Charisma of Kendra Houses Raj Kumar, The lagna is basically a reference point from where the various houses in a chart are numbered. The lagna is not synonymous with the ascendant although often used interchangeably. A chart should be delineated from a number of reference points, known as Alternate lagnas in order to give us additional clues. The strongest among Ascendant, Moon & Sun should be taken as lagna. These houses are clubbed into various groups. The first, fourth, seventh and tenth houses are called Kendra, Vishnu Sthans, angular or cardinal houses, implying that they are the center or core of the chart. As lord Vishnu looks after the welfare of the entire universe, the Kendra Houses acting as foundation & pillars of the horoscope, sustains the entire edifice of one's life. Each of the four Kendras, represent one of the basic goal of human life-1st house is part of Dharma Trikon, 4th house of Moksha Trikon, 7th house of Kaam Trikon and 10th house karmas of the native, his means of livelihood, name & fame; 4th house all types of comforts, luxuries, property & education; and 7th spouse, partnership, padprapti, foreign settlement, diplomacy & public relations. The cycle of birth, love & care, death and Karma, which sustain life, are well integrated with the strength & quality of Kendra houses. The Kendras are the major factor in the combinations called Panch Mahapurush and Chatussagar Yoga, which are of rare individual greatness and bestow a great and unique magnetic influence to follow. They also denote native's dynamic involvement in social environment around him. these are very important houses and all the important events of a native's everyday life hinge around them. it is necessary to have a deep understanding of these four houses, which reveals the life as it is lived in the physical world. Taken together, they represent the immediate nature of human impulses. As the immediate is the most important aspect of one's life, the Kendra houses are of supreme importance.

The Jewel of Annual Astrology Martin Gansten,Balabhadra Daivajña,2020-08-03 The Jewel of Annual Astrology is an encyclopaedic treatise on Tājika or Sanskritized Perso-Arabic astrology, dealing particularly with the casting and interpretation of anniversary horoscopes. Authored in 1649 CE by Balabhadra Daivajña, court astrologer to Shāh Shujā' – governor of Bengal and second son of the Mughal emperor Shāh Jahān – it casts light on the historical development of the Tājika school by extensive quotations from earlier works spanning five centuries. With this first-ever scholarly edition and translation of a Tājika text, Martin Gansten makes a significant contribution not only to the study of an important but little known knowledge tradition, but also to the intellectual historiography of Asia and the transmission of horoscopic astrology in the medieval and early modern periods.

Vargas: a Vedic Approach Raj Kumar, The Vargas are the unique feature of Vedic astrology which has given it a definite edge over any other system in vogue. The primary aim of studying a

Varga is two folds- to study a particular aspect of human life pertaining to a specific house and to find out the true strength of planets related with the house. A horoscope takes into account linear time and vertical declinations of the planets. Every division of zodiac has a corresponding division of time. Hence a Varga gives projections representing possibilities which might occur in different time frames. Each chart gives a microscopic view of a particular facet of life seen in the light of Dasha sequence. There are many tools available to assess the true strength of a planet. One set of rules rely on PAC of planets, their awasthas and yogas formed by them. The other, Nadi system, studies the effects of lords of sign, Nakshatra and Sub under which a planet is placed. At times these influences change the characteristics of a planet completely. In this book an attempt is made to unite the two systems to get the true strength of planets. In order to understand a planet and its significations in a better way, a comparative study of planets in birth and divisional charts has also been made. This book shall add to precision and accuracy of probable events and their qualitative effects on various aspects related to a native and as such will be of great use to serious students of astrology.

Timing of Events Through Dasha & Transit S.K. Sawhney, This book deals with the determination of method of timing of events through dasha and transit. The horoscope and related divisional charts can simply give an indication about the auspicious and inauspicious probabilities on the basis of the study of house, house lord and significator whereas the timing of an event cannot be calculated without understanding the impact of major period & transit in operation so for getting timing of events in one's life, we use Dasha and transits. Dasha tells which planet is affecting the native at a particular time, whereas transit tells us which natal planet is vibrating because of the transiting planet. A combined result of Dasha and transit gives us the behavior of the native at a particular time. In nutshell the Horoscope and concerned divisional charts only indicate the promise in the horoscope, negative or positive, according to the position of house, house lord, significator, concerned house from the significator. But the time of fructification of event is indicated by the Dasha/Anterdasha of different planets. If a good dasha is in operation, the native will get good results according to the significations of the concerned dasha nath and its lordship in the horoscope. For determining the timing of events for various events such as education, profession, marriage, children, acquiring of vehicle, land and property, foreign travels, each subject is discussed in detail in different chapters. The principles to identify the timing of events are given with illustrations /

examples.

An Introduction to Jyotish Sarajit Poddar, 2021-05-13 Jyotish is the ancient science of deciphering the essential uniformity of principles that guide the celestial bodies and the events in the world. Because of these unified principles, what happens in this world can be deciphered from what happens in the heavenly world. The movement of Grahas or Grahas, as they are called in Sanskrit, provides for a unified language used for deciphering the occurrences of this world, including the matters concerning humans, animals, plants, weather and nations. This is an exciting subject of associating the symbols of nature to the occurrences of mundane events or human affairs; however, it is exceedingly vast. To be able to cover the expansive vistas of this subject, one must undertake a structured approach, which covers several areas of Jyotish, including Ganita, Samhita and Hora. The Ganita deals with the mathematical or astronomical aspect of this subject, the Samhita deals with the mundane elements such as weather forecasting, earthquakes, rainfall etc., and the Hora deals with the judgement of the Kundalis of individuals. This book introduces the subject.
