**Stefan Mager**

**The Zodiac and the Chakras** Marcia A. Hillary, 2004 In this highly readable little book, the author (a practicing psychologist) brings us through the relationships between the 12 houses of the zodiac and the 12 chakras.

Astrology and the Rising of Kundalini Barbara Hand Clow, 2013-09-02 Revised and updated edition of the classic astrology text on predicting and navigating life crises • Provides charts for the transits of Saturn, Uranus, and Chiron--now updated through 2050--to predict your personal growth cycles and timing of kundalini rising • Shares tools to cope with the intensity of spiritual emergency and direct the kundalini energy released during planetary passages • Includes a new preface by the author reflecting on 20 years of success stories since the book's initial publication • No astrological chart needed to use this book In this updated edition of *Liquid Light of Sex*, renowned astrologer and spiritual teacher Barbara Hand Clow explores the connection between life crises in your 30s, 40s, and 50s and the key astrological passages of Saturn, Uranus, and Chiron in your birth chart. She explains how kundalini energy--the "liquid light of sex" that lies at the base of the spine--is activated during these planetary transits, rising through the chakras and triggering the process of spiritual emergency, and in many cases, a cascade of health, emotional, and relationship problems as well as extreme anxiety. She shows that by understanding these astrological transits, you can be prepared for turbulent periods and successfully navigate them by creatively channeling the spiritual fire of kundalini. Clow provides astrological charts--now updated through 2050 for those born between 1930 and 2000--detailing the cycles of Saturn, Uranus, and Chiron, so you do not need your birth chart to use this book. She explains how to use the charts to predict the onset and completion of each kundalini activation and corresponding crisis. She shares tools for individuals and therapists to cope with the intensity of spiritual emergency and too much fire energy, unblock the chakras, and integrate the power of kundalini for physical, emotional, and spiritual growth. Reflecting on 20 years of success stories since the book's initial publication, Clow presents a road map for using celestial cycles to navigate positively and productively in times of great life change.

*Liquid Light of Sex* Barbara Hand Clow, 2001-09-01 A nationally known astrologer explores the connection between spiritual emergencies at age 30, 40, and 50 and key astrological passages of Saturn, Uranus, and Chiron. • Provides techniques for directing the kundalini energy released during planetary passages for optimal personal and psychic development. • Includes charts for birth years starting in 1930 so that readers can determine the timing of their planetary passages. • By Barbara Hand Clow, author of the bestselling *Pleiadian Agenda* (60,000 copies sold). Kundalini--the energy of eros that lies at the base of the spine--can be overwhelming once activated. Times of activation coincide with the key astrological passages of Saturn, Uranus, and Chiron in one's birth chart and are often experienced as periods of spiritual emergency, confusion, and imbalance. In *Liquid Light of Sex*, Barbara Hand Clow opens up new dimensions for understanding what occurs during these key life passages, which most of us experience three times in our lives. In the author's words, we form at age 30, we transform at age 40, and we transmute at age 50. Focusing on the transformation at age 40--the time of imbalance and spiritual confusion often referred to as the midlife crisis--she explores how kundalini energy, the liquid light of sex, can be creatively channeled by unblocking the chakras. Offering effective methods for achieving physical, emotional, and spiritual growth during this important life passage, *Liquid Light of Sex* presents a roadmap for using celestial cycles to navigate positively and productively in times of great life change.

**Calendars of India** Dr Vinod K. Mishra,2020-01-01 Calendars are created by civilisations to give meaning to the continuous flow of time according to their world-views. Over the past millennia, India has developed it's own unique collection of many calendars for regulating it's religious and cultural life. The current book presents a comprehensive account of their structure and relative importance at the present time and places them in the context of other calendars prevalent outside India. Suggestions have also been made for making some changes to bring them in line with our current astronomical knowledge. This book will be very useful to students and anyone who is curious about calendars.

