*Astrology and the Rising of Kundalini* Barbara Hand Clow, 2013-09-02 Revised and updated edition of the classic astrology text on predicting and navigating life crises • Provides charts for the transits of Saturn, Uranus, and Chiron--now updated through 2050--to predict your personal growth cycles and timing of kundalini rising • Shares tools to cope with the intensity of spiritual emergency and direct the kundalini energy released during planetary passages • Includes a new preface by the author reflecting on 20 years of success stories since the book's initial publication • No astrological chart needed to use this book In this updated edition of *Liquid Light of Sex*, renowned astrologer and spiritual teacher Barbara Hand Clow explores the connection between life crises in your 30s, 40s, and 50s and the key astrological passages of Saturn, Uranus, and Chiron in your birth chart. She explains how kundalini energy--the "liquid light of sex" that lies at the base of the spine--is activated during these planetary transits, rising through the chakras and triggering the process of spiritual emergency, and in many cases, a cascade of health, emotional, and relationship problems as well as extreme anxiety. She shows that by understanding these astrological transits, you can be prepared for turbulent periods and successfully navigate them by creatively channeling the spiritual fire of kundalini. Clow provides astrological charts--now updated through 2050 for those born between 1930 and 2000--detailing the cycles of Saturn,

Uranus, and Chiron, so you do not need your birth chart to use this book. She explains how to use the charts to predict the onset and completion of each kundalini activation and corresponding crisis. She shares tools for individuals and therapists to cope with the intensity of spiritual emergency and too much fire energy, unblock the chakras, and integrate the power of kundalini for physical, emotional, and spiritual growth. Reflecting on 20 years of success stories since the book's initial publication, Clow presents a road map for using celestial cycles to navigate positively and productively in times of great life change.

**The Horary Textbook - Revised Edition** John Frawley, 2014-01-31 Horary is the branch of astrology that provides clear, specific answers to specific questions. Quick, simple, and accurate, horary was for centuries the most valuable tool in any astrologer's work-box. Whether the question be on love, career, illness - or predicting the weather for a barbecue, this clear and comprehensive guide by a modern master of horary shows you how to answer it. The first edition of this book quickly established itself as a classic of astrological teaching. Now this master of the craft shares his deepening understanding, bringing what he has learned in the intervening years of teaching and practice to clarify, expand upon, and correct the original text. With the wit and lucidity that characterise his writing, the author guides all from beginners to seasoned practitioners to the very heart of horary astrology. Frawley's prowess as a horary astrologer is awesome. - The Mountain Astrologer.

**Kundalini Tantra** Swami Satyananda Saraswati, 1996  
In the last few decades, yoga has helped millions of people to improve their concepts of themselves. Yoga realises that man is not only the mind, he is body as well. Yoga has been designed in a such a way that it can complete the process of evolution of the personality in every possible direction. Kundalini yoga is a part of the tantric tradition. Even though you may have already been introduced to yoga, it is necessary to know something about tantra also. Since the dawn of creation, the tantrics and yogis have realised that in this physical body there is a potential force. It is not psychological or transcendental; it is a

dynamic potential force in the material body, and it is called Kundalini. This Kundalini is the greatest discovery of tantra and yoga. Scientists have begun to look into this, and a summary of the latest scientific experiments is included in this book.

*The Astrology Book* James R Lewis, 2003-03-01 The scientific, historic, and popular basis behind the ancient art of astrology is explored in this comprehensive reference. The guide also includes a table of astrological glyphs and abbreviations, a section on casting a chart, and a chapter that explains and interprets every planet in every house and sign.

*Secret Power of Tantrik Breathing* Swami Sivapriyananda, 2009-05-08 Explores the secrets and benefits of alternate nostril breathing practices • Includes breathing techniques to help overcome infertility, bad luck, and illnesses • Explains the interactions of the vital energy of breath with the chakras and energy channels (nadis) There is an intimate relationship between breathing and our emotional states. When we are nervous or excited, our breath rate increases. Conversely, if we alter our rate of breathing, we can alter our emotional state. The ancient civilization of India developed methods for changing the emotions and states of consciousness through yogic meditation and pranayama (breath control). *Secret Power of Tantrik Breathing* teaches the advanced pranayama system of svaraodaya, which is based on the fact that we normally breathe freely through only one nostril at a time. In a healthy person, breathing changes roughly every one and a half hours from one nostril to the other, with each nostril imparting different qualities to one's mental and physical state. The left nostril is cool, soothing, passive, and feminine in nature; the right is warm, energizing, active, and masculine. When the breath remains in one nostril for longer

than normal, mental and physical illness can result. The goal of svaraodaya is to harmonize the breath from each nostril with the life task needing to be accomplished. This book explains how to practice this breath control and how the vital energy of breath interacts with the chakras and energy channels (nadis) to create overall balance and harmony. It also includes svaraodaya breathing techniques to help overcome illnesses, infertility, and bad luck; make predictions; and attain liberation from the cycle of rebirth.

