Aura Chakra Wing Commander Santosh Sharma,2017-05-12 Give me space... I want some time for myself... I need peace. Meditation, in its traditional way, has become very difficult to do. The mind wanders and one feels tired and frustrated. Traditional yoga methods are old. People were simple with minimal needs. Modern men and women are in a hurry, desperately running in circles to have some respite from stress, anxiety, fear and restlessness. Everyone complains about the lack of time and space. *Aura Chakra: the Pulsating Vortex* is a meta-physical book to help you heal. It encompasses traditional Jnana with modern scientific research and is based on the personal experiences of the author over the last one-and-half decades. It also explains how astrology, Rudraksha and gemstones can help you have a balanced and peaceful life.

An Analysis of Longevity Shalini Dhasmana, Analysis of Longevity - An Astrologer can only give an Indication of what promise the future holds. Only Brahma, the creator, can say with certainty what will definitely happen. This applies most appropriately to Longevity determination. Matters like longevity cannot be decided by us mortals. They are in the hands of the supreme power and an Astrologer who wishes indulge in longevity determination, needs help of this super power to make the correct judgement. Ayu Nirnay is a very serious and a deep subject $\frac{1}{4}xw <+ o xEHkhj fok; \frac{1}{2}$ and it involves much more than just the mathematical calculation. Even after checking longevity by many methods, the Astrologer is almost forbidden to disclose the person's death to him. At the most he can give a very subtle hint. There are about 32 methods of calculation of longevity, but there is no one method which gives perfect result. After calculating it by a number of methods, if similar Ayu is found, then it can be relied upon, to a certain extent. There are many stories in our religion like those of Savitri and Satyavan and Markandeya Rishi, in which people whose life span has come to an end, have been granted more life by God himself. This shows that the length of life can be increased by Gods blessings. Length of life can also be increased or decreased by the persons own karmas in this life. People who lead a good regulated life from childhood, who follow good moral conduct, who eat less, and who respect god and the learned men, live up to their mathematically estimated life span or even longer. The people who do just the opposite have an untimely end. This shows that a person can reduce his life-span by his own kukarmas. Till a child is of twelve years of age his ayu nirnay should not be done. The first four years of his life and governed by the poorva karmas of his mother, the next four years are governed by the karmas of his father and the next four years are governed by his own karmas. Till twelve years, even prediction of his horoscope should not be done, because whatever the horoscope shows, can get altered because of these super imposing factors. For this reason till that age, every child should be protected through propitiation of planets, medical help and proper care. Only after he has crossed this age, his Ayu Nirnay should be done. This book contains all methods of determination of longevity of a native. Calculation of the longevity of a native is not an easy task. All expert astrologers believe that before interpreting a horoscope it is essential to determine the longevity of native. There are different methods of determining longevity but none of them can be termed as very accurate so it shall be better to follow various methods. In the field of astrology and especially in determining the longevity of a native the role of intuition is most important. Astrologer can develop intuition by continuous meditation and other spiritual practices. One should remember it always that nobody can control life and death. There is only one method of giving shape to our future and that is to bring improvement in our deeds. The summary of our scriptures is embedded in two words- Punya(holy/sacred/meritorious action) and Paap(sin). Our whole existence revolves around these two words only. It is the proposal of the author to keep it in the background of this book. This book contains all important methods of determination of longevity of a native.

Application Of Prasna Astrology V. K. Choudhry,2002

Horary for Beginners S.C. Kursija, This highly specialized astrological application is ancient. It deals with specific questions and methods of answering these questions based on Tajik Yogas formed in the horoscope of that time at which the question was asked. The basis of the horary chart is the time when your question is put to the astrologer, and from this a map of the sky is erected. Personal details, such as your date, place and time of birth, are not needed and so, for those who do not have this information, horary provides a method of dealing with problems. Horary astrology has its own strict system. The position of and aspects to the moon are of prime importance. The person asking the question, or querent, is represented by the ruler of the first house in the horoscope formed at the time of question. Planetary aspects are considered more important than in other branches of astrology (although it is the planetary rulers of the houses in question that take precedent in analysis). Typically, a horary chart is read by first assigning the thing asked about, the quesited, to a particular house in the chart. For instance, asking Where is my lost dog? would be represented by the sixth house, as it is the house that governs small animals (traditionally, smaller than a goat). Whenever anyone who does not have his/her birth details approaches the Astrologer, in such case the astrologer makes his horary chart and answers his/her queries. Horary astrology is based on the notion that the question and intensity to find its answer arises in the mind as a result of the divine command and at that particular moment, the planetary locations in the cosmos remains favorable. Sometimes a native has the queries related to his/her relatives, friends or neighbors even without having their birth-details. Horary Astrology has the adequate and significant tools based on divine principles to answer even such questions. Horary Astrology has the ability to answer

any question whether it is regarding the lost articles, return of the person from abroad or any place, the time to get cure of a sick person etc. This book gives vivid knowledge of not only the basic tenets of Horary Astrology but also explains the related planets, signs and houses for a specific query related to a particular subject. This book has specially been designed for the students of All India Federation of Astrologers' Societies but the other students interested to know this subject can also get benefitted equally with the study of this book.

