Now Andrew Bloomfield brings this increasingly popular tool to the West in an easy-to-follow, comprehensive format, providing the reader with everything needed to practice the Indian art of predicting the future. Vedic astrology was codified by the ancient Maharishis to help people achieve the four basic goals of human existence: kama (desire), artha (wealth), dharma (life purpose), and moksha (spiritual growth). Unlike other forms of astrology, Vedic calculations focus more on the primal, unconscious, driving forces linking our thoughts and actions. How to Practice Vedic Astrology shows how to make accurate predictions on when to expect life's changes concerning one's career, love life, children, or spirituality.

Esoteric Principles Of Vedic Astrology Bepin Behari, This book presents the ancient Hindu astrology in its occult and esoteric aspects. Traditional practitioners often failed to defend the veracity of the subject and dispel the scepticism of modern intellectuals. The ancient revelations have been restated here to meet contemporary requirements. The ancient seers presented Vedic Astrology under various assumptions and in allegorical and symbolic languages. They assumed polydimensional extension of human consciousness which was closely related with planetary impulses. Apart from the general approach to this ancient science, the study presents in depth the astrological description of the nature of man. It also provides deeper implications of various planetary combinations. Advanced practitioners as well as general readers will find the book informative, illuminating and highly rewarding.

Astrological Flaws and Their Remedies Dr. Deepak Singla,2019-02-13 God exists within us on this planet. The 'soul' enters the human form after going through the complete cycle of eighty-four lakh lives and deaths. Human life is determined by the position of planets. Good and bad ideas travel into our minds through waves transmitted by the planets. A woman carries the child in her womb for nine months like the nine planets. Thus the position and stationing of the planets determine the good and bad times in our lives. This arithmetic of favourable and unfavourable positioning of planets, form the basis of 'Horoscope'. Astrology is a science based on very specific calculation. It is not superstition and it is easy to follow. People who cannot consult an astrologer can just read the book, identify their problems, look for remedies and follow them without guidance or consultation. The science of astrology is a gift from God and is acquired by following His diktat.

Venus in Signs Saket Shah,2022-02-01 Dear Reader, We always wonder that every sign in Vedic astrology has different meaning and results. So how does the planet sitting in it will behave. So in this book I am describing how Venus will give results in different zodiac signs in most possible and descriptive way. The planet behavior changes along with the sign it sits in and give different results. Every sign itself is a mystery and planet sitting in sign becomes more mysterious and gives results in very different pattern. Planet is nothing but a cosmic energy which in particular location in zodiac during our birth impacts our entire life the way we think and the way we behave and also controls our emotions. The glands in our brain reacts to this cosmic energy and creates a certain characteristic in our life patter and day to day life and we can understand this by

understanding our horoscope and by checking which sign the planet is sitting and how it impacts our thinking and life. I hope you will love this book and enjoy reading. Regards, Saket Shah

Interpreting Planetary Influences V.K. Choudhry, K. Rajesh Chaudhary, The basis of the divine knowledge of astrology is the Karma theory. The Karma theory is based on the premise that the planetary influences in the natal chart are the results of one's deeds of past lives. The various aspects of life like personality, status, wealth, family, courage, mental peace, mother, assets, intellect, progeny, health, financial strength, marriage, foreign residence, easy gains, father, spiritual development, profession matters, income gains, vulnerability to hospitalization, penal action and expenses, etc. are ruled by the twelve houses of the horoscope. The book helps in interpreting the results of the twelve houses. SALIENT FEATURES - Understanding Astrology, Latest Predictive Techniques, Insights, How to Identify the Results of Placement of Planets, House-wise Analysis, How to read the Charts of Twins, Remedial Measures, How to Elect Auspicious Time, Calculation of Strength of Planets.

Delineating a Horoscope Raj Kumar, Astrology is a great science based on sound principles and theory of karma through cycles of rebirth. A horoscope is basically a map of zodiac indicating position of planets in various signs/ Nakshatra at the time and place of birth. The delineation of a chart is the science and art of deciphering it as per the knowledge, intuition of the astrologer and divine help available to him. Therefore the first requisite is to have sound knowledge of nature and characteristics of houses, signs, Nakshatra and planets and their inter-relation. Next comes the basic tools like dasha, transit, yoga and divisional chart and their application in delineating a horoscope. Lagna is the single most important factor in delineating a horoscope. It is the very being of the native, his élan vital & basic potential. Unless the seed of a specific quality or event is contained in this basic potential, other planetary indications will not find suitable opportunities for manifestation. Lagna also determines the numbering of houses with lagna being the first. With the change in lagna, the significations of any planet will change drastically, as his house & lordship changes, although the sign & constellation of the planet remain unchanged.
