How to Practice Mayan Astrology Bruce Scofield, Barry C. Orr, 2006-11-27 A contemporary and practical guide to Mayan astrological techniques • Discusses the logic and meaning of the 20 day-signs of the Mayan calendar • Explains the many cycles of Mayan astrology, such as the 9-day cycle of the Night Lords and the 13-day trecena • Contains extensive tables of Mayan astrological data, allowing readers to cast their own Mayan horoscopes

How to Practice Mayan Astrology presents a contemporary guide to one of the most sophisticated astrological systems ever developed. Like other ancient peoples, the Maya looked to the cycles of the planets as markers of time and designators of order. The predictable cycles they observed became codified in the Mayan calendar and astrological system as a way of organizing the seeming chaos of human life. Mayan astrology is based on 20 named days that are cycled 13 times to create a 260-day calendar, the Tzolkin. The authors explain the symbolism, logic, and meaning of the 20 day-signs; how these signs reflect 260 possible personality types; and how they can be used for divination. They also explain the important role of the Four Directions and the planet Venus in one's personality matrix and life issues. Included are extensive, easy-to-use tables of Mayan astrological data, allowing readers to determine their day-signs, to see how these signs are also influenced by the cycle of the Night Lords and the 13-day trecena, and to cast their own horoscopes.

Signs of time Bruce Scofield,1994-12 In Signs of Time, readers will be introduced to all the major astrological themes in the Maya/Aztec astrological tradition and offered objective interpretations of the key features of this ancient system of symbolic interpretation. The astronomy, calendars, mathematics, and spirituality of ancient Mexico are part of this exploration into the mind-set of ancient Mesoamerican astrologers. Of interest to many is a sober and objective look at the Mayan Calendar and its end date in 2012.

Canoe a Las Estrellas Clayton Haswell,Francisco Estrada Belli,Antonio Cuxil,Antonio Coche Mendoza,Robert C. Allen,2013-03-07 This story is based on the myths and legends of the early Maya people. The animal characters in the book represent the mythic figures in the Mayan story of creation. It is the story of The First Living Thing helping mankind come into being. The story of the mythic canoe crossing the river dates to the earliest Mayan history, as does the myth of Itzamna, represented by an iguana, pulling the first human beings from a cave. The drawings of the canoe used in the book are based on incision in a bone found beneath Temple I at Tikal, Guatemala. Examined for mythic and aesthetic rather than literal value, these forms represent heroic attributes, overcoming obstacles, and understanding the universe as the Maya saw it. As the oldest cosmology in the Americas, it is just now being fully uncovered and understood.

Maya Zooarchaeology Kitty F. Emery, 2004-12-31 A comprehensive work, combining traditional zooarchaeological reports and various state-of-the-art summaries of methods and theoretical perspectives. This combination of detailed discussions of basic zooarchaeological data with reviews of important themes in Maya zooarchaeology emphasizes the central issues that guide our research from basic data collection through final comparative interpretation. The chapters emphasize the newest developments in technical methods, the most recent trends in the analysis of social zooarchaeology, and the broadening perspectives provided by a new geographic range of investigations. The main focus of the volume remains on fostering cooperation among Mesoamerican zooarchaeologists at the levels of both preliminary analysis and final theoretical reconstruction.
