Numerology of Astrology Lynn Buess,2013-12-25 Lynn Buess has done it again! As an innovator in the consciousness and self-awareness field for over forty years, he has now contributed a decidedly unique perspective of the time-honored system of astrology, helping humanity further understand its relationship to the universe. With this latest contribution to self-growth, Lynn offers an original perspective of numerology ? this time with the combination of numerological characteristics and astrological influences. He not only writes from an intellectual viewpoint but as someone who has experienced glimpses of cosmic consciousness. Like most of his works, it is his hope that this volume will help seekers better connect to their cosmic memories of being both human and eternal in nature. Experience all the signs of the zodiac in minute detail: Aries ? Taurus ? Gemini ? Cancer ? Leo ? Virgo ? Libra ? Scorpio ? Sagittarius ? Capricorn ? Aquarius ? Pisces It is my feeling that the sun degree serves a role of pinpointing just where the soul has the opportunity to make significant strides in personal growth or potentially stumble into a setback. A combination of the numerical value of the degree and the sun sign are blended together to offer insight about the nature of that commitment. ? Lynn Buess, MA, EdS

Star Signs Includes Numerology & Chinese Astrology Bejan Daruwala,1991-01-01 NEW ENLARGED EDITION Finally a book, India and the world, has been looking forward to, from the pen of Bejan Daruwalla, one of the greatest astrologers and psychics of our times. Special features of this book are: sun-signs in depth, numerology for everyone of you, a terrific piece blending Chinese and Western astrology, something about the history, lore and use of gems, and an article on gifts for all the 12 signs. Here, in short, is God's plenty. Daruwalla is a strong devotee of Lord Ganesha (the elephant-headed God who is known to remove obstacles and sorrows.) Amongst his predictions, the noteworthy ones were the release of Nelson Mandela and the fall of Margaret Thatcher which appeared in the magazine "Eve's Weekly", January 20, 1990. Widely travelled, Bejan Daruwalla was invited by three Radio Stations and WBN's channel 10, Columbus, Ohio for his talks. He was also interviewed in the American Dailies during his stay there. Another distinction, he was invited by the prestigious Edgar Cayce Foundation, Virginia Beach for a series of lectures and needless to mention that the Indian newspapers and T.V. stations in Washington did him proud - and the Indians certainly know their astrologers! A unique honour for Bejan Daruwalla where America is his home away from home. The star astrologer is already on another book.

Numerology and Astrology for Beginners Crystal Hathaway,2019-10-20 If You Want to Calculate Your Life Path And Know What Numbers Know That You Don't, Then Keep Reading... Do you sometimes question if you are on the right path or if you are wasting your time on something you are not supposed to do? Do you repeatedly see numbers all around you? I'm not talking about telephone numbers, area codes or price tags, but patterns that are not 'normal'? 11:11, 333, 666? Do you ever recognize certain character traits among people that are born in the same month? What if all the 'coincidences' in your life mean much more than you think on first sight? There is a 4000-year-old science based on the mathematics of the universe called numerology. Instead of 1+1, you can reveal the message behind everything that is happening in your life right now. And even more. Once you discover how to decode numbers and understand how astronomical phenomena impact a person's personality, you can not only predict, but also change your future for the better. Imagine you had the ability to decide your child's destiny? The day and month someone is born shapes who they are today and who they are going to become. There is no such thing as coincidence. People fear numbers and astrology because it's easier to blindly follow their fellows. Most of us live in a fake bubble of who we are and what we are doing on this planet. Looking deeper into numbers and the position of celestial objects requires strength and willpower. From now on, you can take charge of your destiny. Always remember, the universe has your back and you will receive the same energy back that you send out. In Numerology and Astrology for Beginners, you'll discover: How the flap of a butterfly's wings in Mexico cause a giant change in your life The man's name that 666 stands for and if you should be worried (Find the answer on page 12) Why you are missing out on an exciting adventure if you are not paying attention to this one number in your life (hint: between 0-10) Why 911 is the universal help hotline if you want a change in life Which numbers can help

to heal physical and mental diseases How to become pregnant at the right time to ensure your child has a healthy and prosperous future The 12 zodiac signs, their meanings, and assets to achieve your goals Cheat sheet for a stronger and more passionate relationship Why some people feel like they are born in the wrong family and why they are right How to choose your friends and partners wisely and prevent yourself from energy draining relationships How and which numbers predicted the success of Apple, BMW, Microsoft and Co. (page 41) And much more. If this is your first contact with astrology and numerology, you might be skeptical if this unknown science is trustworthy. We have all heard the sentence 'Only an idiot would believe that the month you are born could have effect on your personality.' But what if I tell you that science has proven you are more likely to be diagnosed with schizophrenia if you are born in February suicide is strongest in people born in between April and June you could be suffering from dyslexia if you are a summer baby If you still think it's all hocus-pocus, then you must be a Gemini (they tend to be over skeptical).
