The Seven Indian Chakras Through the Vision of Kabbalah Eliel Roshveder, 2021-04-17 There is a belief in mystical Judaism that the Indian Vedas were descended from the children of Abraham with the slave Quetura who is one of his women after Sara's death. The children that Abraham had with this woman emigrated to India and gave rise to the religion of the Vedas carrying books of magic by Abraham, powerful books that gave rise to deep mystical knowledge within Indian culture. There are many connections pointing to this, including the name of Brama, the oldest and most powerful God in India who has a resemblance to the name Abraham, Abraham. The goddess Sarasvati, wife of Brahma also has the same name as Sarah, wife of Abraham. She gave birth to Sara Kali who is the main goddess of the Roma people who emigrated from India hundreds of years ago. This connection between Indians and Israelis is revealed in more depth in the connection between the Indian religion and the kabbalah. Kabbalah, a mystical knowledge of Judaism, has meditation techniques and believes in the plurality of inhabited worlds like in India. At the time of Abraham, there were many forms

of magic inherited from ancient peoples and Abraham had access to these formulas, to these mystical books of magic and passed this knowledge on to the slave's children who emigrated to India, because he feared that they were idolatry and therefore they passed on to Isaac and Ishmael. This work addresses the important link that exists between the Indian Chakras and the Sephira of Sephiroth showing a common bond between Indian religion and Hebrew Kabbalah. Just as Chakras are an important knowledge within the Indian religion, Sephiroth is the essence of Kabbalah, the most mystical and deepest part of Judaism. Chakras are vortexes of energy that connect our physical body with the soul and influence the physical, as they are on important organs of the human body radiating energy that spreads through the body and defines our life, our daily lives. It is the energy of the Chakras that radiated activates the organs and glands of the body mainly through the Coronal Chakra that pours its energy over the top of the head, over the pineal gland and the pituitary system, limbic system and the cerebral cortex. At the top of the head this energy emanates from our divine self and through the aforementioned brain organs they control the whole body, both our gland system and the

energy that flows throughout the nervous system. It is this energy that is worked on in acupuncture, an invisible energy that Western science does not yet understand. Until recently this alternative science of acupuncture was pursued, blocked, but now this holistic knowledge is beginning to be released to the western world. It is through the chakras that the exchange of energy occurs in which our spiritual body controls the soul and from the soul this control reaches the physical.

The Green Serpent and the Tree James N. Judd, MS.D., D.D., N. James, 1999-11-04 Within the human system there are certain archetypes, centers, or vortexes of energy. As this energy or power exists at a different level than our conscious awareness it remains essentially dormant with most people, but when activated usually through meditation this force has a most profound influence upon our psychological, spiritual and physical nature. As this inner, subtle energy plays such a vital role in our overall being there is much to be gained from understanding this force, and how to benefit from its power. This information can be found in the ancient spiritual teachings of the Jewish Kabbala and the Hindu Kundalini Yoga, but the complexity of these teachings, particularly with Kabbala, makes it

difficult to find useful answers as to how this inner power can be utilized. In *The Green Serpent and the Tree*, Dr. Judd cuts through the confusing terminology of these teachings and, in an easy-to-read style using practical examples and illustrations, logically explains: The inner nature of man and structure of the soul. How Kabbala and Kundalini Yoga can be reconciled, and how they augment each other. The difference between the symbols of The Tree of Life, and The Tree of the Knowledge of Good and Evil. Why the seven inner centers (Chakras) of Kundalini Yoga are the same as the ten centers (Sefirot) of Kabbala. The significance of the Green Serpent (Kundalini) and the functions of the various channels that connect the inner centers. The different centers, with a detailed description of their psychological and spiritual influence. Relationship of meditation with releasing the power from the inner centers. The practical value of meditation, its four stages, and the physical, psychological, psychic and spiritual effects. The risks involved in releasing these inner powers, and how to avoid them. The reason for the inter-relationship between Kabbala and Kundalini Yoga, and their original source. Although this book is written in an explanatory style which guides the layman through the intricacies of

these two teachings as they relate to our inner powers, the material content contains much that will interest the more advanced student. Based upon thorough research, Dr. Judd outlines in logical steps why, The Tree symbol that is frequently referred to as the Tree of Life is misnamed. Any attempt to reconcile the Chakras with the Sefirot using the wrong Tree symbol will lead to inaccurate conclusions. The position of the Sefirot changes depending upon which Tree symbol is used. There are three central channels that connect the Chakras, rather than the one that is usually shown, and Kabbala supports this fact. This explains the different levels of power released from the same Chakra. Why some of the practices used to open the Chakras involve considerable risks. Anyone who wishes to expand their knowledge of Kabbala, Kundalini Yoga, the inner nature and powers of man, meditation, and the safe way to travel on the journey within, will greatly benefit from the information in this book.

