Harrod's Librarians' Glossary and Reference Book Ray Prytherch,2016-04-15 Listing over 10,000 entries, Harrod's Librarians' Glossary and Reference Book spans everything from traditional printing terms to search engines and from book formats to URLs. Revisions for this tenth edition have centred in particular on the Information Society and its ramifications, on the general shift towards electronic resources, and on e-commerce, e-learning and e-government, whilst at the same time maintaining key areas predating the IT revolution. Web terminology, URLs and IT terms have been checked and updated, and coverage of terms relating to digitization and digital resources, portals, multimedia and electronic products has been revised or expanded as necessary. Harrod's Glossary now includes Knowledge Management terms, and this edition has also focused on developments in the field of intellectual property, copyright, patents, privacy and piracy. It gives wide international coverage of names, addresses and URLs of major libraries and other important organizations in the information sector, of professional associations, fellowships, networks, government bodies, projects and programmes, consortia and institutions, influential reports and other key publications. Entries are included on classification and file coding, on records management and archiving and on both the latest and the most enduring aspects of library and information skills. Even with the Web at your fingertips Harrod's Librarians' Glossary and Reference Book remains a quicker reference for explaining specialist terms, jargon and acronyms, and for finding the URLs you need, whether you are working in a print-based or digital library, in archiving, records management, conservation, bookselling or publishing.

In Fortune's Theater Nicholas Scott Baker,2021-07-22 This innovative cultural history of financial risk-taking in Renaissance Italy argues that a new concept of the future as unknown and unknowable emerged in Italian society between the mid-fifteenth and mid-sixteenth centuries. Exploring the rich interchanges between mercantile and intellectual cultures underpinning this development in four major cities - Florence, Genoa, Venice, and Milan - Nicholas Scott Baker examines how merchants and gamblers, the futurologists of the pre-modern world, understood and experienced their own risk taking and that of others. Drawing on extensive archival research, this study demonstrates that while the Renaissance did not create the modern sense of time, it constructed the foundations on which it could develop. The new conceptions of the past and the future that developed in the Renaissance provided the pattern for the later construction a single narrative beginning in classical antiquity stretching to the now. This book thus makes an important contribution toward laying bare the historical contingency of a sense of time that continues to structure our world in profound ways.

The Book of Solomon's Magick Carroll Runyon,1996-09-01

Magic and Divination in Malay Illustrated Manuscripts Farouk Yahya,2015-10-27 This book offers an integrated study of the texts and images of illustrated Malay manuscripts on magic and divination from private and public collections in Malaysia, the UK and Indonesia. Containing some of the rare examples of Malay painting, these manuscripts provide direct evidence for the intercultural connections between the Malay region, other parts of Southeast Asia and the rest of the world. In this richly illustrated volume many images and texts are gathered for the first time, making this book essential reading for all those interested in the practice of magic and divination, and the history of Malay, Southeast Asian and Islamic manuscript art.

The Byzantine Hellene Dimitar Angelov,2019-08 Tells the story of Theodore Laskaris, a thirteenth-century Byzantine emperor, imaginative philosopher, and ideologue of Hellenism.

The different aspects of islamic culture UNESCO,2003-12-31 This publication examines art, the human sciences, science, philosophy, mysticism, language and literature. For this task, UNESCO has chosen scholars and experts from all over the world who belong to widely divergent cultural and religious backgrounds.--Publisher's description.

The Courts of the Deccan Sultanates Emma J. Flatt,2019-07-18 Illuminates the centrality of courtliness in the political and cultural life of the Deccan in the fifteenth and sixteenth centuries.