**The Hatha Yoga Pradipika** Svātmārāma,1975

**Secret Power of Tantrik Breathing** Swami Sivapriyananda,2009-05-08 Explores the secrets and benefits of alternate nostril breathing practices • Includes breathing techniques to help overcome infertility, bad luck, and illnesses • Explains the interactions of the vital

energy of breath with the chakras and energy channels (nadis) There is an intimate relationship between breathing and our emotional states. When we are nervous or excited, our breath rate increases. Conversely, if we alter our rate of breathing, we can alter our emotional state. The ancient civilization of India developed methods for changing the emotions and states of consciousness through yogic meditation and pranayama (breath control). Secret Power of Tantrik Breathing teaches the advanced pranayama system of svaraodaya, which is based on the fact that we normally breathe freely through only one nostril at a time. In a healthy person, breathing changes roughly every one and a half hours from one nostril to the other, with each nostril imparting different qualities to one's mental and physical state. The left nostril is cool, soothing, passive, and feminine in nature; the right is warm, energizing, active, and masculine. When the breath remains in one nostril for longer than normal, mental and physical illness can result. The goal of svaraodaya is to harmonize the breath from each nostril with the life task needing to be accomplished. This book explains how to practice this breath control and how the vital energy of breath interacts with the chakras and energy channels (nadis) to create overall balance and harmony. It also includes svaraodaya breathing techniques to help overcome illnesses, infertility, and bad luck; make predictions; and attain liberation from the cycle of rebirth.

**Hinduism and the Religious Arts** Heather Elgood,2000-04-01 The roots between the Hindu religion and the wider culture are deep and uniquely complex. No study of either ancient or contemporary Indian culture can be undertaken without a clear understanding of Hindu visual arts and their sources in religious belief and practice. Defining what is meant by religion - no such term exists in Sanskrit - and what is understood by Hindu ideals of beauty, Heather Elgood provides the best synthesis and critical study of recent scholarship on the topic. In addition, this book offers critical background information for anyone interested in the social and anthropological roots of artistic creativity, as well as the rites, practices and beliefs of the hundreds of millions of Hindus in the world today.

**The Black Sun** Stanton Marlan,2008-05-08 Also available in an open-access, full-text edition at <http://oaktrust.library.tamu.edu/handle/1969.1/86080> The black sun, an ages-old image of the darkness in individual lives and in life itself, has not been treated hospitably in the modern world. Modern psychology has seen darkness primarily as a negative force, something to move through and beyond, but it actually has an intrinsic importance to the human psyche. In this book, Jungian analyst Stanton Marlan reexamines the paradoxical image of the black sun and the meaning of darkness in Western culture. In the image of the black sun, Marlan finds the hint of a darkness that shines. He draws upon his clinical experiences—and on a wide range of literature and art, including Goethe's Faust, Dante's Inferno, the black art of Rothko and Reinhardt—to explore the influence of light and shadow on the fundamental structures of modern thought as well as the contemporary practice of analysis. He shows that the black sun accompanies not only the most negative of psychic experiences but also the most sublime, resonating with the mystical experience of negative theology, the Kabbalah, the Buddhist notions of the void, and the black light of the Sufi Mystics. An important contribution to the understanding of alchemical psychology, this book draws on a postmodern sensibility to develop an original understanding of the black sun. It offers insight into modernity, the act of imagination, and the work of analysis in understanding depression, trauma, and transformation of the soul. Marlan's original reflections help us to explore the unknown darkness conventionally called the Self. Healing Traditions of the Northwestern Himalayas Pankaj Gupta,Vijay Kumar

Sharma, Sushma Sharma, 2014-06-30 This book discusses the perception of disease, healing concepts and the evolution of traditional systems of healing in the Himalayas of Himachal Pradesh, India. The chapters cover a diverse range of issues: people and knowledge systems, healing in ancient scriptures, concept of sacredness and faith healing, food as medicament, presumptions about disease, ethno-botanical aspects of medicinal plants, collection and processing of herbs, traditional therapeutic procedures, indigenous Materia medica, etc. The book also discusses the diverse therapeutic procedures followed by Himalayan healers and their significance in the socio-cultural life of Himalayan societies. The World Health Organization defines traditional medicine as wisdom, skills, and practices based on theories, beliefs, and experiences indigenous to different cultures, used in the prevention, diagnosis, improvement or treatment of physical and mental illness and maintenance of health. In some Asian and African countries, 80% of the population depends on traditional medicine for primary health care. However, the knowledge of these conventional healing techniques and traditions associated with conveying this knowledge are slowly disappearing. The authors highlight the importance of safeguarding this indigenous knowledge in the cultural milieu of the Himachal Himalayas. This book will be an important resource for researchers in medical anthropology, biology, ethno-biology, ecology, community health, health behavior, psychotherapy, and Himalayan studies.