Universal & Kabbalistic Meditation on The Lord's Prayer Choa Kok Sui, 2001

The Secret Doctrine of the Kabbalah Leonora Leet, 1999-08-01 A vast reconstruction of the

knowledge of the ancient Jewish priest-scientists, with vital implications for contemporary spirituality and science. • Reveals an ancient science that used geometry, sound, and number to link the finite world of human experience with the infinite realm of the divine. • Uses teachings extending back thousands of years to explicate key concepts of quantum physics and quantum cosmology. For centuries the Kabbalah has fascinated devotees of mysticism while its origins have remained obscure. Now, in her brilliant new work, Leonora Leet reveals that the Kabbalah was the product of a sophisticated, though largely forgotten, Hebraic sacred science that was the rival of any in Egypt or Greece. Not only does Leet reconstruct the secret teachings of the priest-scientists of the Hebrew temple, she also shows them to be the key to understanding both biblical and kabbalistic cosmology. Unlike previous purely historical explorations of the Jewish esoteric tradition, *The Secret Doctrine* of the Kabbalah resurrects this ancient body of knowledge to reveal eternal truths that can have a profound and positive impact on contemporary spirituality. New experimental methods of practicing Hebraic sacred science are explored that explain as never before the meaning of the central

cosmological diagram of the entire Western esoteric tradition--the kabbalistic Tree of Life. Leet shows that the Kabbalah and its central diagram enshrine a key to the purpose of the cosmos, a key that has vast implications for modern physics and cosmology. In a final synthesis, she envisions a culmination in which the universe and its divine child, perfected humanity, achieve that unification of the finite and infinite which has ever been the secret doctrine of the Kabbalah.

The Mystical Qabalah Dion Fortune, 2017-02-09 The Tree of Life forms the ground-plan of the Western Esoteric Tradition and is the system upon which pupils are trained in the Fraternity of the Inner Light. The transliteration of Hebrew words into English is the subject of much diversity of opinion, every scholar appearing to have his own system. In these pages I have availed myself of the alphabetical table given by MacGregor Mathers in *The Kabbalah Unveiled* because this book is the one generally used by esoteric students. He himself does not adhere to his own table systematically, however, and even uses different spellings for the same words. This is very confusing for anyone who wishes to use the Gematric method of elucidation, in which letters are turned into numbers. When,

therefore, Mathers gives alternative trans literations, I have followed the one which coincides with that given in his own table. The capitalisation employed in these pages may also appear unusual, but it is the one traditionally used among students of the Western Esoteric Tradition. In this system, common words, such as earth or path, are used in a technical sense to denote spiritual principles. When this is done, a capital is used to indicate the fact. When a capital is not used, it may be taken that the word is to be understood in its ordinary sense. As I have frequently referred to the authority of MacGregor Mathers and Aleister Crowley in matters of Qabalistic mysticism, it may be as well to explain my position in relation to these two writers. I was at one time a member of the organisation founded by the former, but have never been associated with the latter. I have never known either of these gentlemen personally, MacGregor Mathers having died before I joined his organisation, and Aleister Crowley having then ceased to be associated with it. The Society of the Inner Light, founded by the late Dion Fortune, has courses for those who wish seriously to pursue the study of the Western Esoteric Tradition. Information about the society may be obtained by writing to the address below.

Edgar Cayce and the Kabbalah John Van Auken, 2010 John Van Auken combines his love of Kabbalah with his 40 years of studying the psychic readings of world-famous seer Edgar Cayce to take us on a mind-expanding journey through creation and the higher levels of our consciousness. Van Aukens easy writing style helps to shed light on the most complicated concepts in Kabbalah, making it easier to grasp the five divisions of our being, the four planes of existence, the seven heavens, the ten emanations, and the twenty-two channels of the Infinite Creative Consciousness. We also learn how to expand our minds to perceive these realms, to journey through them, and, to remain sane, healthy, and active in our present life. Van Auken brings in insights from Buddhism, Hinduism, Taoism, and even ancient Egyptian theology, and includes Gnosticism and Neo-Platonism in this multi-dimensional vista. A reading journey into Edgar Cayce and the Kabbalah offers you a personal road map to higher consciousness and a happier, more fulfilling life!