Browsing through the Sultan's Bookshelves Kristof D'hulster,2021-07-12 Starting from 135 manuscripts that were once part of the library of the late Mamluk sultan Qāniṣawh al-Ghawrī (r. 1501–1516), this book challenges the dominant narrative of a post-court era, in which courts were increasingly marginalized in the field of adab. Rather than being the literary barren field that much of the Arabic and Arabic-centred sources, produced extra muros, would have us believe, it re-cognizes Qāniṣawh's court as a rich and vibrant literary site and a cosmopolitan hub in a burgeoning Turkic literary ecumene. It also re-centres the ruler himself within this court. No longer the passive object of panegyric or the source of patronage alone, Qāniṣawh has an authorial voice in his own right, one that is idiosyncratic yet in conversation with other voices. As such, while this book is first and foremost a book about books, it is one that consciously aspires to be more than that: a book about a library, and, ultimately, a book about the man behind the library, Qāniṣawh al-Ghawrī.

The Lesser Key of Solomon Aleister Crowley,S.L. MacGregor Mathers,2022-01-04 The Lesser Key of Solomon, also known as Lemegeton Clavicula Salomonis or simply Lemegeton, is an anonymous grimoire on demonology. It was compiled in the mid-17th century, mostly from materials a couple of centuries older. It is divided into five books—the Ars Goetia, Ars Theurgia-Goetia, Ars Paulina, Ars Almadel, and Ars Notoria. This edition was translated by Samuel Liddell MacGregor Mathers and published by Aleister Crowley under the title The Book of the Goetia of Solomon the King. Crowley added some additional invocations previously unrelated to the original work, as well as essays describing the rituals as psychological exploration instead of demon summoning.

Light upon Light: Essays in Islamic Thought and History in Honor of Gerhard Bowering Jamal J. Elias,Bilal Orfali,2019-10-01 Light upon Light: Essays in Islamic Thought and History in Honor of Gerhard Bowering brings together studies that explore the richness of Islamic intellectual life in the pre-modern period.

Playthings in Early Modernity Allison Levy,2017-02-22 An innovative volume of fifteen interdisciplinary essays at the nexus of material culture, performance studies, and game theory, Playthings in Early Modernity emphasizes the rules of the game(s) as well as the breaking of those rules. Thus, the titular plaything is understood as both an object and a person, and play, in the early modern world, is treated not merely as a pastime, a leisurely pursuit, but as a pivotal part of daily life, a strategic psychosocial endeavor.

Studies on the Intersection of Text, Paratext, and Reception ,2021-05-12 Studies on the Intersection of Text, Paratext, and Reception brings together the latest research on how the fields of textual criticism, manuscript studies, and reception history can and should inform one another.

A New English-Hindustani Dictionary S. W. Fallon,1883

Codex Bezae David Charles Parker,Christian Bernard Amphoux,1996-01-01 This rich collection of papers by scholars from various countries presents a range of important insights into the place of Codex Bezae in the history of the New Testament text and in the world of early Christianity.

The Experience of Divine Guidance Mark Allan Kaplan,2007

Turkish Myth and Muslim Symbol Carole Hillenbrand,2007-11-21 Turks ruled the Middle East for a millennium and eastern Europe for many centuries and it is an undoubted fact that they moulded the lands under their dominion. It is therefore something of a paradox that the history of Turkey and aspects of the identity and role of the Turks, both as Muslims and as an ethnic group, still remain little known in the west and undervalued in the Arabic and Persian-speaking worlds. This book contributes to historical

scholarship on Turkey by focusing on its key foundational myth, the battle of Manzikert in 1071--the Turkish equivalent of the battle of Hastings. Manzikert destroyed the hold of Christian Byzantium on eastern Turkey and opened the whole country to the spread of Islam, a process completed with the fall of Constantinople and Trebizond some four centuries later. Translations and a close analysis of all the extant Muslim sources--both Arabic and Persian--which deal with the battle of Manzikert are provided in the book. It also looks at these writings as literary works and vehicles of religious ideology and analyses the ongoing confrontation between the Muslim Turks and Christian Europe and the importance of Manzikert in the formation of the modern state of Turkey since 1923.
