The Subarctic Fur Trade Shepard Krech III,2011-11-01 The
papers in this book focus on themes which have been near the
centre of fur trade scholarship: the identification of Indian

motivations; the degree to which Indians were discriminating consumers and creative participants; and the extent of Native dependency on the trade. Spanning the period from the seventeenth century up to and including the twentieth, with distinguished authors such as J. Arthur Ray and Toby Morantz, *The Subarctic Fur Trade* will help scholars become more fully aware of the issues concerned with Native economic history.