Kabbalah Paul Roland, 1999 The Piatkus Guide to Kabbalah is an accessible and fascinating guide

to a subject that is normally hard to understand. Kabbalah expert and teacher Paul Roland guides you through the origins of this mystical tradition and reveals its basic principles and beliefs.

Kabbalah and Meditation for the Nations Yitschak Ginzburg, 2007 Ours is the first generation in modern times to understand the truly universal human condition and to seek to bring all peoples of the earth together in peace and harmony. We are the first generation to truly understand that we are faced with the challenge of either inhabiting our planet harmoniously or not inhabiting it at all. Filling our future is the fundamentalism that threatens to pit one religion against another. But, our different relationships and understandings of G-d should not be the reason for conflict but the source of goodwill in building our relationships with one another and our ability to understand others. The covenant with the Jewish people was not the first made between the Almighty and mankind. Before the revelation at Mt. Sinai, G-d commanded Adam and then made a covenant with Noah, giving them the guidelines for the universal religion of mankind. The most well-known part of this covenant is the seven universal commandments, or the Seven Noahide Laws. For this reason, Judaism and Jews do

not proselytize, but rather seek to guide the nations of the world in developing their own relationship with the Almighty and implementing these potentially unifying laws of basic human nature. This book offers you a glimpse into the tremendous mystical power and meaning of G-d's covenant with humanity and the Seven Noahide Laws, as explained in Kabbalah. It focuses on their spiritual and inner dimensions and inspires a deeper look at our best hope for achieving world peace and a better future for all beings.

Kabbalah: Key to Your Inner Power Elizabeth Clare Prophet, Patricia R. Spadaro, Murray L.

Steinman, 2020-10-19 “A masterpiece. The rich tradition of the Kabbalah comes to life in a language that is accessible even to those unfamiliar with this ancient and classic tradition.” —Caroline Myss, Ph.D., New York Times bestselling author of *Anatomy of the Spirit* Mystics are adventurers of the spirit who dare to push beyond the boundaries of orthodox tradition to pursue a common goal—the direct experience of God. *Kabbalah: Key to Your Inner Power* explores the once-secret Jewish mystical tradition known as Kabbalah. With intriguing new perspectives, it shows how we can use Kabbalah’s

extraordinary revelations about the creation of the universe, our relationship to God and our purpose in life to unlock our own spiritual power. It brings to life the path of the Jewish mystics—their joys and ecstasies, their sacred visions, and their practical techniques for experiencing the sacred in everyday life. Includes 36 illustrations, 19 charts and diagrams, pronunciation guide.

Everyday Kabbalah Melinda Ribner, 1998 Jewish meditation offers therapeutic psychological and physical benefits, including greater self-awareness and self-acceptance. While all the teachings of this book are designed to promote personal healing and well-being, some are intended to give spiritual fortitude to those who are undergoing particular hardships. *Everyday Kabbalah* is the first step-by-step manual integrating spiritual teaching and meditation lessons of the Musar, Hasidic and kabbalistic schools. It will also increase people's knowledge about Judaism and give them the means to live happier lives.

The Chakras & Esoteric Healing Zachary F. Lansdowne, 1993 Examines the relationship between chakras, states of consciousness, and pranic, telepathic and radiatory healing. Vital to healing is his

Trinity of Wisdom – Truth, Philosophy and Hermetic Alchemical Qabalah Mark Knight, Senior Lecturer in English Literature Mark Knight, 2010-11 Knight covers the ancient sciences of raising vibration and awareness, and explains synchronicities, lucid dreams, Qabalistic archetypes, and how to spin using the depths within the vehicle of the Unwritten Qabalah.

Kabbalah Month by Month Melinda Ribner, 2002-08-29 Publisher Description

100 Chakra System Raven Shamballa, 2019-07-23 The 100 Chakra System is a revolutionary spiritual work. When all 7 chakras are open and flowing you are functioning at optimal. When you are cleared up to the 100th chakra, you are illuminated with Divine light and on the path of Ascension. Raven defines the anatomy of the energy body which includes 100 chakras and the anatomy of the Lightbody which contains our Higherself. New concepts are discussed like the differences between opened and closed chakras and the concept of negative energies. Raven defines types of negative

energies that can disrupt energy flow in chakra system. Raven introduces psychic development and how to open spiritual gifts. She speaks about the differences between clearing the chakras and meditation. In order to channel one's guides, the spiritual chakra need to be activated and the 100 chakras need to be cleared. Negative Energy Release Work, is a style of pranic healing taught by Raven, which is introduced here. The self-healing section provides a self-study course for you to start your own energy healing practice. The 100 Chakra System book is the foundation work for Raven's psychic development courses and introduces concepts that are explored in her work.

