A Manual of Occultism Sepharial, 1920

Kundalini Tantra Swami Satyananda Saraswati, 1996 In the last few decades, yoga has helped millions of people to improve their concepts of themselves. Yoga realises that man is not only the mind, he is body as well. Yoga has been designed in a such a way that it can complete the process of evolution of the personality in every possible direction. Kundalini yoga is a part of the tantric tradition. Even though you may have already been introduced to yoga, it is necessary to know something about tantra also. Since the dawn of creation, the tantrics and yogis have realised that in this physical body there is a potential force. It is not psychological or transcendental; it is a dynamic potential force in the material body, and it is called Kundalini. This Kundalini is the greatest discovery of tantra and yoga. Scientists have begun to look into this, and a summary of the latest scientific experiments is included in this book.

The Modern Text-Book of Astrology Margaret E. Hone, 2010-07
It was a long time ago and few alive now remember what life was like in England in the years after World War II. Yes, the Luftwaffe and Vengeance weapons had made a fine mess in the south of the country, but during the war years the Yanks were there, millions of them, seducing the womenfolk, brawling in pubs, and, most importantly, spending their pay with local shopkeepers. May, 1945, the war ended and all the Americans left. Most went home, but a sizeable contingent set up shop in Germany, where, to the best of their ability given the local ruins, they carried on as before, seducing the womenfolk, brawling in pubs and spending their pay with the surviving shopkeepers. The Americans were joined by contingents of English, French and Soviet troops. As a result, the surprising fact, long forgotten, is that after the war, conditions in England were even worse than they were in post-Third Reich Germany. Some in Britain rued winning the war, as deprivation became their fate. In London after the war books were so scarce that used vendors had long lists of people waiting for the few books that turned up. For schools in London which taught astrology, the situation was impossible. Responding to the post WWII book shortage, Margaret Hone published this ultimate Astrology Text-Book. She was born in Birmingham, England, on October 2, 1892, at 2:13 am. Her ascendant was 27 Leo; her Sun was 9 Libra; her Moon was 13 Aquarius. Her midheaven was 15 Taurus. Of Ms Hone, James Holden wrote, English astrologer, educator, and author. She was a professional astrologer and private teacher for many years and later was Principal and Director of Studies of the Faculty of Astrological Studies 1954-1969 and Vice President of the Astrological Lodge of London. Mrs. Hone was an advocate of the Equal House system of house division. She

is best known in the U.S. for her two instruction manuals. This book is dedicated to Charles E.O. Carter, 1887-1968. Carter succeeded Alan Leo as head of the Astrological Lodge (1920-1952) and was First Principal of the Faculty of Astrological Studies, which he helped found in 1948. Hone succeeded Carter at FAS. She passed away on October 14, 1969. In his Preface, while quick to praise Hone, a personal friend, Charles Carter also pointed out that this book's high price was justified, that padding has been rigorously excluded. He goes on to praise the workmanship, the carefully worded definitions, as well as the fact that the book was complete and entire in itself. Save for ephemeris and tables of houses, this one book would suffice beginning as well as advanced students for some years. In addition, Hone also includes one of the earliest modern histories of astrology, short biographies of leading astrologers past and present, astrology and public opinion (daily horoscopes in the newspapers were a recent innovation). On a more practical side, Hone gives a thorough analysis of the principal house systems of the day (Equal, Campanus, Regiomontanus, Placidus), and even mentions C.G. Jung's recently developed Depth Psychology.

Learning Astrology Damian Sharp, 2005-10-01 Examines the ancient art of astrology, providing insight into suns, planets, houses, and aspects, and describes how to accurately read an astrological chart.

Quests of the Dragon and Bird Clan Paul Kekai Manansala, 2006-10-01 Quests of the Dragon and Bird Clan examines how the seafaring trading people known as the Nusantara from Insular Southeast Asia influenced world history. This is a book, a book based on a weblog (blog). The decision to publish the book came after requests to make the information in the blog available in an easier-to-read and more portable format. The advantage of the printed work is that the blog entries are

arranged in easy-to-manage chronological order without the need for the clicking through the blog archives. The glossary entries are also in alphabetical order for easy look-up, and a word index and table of contents further increase the readability of the blog/book. Important supplementary articles have also been included in the appendices. A must-read for those who think there is more to history than what we find in mainstream publications.

Vedic Astrology Demystified Chandrashekhar

Sharma, 2014-08-24 Vedic Astrology Demystified is written for Jyotish students. The purpose of the book is to introduce the reader to the basics of Jyotish, starting with its origin. All essential information required for interpreting a chart is detailed, with a comprehensive look at each of the rasis, grahas and the 12 different bhavas. An overview is provided of many of the important yogas to look for in a chart and also emphasizes why a particular yoga gives its results in order to teach students how to interpret

combinations themselves. After setting out the basics of a chart interpretation, Vedic Astrology Demystified details how to predict using Vimshottari Dasha system and how to incorporate transits into a prediction. The book finishes with a practical review of various charts and the timing of events using the knowledge learnt. Vedic Astrology Demystified is written in a friendly style, so that the reader feels he is having a personal lesson from the author. As there is much conjecture on various topics within Jyotish, the author has incorporated into the book his own practices when interpreting and predicting from a chart.