**Calendars of India** Dr Vinod K. Mishra, 2020-01-01 Calendars are created by civilisations to give meaning to the continuous flow of time according to their world-views. Over the past millennia, India has developed it's own unique collection of many calendars for regulating it's religious and cultural life. The current book presents a comprehensive account of their structure and relative importance at the present time and places them in the context of other calendars prevalent outside India. Suggestions have also been made for making some changes to bring them in line with our current astronomical knowledge. This book will be very useful to students and anyone who is curious about calendars.

**The Hatha Yoga Pradipika** Svātmārāma, 1975

*On the Heavenly Spheres* Helena Avelar, Luis Ribeiro, 2010 Thousands of years ago, people first observed a correlation between the heavenly bodies and events on Earth. Out of these early observations and subsequent refinements came what today is known as astrology. For most of these millennia, astrologers used only the seven visible planets: Sun, Moon, Mercury, Venus, Mars, Jupiter and Saturn. It is out of this tradition that Helena Avelar and Luis Ribeiro have written this extensive book on astrology. The rules and

principles here presented apply to all branches of astrologyA natal, mundane, horary and elective. Their method is the traditional and time-honored one, and includes, among others, chapters on: The Planets The Zodiac and the Signs The Essential Dignities The Houses The Aspects Chart Dynamics The Condition of the Planets The Fixed Stars The Parts The Power of the Planets Using this traditional method, it is possible not only to thoroughly and completely read the natal chart but to do so with a breadth and depth of meaning not found in the modern methods of astrological interpretation. It avoids cookbook-type methods and centers on the practical understanding of the astrological concepts, presenting the Tradition in present-day language. In addition, more than two hundred fifty illustrations make the traditional principles easy to understand and use in chart interpretation. This practical how-to book is one of a kind, and the one that will teach you the traditional methods and you reach into the past to benefit from the knowledge of the authors and astrologers from ancient Babylonia through the medieval period. It is suitable for both beginners and advanced students, as it provides the indispensable core of astrological knowledge, at the same time allowing more experienced students to organize their knowledge into a coherent system.

The Astrology of Seers David Frawley, 1992  
Astrology of the Seers is a clear yet comprehensive presentation of Vedic astrology and makes this difficult-to-understand subject clear, practical and relevant. it reveals the deeper implications of the Vedic system in sections on astrology as a spiritual science, astrology and psychology, astrology and yoga. Of special interest, the book explains the cycle of the world-ages (yugas), showing the Vedic view of human history, and the connection of our solar

system with galactic sources of energy. Thirty-two example charts of all types are explained including those of many spiritual teachers, covering all the main aspects of its philosophy, background and practice, including chart interpretation and methods of balancing planetary influences such as mantra and gem therapy. The present edition has been thoroughly revised and updated.

**Ashtanga Yoga** Gregor Maehle, 2011-02-09 Ashtanga Yoga: Practice and Philosophy is the first book of its kind, presenting a comprehensive guide to all eight limbs of Ashtanga Vinyasa Yoga. Join author Gregor Maehle, a seasoned yogi and compassionate teacher, as he guides you through: • the history and lineage of yoga • the fundamentals of breath, bandhas (energy locks within the body), drishti (the focal point of the gaze), and vinyasa (sequential movement) • a detailed breakdown of the asanas of the Ashtanga Primary Series, following the traditional vinyasa count • a lively and authentic rendering of the complete Yoga Sutra of Patanjali, yoga's ancient sacred text • a glossary of yoga terminology In the asana section, Maehle describes each posture with clear, meticulous instructions, photographs, anatomical illustrations, and practical tips. Information on the mythological background and yogic context of specific postures brings further insight to the practice. In the philosophy section, Maehle illuminates the Yoga Sutra using the major ancient commentaries as well as his own insights. This volume makes the entire path of Ashtanga Yoga accessible to modern practitioners. Both practical guide and spiritual treatise, Ashtanga Yoga is an excellent introduction to the eight limbs of yoga and an invaluable resource for any yoga teacher or practitioner.
