M.S. mehta

Sûrya-Siddhânta Phanindralal Gangooly, 1989 The oldest and most important treatise of the post-Christian period on Indian Astronomy that has come down to us is the Surya Siddhanta consisting 14 chapters written in slokas. Alberuni says that Lata was the author of this work. According to the introductory verses Surya the sun-god revealed it to Asura Maya in the city of Romaka.

Vargas: a Vedic Approach Raj Kumar, The Vargas are the unique feature of Vedic astrology which has given it a definite edge over any other system in vogue. The primary aim of studying a Varga is two folds- to study a particular aspect of human life pertaining to a specific house and to find out the true strength of planets related with the house. A horoscope takes into account linear time and vertical declinations of the planets. Every division of zodiac has a corresponding division of time. Hence a Varga gives projections representing possibilities which might occur in different time frames. Each chart gives a microscopic view of a particular facet of life seen in the light of Dasha sequence. There are many tools available to assess the true strength of a planet. One set of rules rely on PAC of planets, their awasthas and yogas formed by them. The other, Nadi system, studies the effects of lords of sign, Nakshatra and Sub under which a planet is placed. At times these influences change the characteristics of a planet completely. In this book an attempt is made to unite the two systems to get the true

strength of planets. In order to understand a planet and its significations in a better way, a comparative study of planets in birth and divisional charts has also been made. This book shall add to precision and accuracy of probable events and their qualitative effects on various aspects related to a native and as such will be of great use to serious students of astrology.

The Recognition of Shakuntala Kali dasa, Kālidāsa, 2006-11 The play

Shakuntala was one of the first examples of Indian literature to be read in translation in Europe. Shakuntala's story is a leitmotiv that recurs in many works of Indian literature and culminates in the master Kali-dasa's drama for the stage. The virtuous heroine is forgotten by her betrothed, the king Dushyanta, only to be refound thanks to a distinguishing signet ring discovered by a fisherman in the belly of one of his catch. The final act distills the essence of human forgiveness, in Shakuntala's gracious release

of her husband from his guilt.

Krishnamurty Paddhati Arun Bansal, Krishnamurti Paddhati is an excellent system (Paddhati) of astrological predictions conceived & created by The Great Indian Astrology King, late Prof. K.S. Krishnamurti. As you must have experienced that accuracy of the time period of the events is difficult when one uses Traditional/Vedic or any other system. KP can give you a precise YES or NO answer astrologically to your questions. To overcome the above and similar short-comings of the conventional vedic system, KP comes as savior. The position of a planet either benefic or malefic covers a large domain of 30° within a Rasi. K.P. system tends to evolve a system by which the operation of a particular planet in a Rasi, is determined by just not its placement but by the constellation it travels and the sub lord it is positioned in. All planets moving from Vernal Equinox Aries according to the Nirayana system get their results modified as they move in the Zodiac. Thus in the first $13^\circ 20'$ any planet transiting in Mesha will be influenced by the constellation called Aswini and so on till Revathi in which the planet will be influenced by Mercury. As the duration of the zone $13^\circ 20'$ for each Nakshatra is a broad zone, they are further classed into nine parts in proportion to their duration as per their Vimshotri Dasa. This is termed as the sub-lord. Normally, Jupiter, Venus, affiliated Mercury and waxing Moon are termed as natural benefics while Sun, Mars, Saturn, Rahu & Ketu as malefics. But in KP it is determined by sub lord planet is posited in. 1. The

planet in a constellation will offer the result of Bhava house occupied by the lord of the constellation. 2. The planet which is situated in a constellation is the strongest to offer the results of the house occupied by the lord of the constellation.. 3. The occupants of a house is strong to give the results of the house occupied by it. Planets in the constellation of the occupants of a Bhava will indicate the fruits of the Bhava. 4. Planet deposited in the constellation of the lord of the sign where the cusp of a house falls. 5. Then only the lord of the sign where the cusp of a house falls. The above form the various significators for the determination of a particular event. Only the conjoined planets of the above should be utilised for determining the end result. Hence it may be concluded that the planet is the resource, constellation indicates nature of the result and the sub is a deciding factor whether the matter is favourable or not. Unless the last is favourable we do not call it a benefic. Note:- Rahu & Kethu are Nodes. A node signifies firstly the results of the planet or planets with which It is conjoined, then the results of lord of the constellation in which It is deposited, then the planet or planets aspecting it and lastly of the owner of the sign in which it is deposited.
