Astrology and the Tarot A. E. Thierens, 1980-06-01

Tarot John Lawrence Maerz, 2015-06-15 This book is an innovative approach utilizing the Tarot cards, the astrological signs and houses and the vibration of numbers. Each house represents a specific set of personal issues and circumstances particular to each area of life such as relationships, traditions, career and more. Each of the face cards corresponds to an astrological sign. And the numbers give an overall flavor and direction for the interpretation to take. This method allows you to separate the issues with clarity in a way that the Celtic cross and other layouts can't. Timing is established through the separate layers and any person in your client's life can be found simply by counting to the appropriate house then simply reading the wheel as a new client. Learning this method will provide tremendous dimension and insight for your readings.

Tarot Cards For Beginners Karen Brown, 2015-02-03 Although it may appear that we have unraveled the mysteries of the Universe through our sciences, it is apparent that we have yet to unravel more. Even scientists are aware of the limitations of science. The world operates through various mechanisms that we do not fully understand yet. It is controlled by a force we cannot see. One thing is certain--whatever it is, its effect greatly affects our lives. People who know the secret to this operation have found a way to unravel it. Although few literature and books exist in the world today, some became a part of our lives. One of these, and the most effective, perhaps, is the Tarot cards. Tarot cards have the ability to illuminate and reveal the future as well as shed light on the aspects of present that could lead to the divined future.

TAI DIVINATION WORKBOOK Erik Thorell, 2015-11-11 Author Erik Thorell reveals his new publication, TAI Divination Workbook. TAI Divination is the fusion of three ancient divination systems: Tarot, Astrology and the I Ching or TAI. These 3 systems have come together in one reading, probably for the first time ever in the history of divination. You don't have to be psychic to use TAI, and TAI is easy to understand for beginners, and in-depth enough for experts. TAI is not intended to compete with or replace existing forms of divination or Holy Scriptures of various religions. They all originally come from the Divine that lives within a man to help, advise and guide him in his life. The author respects all the founders equally as God's messengers. This brings to mind of a bowl full of small cards with quotes from the Bible, a device which his Salvation Army parents used to ask questions via the ancient art of bibliomancy. TAI was accidentally discovered February 11th 1981 and co-incidentally published in 2015, the third year of the Aquarian age. Pray that the Divine within speaking via TAI advises all equally kindly and wisely.

Then, the original design eliminates the conventional human figures of the tarot, replacing them with mandala images that aid meditation. What’s more, the 22 major arcane signs are divided into three groups corresponding to the signs of the zodiac, the elements, and the planets. This spiritually aware approach to the tarot provides a remarkable new set of tools for understanding the forces that shape our lives.
