Divination Dictionary Lillian Verner-Bonds,2020-10-20 Author and clairvoyant Lilian Verner-Bonds helps budding witches and practitioners of magic tap into their intuition--and empower themselves. She explains the rich heritage associated with the art of divination and shows you how to interpret your own, and your friends', futures. A guide to over 40 divination methods ranges from the familiar--astrology, palmistry, tarot--to the more unusual, including cephalomancy (skull reading) and tea-leaf reading.

The Wiccan's Dictionary of Prophecy and Omens Gerina Dunwich,2018-11-27 THE WICCAN'S DICTIONARY OF PROPHECY AND OMENS Divination—the art of obtaining knowledge of the future or of secret things—has played an important role in ancient cultures and religions as well as in modern times. It was once a method of sacred communication with the spirit world and a way to determine the will of the gods by means of visions and predictions. In the present age, divination, including astrology, palmistry, and the I Ching, continues to be a popular method of looking into the future or past, as well as revealing that which was once unknown. In fact, a large number of our contemporary customs and superstitions are remnants of the once-powerful divinatory rituals of the ancient pagan religions. The Wiccan's Dictionary of Prophecy and Omens details over two hundred methods of divination, from those used in antiquity to those in use today. It traces the history of these practices and provides examples of nearly every known divinatory art. This is an essential resource for followers of today's Wiccan lifestyle by modern Wiccan expert Gerina Dunwich.

The Lover's Dictionary David Levithan, 2012 How does one talk about love? We are all beginners when it comes to love, from those tentative first dates to learning how to live with, or without, someone. But how does one describe love? How does one chart its delights and pleasures, its depths and desolations? Do we even have the right words to describe something that can be both utterly mundane and completely transcendent, pulling us out of our everyday lives and making us feel a part of something greater than ourselves? David Levithan's *The Lover's Dictionary* starts where we all once started - with the alphabet. Constructing the story of a relationship as a dictionary, Levithan explores the intimacies and workings of love through his nameless narrator, to paint a moving portrait of love through everyday words. Cleverly using the confines of language to provide an intimate window into the great events and quotidian trifles of being part of a couple, Levithan gives us an indelible and deeply moving portrait of love in our time.

The Encyclopedia of Fortune-telling Francis King, 1988 The lines on a palm, the symbols of the

tarot, even the suits and numbers on playing cards -- these are some of the remarkable ways to tell fortunes. Practice any of several methods to glimpse what may be in store for you, your friends, and family: numerology, runes, crystal gazing, the I Ching, astrology, dream interpretation, and more. Or step into the past and trace predictions of famous fortunetellers, such as Nostradamus.

The Encyclopedia of Fortune-telling Francis X. King,1988

Symbolism in Fortune Telling Cicely Kent,2014-01-09 Symbolism in Fortune Telling A

Dictionary of Basic Symbols and their Meaning Brand New Edition Fortune-telling is the practice of predicting information about a person's life. The scope of fortune-telling is in principle identical with the practice of divination. The difference is that divination is the term used for predictions considered part of a religious ritual, invoking deities or spirits, while the term fortune-telling implies a less serious or formal setting, even one of popular culture, where belief in occult workings behind the prediction is less prominent than the concept of suggestion, spiritual or practical advisory or affirmation.

Historically, fortune-telling grows out of folkloristic reception of Renaissance magic, specifically associated with Romani people. During the 19th and 20th century, methods of divination from non-Western cultures, such as the I Ching, were also adopted as methods of fortune-telling in western popular culture. An example of divination or fortune-telling as purely an item of pop culture, with little or no vestiges of belief in the occult, would be the Magic 8-Ball sold as a toy by Mattel, or Paul II, a cephalopod of the Sea Life Aquarium at Oberhausen used to predict the outcome of matches played by the German national football team. There is opposition against fortune-telling in Christianity and Judaism based on biblical prohibitions against divination. This sometimes causes discord in the Jewish community due to their views on mysticism.

The Fortune-telling Book Raymond Buckland,2003 Explains how to use the many forms of

divination, explores events and predictions, and includes entries on such people as Aleister Crowley and Jeane Dixon.

The Little Giant Encyclopedia of Fortune Telling Diagram Group, 1999 Many methods exist for getting a “jump” on time—dowsing, different forms of astrology, Tarot, and more. Which will be your crystal ball: aeromancy, Oriental astrology, palmistry, phrenology, or various forms of casting? There’s a dictionary of omens and superstitions, one on dreams, and over 500 pages of explanations, directions, charts and illustrations.

Taromancy Gerald Boak, 2012-03 The 84 oracles were first published in 1985. They were intended for the experienced hand at divination, and have remained in widespread demand ever since. I hope this fully revised edition, which contains the same oracles but in less technical language, will appeal to those only now setting out to explore fortune telling. After a quarter of a century in use, I believe their following justifies this major revision. Apart from their plainer style, a new Summary and in-depth Conclusion now accompanies each oracle. These replace the earlier and limited Notes, and explain even the smallest areas of interest. Together with extra and helpful background material in the first three chapters, I believe these sizeable additions will provide a more complete and user-friendly tool of divination. Finally, and on a purely technical note, the astrological aspects behind the oracles agree with the work of Aleister Crowley in his dictionary of correspondences, *Liber 777 vel Prolegomena Symbolica ad Systemam* (etc.) published privately in 1909 and adopted since as a standard work of reference. Two of those correspondences were amended in his 1944 edition of *The Book of Thoth*. In that book Crowley made a fundamental error in his Key Scale of the tables, incorrectly assigning Aries to Tarot trump XVII and Aquarius to trump IV, whereas, and by his own admission, they should be counterchanged. Fearing more hawk-eyed diviners will question my choice of attributions, I thought it

safest to explain in advance.
