Lynn Buess

Numerology of Astrology Lynn Buess, 2013-12-25 Lynn Buess has done it again! As an innovator in the consciousness and self-awareness field for over forty years, he has now contributed a decidedly unique perspective of the time-honored system of astrology, helping humanity further understand its relationship to the universe. With this latest contribution to self-growth, Lynn offers an original perspective of numerology ? this time with the combination of numerological characteristics and astrological influences. He not only writes from an intellectual viewpoint but as someone who has experienced glimpses of cosmic consciousness. Like most of his works, it is his hope that this volume will help seekers better connect to their cosmic memories of being both human and eternal in nature. Experience all the signs of the zodiac in minute detail: Aries ? Taurus ? Gemini ? Cancer ? Leo ? Virgo ? Libra ? Scorpio ? Sagittarius ? Capricorn ? Aquarius ? Pisces It is my feeling that the sun degree serves a role of pinpointing just where the soul has the opportunity to make significant strides in personal growth or potentially stumble into a setback. A combination of the numerical value of the degree and the sun sign are blended together to offer insight about the nature of that commitment. ? Lynn Buess, MA, EdS

Numerology for the New Age Lynn Buess, 1978 Our own vibrations and cyclical patterns are numerologically determined by our dates of birth and given names. By understanding these cycles, we can learn to more efficiently express our potential, human and divine. This volume concentrates more on the experiential value of numerology than the historical. Lynn Buess has come into national prominence since the success of his first book *The Tarot and Transformation*. His popularity as a speaker and instructor has taken him across the country many times to universities, churches, professional organizations, and New Age Centers of Light. He has appeared on numerous television shows and on radio talk shows from coast to coast. Although his work with Tarot and Numerology causes most people to associate him with symbolical studies, Lynn spends most of his time today working with various alternative metaphysical healing methods. Since his gift of healing awakened years ago, he has demonstrated and taught numerous techniques of psycho-spiritual healing. He is also the author of *Synergy Session(R)*, which teaches an entirely new system of multiple-level wholistic counseling/healing. Along with his national tours, he has taught courses on parapsychology, healing, Tarot, meditation, and self-awareness at several colleges and one university within the University System of Georgia. As a tireless worker, Lynn is dedicated to bringing sincere seekers into a deeper awareness of the LIGHT within.

Numerology Based on Vedic Tradition: Learning to Make a Karmic Horoscope and Benefit from It to Do the Appropriate Present Karma for Inner Peace and H
Vinod Verma, 2013-07 Many think that astrology is for predicting future and they can have a better hold on the future if they know about the happenings beforehand. This is an erroneous notion, as in the Vedic tradition and culture, astrology is not meant to predict the future, as nobody can predict the future entirely. If it were so, then where is the human freedom? Astrology predicts principally the results of our past karma and the only way to counteract the results of the past karma is through present karma. Therefore, astrology is meant to guide you and to help develop your positive qualities and provide you guidance for eradicating the factors or qualities that lead you ultimately to bad fortune. The book is based on the Vedic tradition which is number oriented and the significance of numbers has been inspired from cosmogony and cosmology. Like the cosmos has its influence on us, these numbers also effect our day-to-day lives. Besides that, numbers play an important role in the performance of all rituals and ceremonies. Performance of fire ceremonies, weddings, entrance into a new house (grihpravesha), naming the newborn,

beginning of a new work or business or starting a construction, and thousands of other daily rituals are performed on a calculated specific time and day. Vedic mathematics is famous in the world and it gave the world the concept of zero and of decimal. The advanced astronomy and astrology and interaction of all what exists in the cosmos with each other is used to calculate the special dates for performance of the rituals and ceremonies. For example, the rosary used for japa (repetition of a mantra) in yoga has 108 beads. The distance from the earth to the sun is 108 times the diameter of the sun. Thus, this number is used to reach the celestial plane. The present book illustrates some amazing concepts of the ancient Vedic wisdom related to the numbers and how they can guide you in your everyday life. This book is meant to teach you simple numerological methods that you can beneficially use in your everyday life. You will find facts about your personality, how to modify your negative characteristics and how to enhance your positive characteristics. A quality can be used for both, destructive and constructive purpose and you will learn how to divert your energies for beneficial purpose. Organise yourself to hold important talks and meetings on the days and at times which is favourable for you. This book teaches you to calculate the disturbed periods in your life and do your best to go through it calmly and peacefully with the suggestions given in this book. How to use this book? Study this book in a systematic manner in order to get maximum benefit from this wisdom based on the most ancient living traditions of the world. Learn step by step in the following manner. Learn to calculate your life number and other important numbers related to you with the methods given in the first Chapter. Try to understand your karmic personality. In the second Chapter, learn about the importance and qualities of the individual numbers. Try to understand the philosophical basis behind each number and their importance in your life in relations to your life number. Learn about your personality traits. Learn to correlate different numbers related to your life number for making a complex horoscope and for matching the horoscopes of two persons for compatibility. Learn to calculate the life periods from the sum of age related to the life number. Learn to get over-difficult and disturbed periods of life with concentration practices and meditation on the symbolic significance of the numbers. This book is meant to be a self-help guide for developing positive traits in your personality and for learning to coordinate your past karma (daiva) with present karma (purushkara) to obtain the best results from given situations and circumstances in life.

Astrology and Numerology in Medieval and Early Modern Catalonia John Scott Lucas, 2003-09-01 The *Tractat de prenostication de la vida natural dels hòmens*, a late fifteenth-century Catalan incunable, draws on a rich tradition of astrological magic, geomancy, Pythagorean numerology, and Hebrew gematria. This practical manual offers a method of determining the birth sign based on calculations performed on the subject's name and his or her mother's name. The critical edition includes a literary, historical, and linguistic study; an English translation; and a Catalan-English glossary. The *Tractat* reveals Catalan sources for prognostication, a unique expression of medieval syncretism, the mingling of traditions, and the development of new ideas. It is a rare find for

Hispanists and others interested in astrology, magic, the history of science, and early print culture.
