undertaken to supply a want long felt by the student, for a complete and at the same time cheap Sanskrit-English Dictionary. Very little need, I think, be said with regard to the necessity of bringing out a work like this, when the study of Sanskrit has received such a strong impetus during the last twenty five years. There have been four or five Sanskrit-English Dictionaries published till now; but very few of them fulfil the two essential conditions of the popularity and usefulness of such works: satisfying all the requirements of students and at the same time being within their easy reach. The Dictionaries of Professors Wilson and Monier Williams are very useful and valuable works, but their prices-particularly of the latter-are prohibitively high, and they do not also meet many of the most ordinary wants of Sanskrit readers. A student, while reading Sanskrit at School or College, generally expects that the Dictionary which he uses will give appropriate equivalents for such words and compound expressions as may have peculiar meanings or shades of meaning in particular passages.

The Jewel of Annual Astrology Martin Gansten, Balabhadra Daivajña, 2020-08-03 *The Jewel of Annual Astrology* is an encyclopaedic treatise on Tājika or Sanskritized Perso-Arabic astrology, dealing particularly with the casting and interpretation of anniversary horoscopes. Authored in 1649 CE by Balabhadra Daivajña, court astrologer to Shāh Shujā' – governor of Bengal and second son of the Mughal emperor Shāh Jahān – it casts light on the historical development of the Tājika school by extensive quotations from earlier works spanning five centuries. With this first-ever scholarly edition and translation of a Tājika text, Martin Gansten makes a significant contribution not only to the study of an important but little known knowledge tradition, but also to the intellectual historiography of Asia and the transmission of horoscopic astrology in the medieval and early modern periods.
