People who think they are Arians, could actually have their Sun in Pisces. More than three quarters of the world's population have been assuming the wrong zodiac sign. Can 12 types capture the mind-boggling diversity of personalities in the world? Astronality-186 systematically demonstrates that the various permutations and combinations of Sun, Mercury and Moon, correctly placed, create 186 distinct personalitytypes, not just 12. Vargas: a Vedic Approach Raj Kumar, The Vargas are the unique feature of Vedic astrology which has given it a definite edge over any other system in vogue. The primary aim of studying a Varga is two folds- to study a particular aspect of human life pertaining to a specific house and to find out the true strength of planets related with the house. A horoscope takes into account linear time and vertical declinations of the planets. Every division of zodiac has a corresponding division of time. Hence a Varga gives projections representing possibilities which might occur in different time frames. Each chart gives a microscopic view of a particular facet of life seen in the light of Dasha sequence. There are many tools available to assess the true strength of a planet. One set of rules rely on PAC of planets, their awasthas and yogas formed by them. The other, Nadi system, studies the effects of lords of sign, Nakshatra and Sub under which a planet is placed. At times these influences change the characteristics of a planet completely. In this book an attempt is made to unite the two systems to get the true strength of planets. In order to understand a planet and its significations in a better way, a comparative study of planets in birth and divisional charts has also been made. This book shall add to precision and accuracy of probable events and their qualitative effects on various aspects related to a native and as such will be of great use to serious students of astrology.

The Timing of Events Bepin Behari,2002 THE TIMING OF EVENTS fulfils an important need of Vedic Astrology. Predictive astrology aims at identifying the specific period for the occurrence of a specific event. Several principles on this subject have been indicated in classical texts. Many of them are not available to a large number of modern students. The present study on the subject by Bepin Behari gives various principles on the subject in a very lucid and readable manner. It discussed Dasa system, transits of planets, Astakavarga, Annual Horoscopy and the principles laid down in Tajaka Nilkanthi. It is down in Tajaka Nilkanthi. It is expected that the students and practitioners of Vedic Astrology will find the book immensely helpful.

Service Crew Caroline Gall,2009-02-05 Paris, 1975; Chelsea, 1984; Birmingham, 1985; Bradford, 1986; Bournemouth, 1990. Many of the most shocking incidents in British football history have involved the hooligan followers of one club: Leeds United. For 40 years they have run riot across the country, punching their way to international notoriety, yet they have remained the most secretive of all mobs. Journalist Caroline Gall spent two years interviewing participants from several generations to piece together the first ever history of the gangs, from the Shipley Skins to the youths of the present day. The apex of this hooligan army was the Service Crew, who adopted their name from the service trains they used instead of the heavily policed 'specials'. They emerged as the casual era dawned and, against the violent backdrop of the Miners' Strike, quickly became feared by their terrace foes. The police eventually launched Operation Wild Boar to take down the ringleaders, only to convict a small number of relative fringe players. Service Crew examines racism at Leeds, chronicles some of the worst incidents of football-related disorder in modern times, and charts the effects of drugs and the rave scene on the hooligans. It is the definitive story of football's most vilified fans.