Kundalini Tantra Swami Satyananda Saraswati, 1996 In the last few decades, yoga has helped millions of people to improve their concepts of themselves. Yoga realises that man is not only the mind, he is body as well. Yoga has been designed in a such a way that it can complete the process of evolution of the personality in every possible direction. Kundalini yoga is a part of the tantric tradition. Even though you may have already been introduced to yoga, it is necessary to know something about tantra also. Since the dawn of creation, the tantrics and yogis have realised that in this physical body

there is a potential force. It is not psychological or transcendental; it is a dynamic potential force in the material body, and it is called Kundalini. This Kundalini is the greatest discovery of tantra and yoga. Scientists have begun to look into this, and a summary of the latest scientific experiments is included in this book.

Kabbalah, Magic, and the Great Work of Self-transformation Lyam Thomas Christopher, 2006

Advancing to higher levels of ritual magic with purpose and power requires an exaltation of consciousness—a spiritual transformation that can serve as an antidote to the seeming banality of modern life. Based on Kabbalistic techniques, the teachings of the Hermetic Order of the Golden Dawn, and an Hermetic tradition spanning nearly two thousand years, this innovative new work introduces the history of the Golden Dawn and its mythology, the Tree of Life, Deities, demons, rules for practicing magic, and components of effective ritual. A comprehensive course of self-initiation using Israel Regardie's seminal *Golden Dawn* as a key reference point, *Kabbalah, Magic and the Great Work of Self-Transformation* guides you through the levels of the Golden Dawn system of ritual magic.

Each grade in this system corresponds with a sphere in the Kabbalistic Tree of Life and includes daily rituals, required reading, written assignments, projects, and additional exercises. Knowledgeable and true to tradition, author Lyam Thomas Christopher presents a well-grounded and modern step-by-step program toward spiritual attainment, providing a lucid gateway toward a more awakened state. Finalist for the Coalition of Visionary Resources Award for Best Magick/Shamanism Book

Western Esotericism Antoine Faivre, 2010-10-06 A survey of Western esoteric currents since late antiquity, with an emphasis on the last six centuries. Widely received in France, this brief, comprehensive introduction to Western esotericism by the founder of the field is at last available in English. A historical and pedagogical guide, the book is written primarily for students and novices. In clear, precise language, author Antoine Faivre provides an overview of Western esoteric currents since late antiquity. The bulk of the book is laid out chronologically, from ancient and medieval sources (Alexandrian hermetism, gnosticism, neoplatonism), through the Renaissance up to the present time. Its coverage includes spiritual alchemy, Jewish and Christian Kabbalah, Christian theosophy,

Rosicrucianism, Illuminism, ‘mystical’ Free-Masonry, the Occultist current, Theosophical and Anthroposophical Societies, the Traditionalist School, and ‘esotericism’ in contemporary initiatic societies and in New Religious Movements. Faivre explores how these currents are connected, and refers to where they appear in art and literature. The book concludes with an annotated bibliography, which makes it an essential resource for beginners and scholars alike. Antoine Faivre is Professor Emeritus at the École Pratique des Hautes Études (Religious Studies), Sorbonne. He has published extensively, including *Access to Western Esotericism* and *The Golden Fleece and Alchemy*, both also published by SUNY Press. Christine Rhone has translated numerous books, including Faivre’s *Theosophy, Imagination, Tradition: Studies in Western Esotericism*, also published by SUNY Press.

Ancient Pagan and Modern Christian Symbolism Thomas Inman, 1884

Kabbalistic Astrology Rav P. S. Berg, 2010-09-17 Ancient Kabbalistic mysticism and the search for meaning by looking to the stars are related in ways that may surprise readers. Kabbalah, in fact, offers

arguably the oldest and wisest application of astronomy and astrology known to humankind. Kabbalistic Astrology is a tool for understanding one's individual nature at its deepest level and putting that knowledge to immediate use in the real world. A natural addition to Berg's many writings on spirituality, the book explains why destiny is not the same as predestination and shows that we have many possible futures and can become masters of our fate. Written in Berg's trademark clear, intelligible style, the book teaches how to discover challenges faced in previous incarnations and how to overcome them, as well as the secrets to finding the love, success, and spiritual fulfillment.
