Horoscope Matching Dr. S.C. Kursija, This book deals with the fundamentals of Horoscope matching. Today Horoscope matching has become the indispensable part of Hindu marriage. But it has not been mentioned in any old Jataka scripture of Astrology. However, it has been described in the

Muhurta scriptures of the same. In Ramayan, marriage of Rama, Bharata, Lakshmana and Shatrughna has been described elaborately. But, in this great epic also Horoscope matching has not been mentioned. Likewise, in Mahabharata, too, it has not been cited. Therefore, it can be said that Horoscope matching in Astrology was not in practice a few centuries ago. But, the community accepted and made it an indispensable part keeping its usefulness in view. Different systems of Horoscope matching are in practice in different parts of India. In North India, Ashtakuta matching is in practice whereas in South Dasakuta matching is in fashion. But Ashtakuta matching is in vogue in most part of India. This is why the All India Federation of Astrologers' Societies has accepted and prescribed this system of Ashtakuta matching for the courses of its students. The book has been written keeping in view the courses introduced by the All India Federation of Astrologers' Societies, Delhi. The students are advised to study "Kundali Milana-Sukhi Dampatya Jeevana Ka Adhar" because prediction of a happy married life cannot be made by Ashtakuta matching only. This shows only the amity, love and mutual understanding between the two. But to determine the age, health and ups and downs in life of the couple some other aspects such as Period-sub-period, Dosha Samya etc. are also essential to be analyzed. An analysis of long conjugal life is essential for its stability. So, apart from Ashtakuta matching, we should keep in view other aspects also. To know all this, "Kundali Milan – Sukhi Dampatya Jeevana Ka Adhara" is prescribed.

Ayurvedic Cure for Common Diseases N. Anjneya Murthy, 1995 The book is written for the people who are interested in simple remedies to cure common diseases. The treatments described in this book are based on the authors' observations and clinical experiences for many years. The preparations described here are from the ancient Ayurvedic texts. Ayurveda is a science based on ancient Indian philosophy. It can appropriately be called 'The Science of Living'. Ayurveda traces its etymology to Ayush, meaning 'life', and Veda, which originates from vid or knowledge. Popularly speaking, Ayurveda can be defined as a medical science which helps the human body to keep fit, while providing cures from indigenous plants, animal products and minerals for ailments. Thus, being essentially a science of healing, it concentrates on what is required to lead a healthy, normal life. It deals not only with what is to be done when one falls ill, but also with what should be done to maintain one's health and vigour. Ayurveda contains details about body care and the various foods and drinks which promote health. Ayurveda is based on scientific principles of diagnosis and treatment. It differs from conventional medicine in the basic principles of investigation and assigning causes to processes rather than specific areas of physiology. This book comprises time-tested concepts of regulated diet and a healthy lifestyle, supported with remedies and treatments based on Ayurveda that are

safe, effective and affordable.

The Gāndhārī Dharmapada John Brough,2000-12-31 The famous birch-bark manuscript in the Kharosthi script, which contains a recension of the Dharmapada in a Prakrit dialect, has long been familiar to students of early Buddhist literature under the name of `Ms. Dutreuil de Rhins`. The manuscript, written in the first or second century A.D., is generally considered to be the oldest surviving manuscript of an Indian text. It was discovered near Khotan in Central Asia in 1892, and reached Europe in two parts, one of which went to Russia and the other to France. In 1897 S. Oldenburg published one leaf of the Russian portion; and in 1898 E. Senart edited the French material in the Journal Asiatique, together with facsimiles of the larger leaves, but not of the fragments. Now, almost seventy years after the discovery of the manuscript, it is possible for the first time to place before scholars an edition of the whole of the extant material, together with complete facsimiles.
