Astrology B. K. Chaturvedi,

Planet SUN Secrets Saket Shah, 2020-01-05 The Sun god has two arms, he is seated on the pedestal of lotus; both of his hands are embellished with lotus flowers. There is a beautiful golden crown, on his head and a garland of gems around his neck. His radiance is just like the interior part of a lotus flower and he is mounted on the chariot pulled by seven horses. The Sun god is also known as 'Savita', which means - one who creates, 'SAVITA SARVASYA PRASAVITA' (Nirukta -10/31). According to the Rigveda the Sun god situated at the centre of the solar system is an inspirer of all, pervader of the internal parts and an embodiment of almighty god. According to the 'Markandeya Puran' Sun is the embodiment of Brahma, the world originates from the Sun and is established in it. The Sun is the appearance of all the matters and elements and is the eternal almighty. This very God 'Bhaskar' creates nurtures and annihilates the world respectively in the form of lord Brahma, Lord Vishnu & Lord Shiva. Sun is the supreme deity amongst all the nine planets. When Brahma manifested himself by breaking the egg, then he pronounced 'OM'. This Omkar itself is the supreme soul and the very physique of Sun god. The four Vedas emerged from all the four mouths of lord Brahma, which were glowing by their own radiance. The powerful radiance emanating from the 'Omkar' covered the radiance of the Vedas and ultimately all of them unified. This very Vedic appearance of 'Omkar' is the sun god. This radiant sun was the first manifested during the times of creation, hence it was called 'Aditya'. Once the demons, the titans and the monsters unitedly fought with the deities and snatched their power and authority after defeating them. 'Aditi' - the mother of the deities did worship of sun god to get protection from this calamity. Being pleased with her the sun god took incarnation as her son and established the eternal path of the Veda after defeating the enemies of the deities. He is called Aditya also for this reason. The complexion of Sun god is red. His vehicle is a chariot. There is only one wheel in his chariot which is called 'Samvatsar'. The wheel of his chariot has 12 spokes, which symbolise the twelve months. The wheel has six circumferences, which symbolize the six seasons, and three 'Naves' which symbolise of the three four-months. The sages (rishi) and all the celestial supernatural beings like 'Gandharva', 'Apsara', 'Nag' yaksha and the deities move along with him doing his worship. The wheel, power, a loop and a hook are the weapons of sun god. His great-phase (Mahadasha) last for six years. The Sun is considered as a high planet, till the tenth degree, in the zodiac of Aries. Lord Shiva is considered to be the deity of the Sun. To get his blessings and for his pacification, performance of 'Arghya' (pouring water facing the sun in the morning should be done and also the text of Harivansh purana should be listened to. Ruby should be worn on the body and donation of wheat, cow along with a calf, raw-sugar (gur), copper, gold and red-clothes should be made to the brahmins

Esoteric Astrology - A New Astrology for a New Millennium Dr. Douglas M. Baker, 2014-04-04 *Esoteric Astrology - A New Astrology for a New Millennium Volume One - The Signs, Planets and Houses of the Horoscope* This publication takes a new and revitalised look at astrology. It is simple to understand, yet remains a powerful tool, capable of providing a solid foundation for the comprehension of this broad and magnificent subject. This textbook, like most of Dr. Baker's printed books, eBooks and DVDs, enhances your studies via many charts, lists, tables and images (over 100 in this one). This major work is a very comprehensive introduction for those who want to study this subject in earnest, and for the more advanced student it will serve as an essential reference manual. In today's computer-based world it is no longer necessary to spend hours calculating a horoscope when the most modest PCs can do it in seconds, and with 100% accuracy! Consequently the needless paraphernalia, usually associated with learning astrology, has been stripped away. Emphasis is placed on the application of astrology to the unique problems of the modern world, its use as a method of revealing

purpose and meaning in life, and ultimately as a key to the psychosynthesis of personality. The horoscope is described in comprehensive detail, with special attention given to the esoteric ruling planets of the zodiac signs, which are more relevant than orthodox rulers in the charts of spiritually-minded people. The new rulers also accommodate the immense changes in external conditions and inner consciousness that have occurred in the last hundred years and are related to a new range of experience which the brain registers as the externa of the modern world. The significance of karma is represented for it gives dramatic effect to our daily actions, and the third factor of esoteric psychology, lying beyond our understanding of heredity and environment, is given full prominence. This integrative and enriching work can be read alone, as a fascinating introduction and foundation to the New Astrology, or can be followed up with the author's extensive range of astrological books and video tapes, audio lectures and the all-embracing Dictionary of Astrology for the 21st Century. Together they provide a complete system for the professional and novice alike, containing efficient and extraordinary techniques of interpretation which have never been used before and which halve the time required to assimilate and practise astrology.

MEDICAL ASTROLOGY Dr. Douglas M. Baker, 2014-11-23 MEDICAL ASTROLOGY By Dr. Douglas M. Baker B.A., M.R.C.S., L.R.C.P The author, a medical doctor, has used astrology as an additional diagnostic technique for 50 years, and whilst not being as accurate in discovery as the diagnostic capacities of modern medicine it can act as a second opinion and sometimes point out an infrastructure to the complaint as well as a holistic interpretation. The use of esoteric rulers has made the work easier, giving more accurate and specific interpretations because of their 'one ruler for one sign' basis. It has also been a joy to note that horoscopes of the famous, where illnesses and causes of death have been well-known, corroborate the esoteric rulers and have fitted into the pattern of my own discoveries and observations. Many examples, conditions, charts and interpretations are given here to demonstrate the merits of this method. The author's own experience of medical conditions in which there is a link between two faculties, like muscle and the forebrain is that one factor may mask another via their interconnections. The immense value of astrology as a diagnostic tool is that where conditions arise from multiple factors, each can be identified separately in the horoscope and investigated further for their inter-connectedness through the relevant aspects. This knowledge was shared at the 1998 world convention of astrologers in Orlando, Florida, USA.

She shares tools for individuals and therapists to cope with the intensity of spiritual emergency and too much fire energy, unblock the chakras, and integrate the power of kundalini for physical, emotional, and spiritual growth.