765 Notable Horoscopes Raj Kumar, In any horoscope, the 1st, 5th & 9th houses are considered to be the most auspicious ones. It is believed that the soul enters the world through 5th house of Poorva Janam Karma to the ascendant in the form of human body and exit through the 9th house after completing the Karma assigned for the present birth through 10th house. These three houses together constitute the spiritual or Dharma Trikone, which primarily aims at transforming the native to a higher stage of evolution through their Divine faculties and creativity. Their lords irrespective of their natural traits, are favourable to a native leading to greater happiness. The ascendant is always the most beneficial house and its lord the most helpful planet, which guides and assists the native in all walks of life. The houses constituting Dharma Trikone reveal many special features of the native's destiny through his sojourn during the present incarnation. As per classics, there are four goals of human life, Dharma, Artha, Kaam & Moksha. Classics have extolled Dharma & Moksha and looked down Artha & Kaam. But Materialistic world of today has just the opposite view. Corresponding to the four goals are the four Trikones in any chart. All the four trikones have their Apex in a Kendra house, which indicates the involvement of the native in immediate / everyday life. There is no denying the prominence of Dharma Trikone, but to ignore the other three will be a Himalayan blunder. In fact all the four Trikones are dependent on Artha Trikone for sustenance and all the progress, we see around us, originates and get accomplished in Kaam Trikone.

Vedic Astrology Demystified Chandrashekhar Sharma, 2014-08-24 Vedic Astrology Demystified is written for Jyotish students. The purpose of the book is to introduce the reader to the basics of Jyotish, starting with its origin. All essential information required for interpreting a chart is detailed, with a comprehensive look at each of the rasis, grahas and the 12 different bhavas. An overview is provided of many of the important yogas to look for in a chart and also emphasizes why a particular yoga gives its results in order to teach students how to interpret combinations themselves. After setting out the basics of a chart interpretation, Vedic Astrology Demystified details how to predict using Vimshottari Dasha system and how to incorporate transits into a prediction. The book finishes with a practical review of various charts and the timing of events using the knowledge learnt. Vedic Astrology Demystified is written in a friendly style, so that the reader feels he is having a personal lesson from the author. As there is much conjecture on various topics within Jyotish, the author has incorporated into the book his own practices when interpreting and predicting from a chart.

Remedies of Domestic Vastu Tilak Raj, Remedies of Domestic Vastu contains easy and practical remedies for the rectification of vastu related faults. Vastu Shastra has got a scientific and spiritual base. You must have faith in Vastu if you have faith in Vedas and the God. The members of a family will live happily if the five elements are kept well into consideration while the building of the family is under construction just as the said Mahabhootas have been used in our physical constitution. The five elements are: earth, water, fire, air and ether. Our universe is also made of these five elements. Therefore it is said "Yatha Pind Tatha Brahmande". The God has rendered these five elements among which B stands for Bhoomi (Earth), G for Gagan (Ether), A for Agni (Fire) and N for Neer (Water). The God is also represented by Aum (om). In Aum (om) also A stands for Agni (fire), U for Jal (Water), M for Vayu (air), crescent (half-moon) for Bhoom (earth) and dot over crescent for Akash (void). Likewise, the word Vastu has all these five elements in it in which V stands for Vayu (air), A for Agni (fire), S for Srishti i.e. Bhoomi (earth), T for Tat i.e. Akash (ether) and U for Jal (water). The soul transfuses with mind, wisdom and egotism in the body after it is formed with the combination of the said five elements. All the five elements are represented by five planets in the following manner: Earth is represented by Mars, water by Venus, fire by Sun, air by Saturn and ether is represented by Jupiter. Mind is governed by Moon, wisdom by Mercury and egotism by Rahu. Ketu is the Karak of Moksha, the salvation. Any irregularity in the balance of these elements makes the members of the family suffer. Very often it is asked as to why the Vastu Shastra has got momentum only recently Can the Vastu faults be overcome by remedies? In this regard author says that the agonies of the man have been aggravating since he has started dwelling in multistoreyed flats as they are built like boxes where Brahmasthan is not kept open. The sun and air are not allowed in the house. Some people keep their windows close to protect themselves whereas some do it to save their household goods from dirt. Earlier a courtyard kept open in the middle of the houses so that sun, air and celestial elements might reach the rooms. There is nothing wrong if a man seeks advice from Vastu consultant to ward off the faults existing in house like an ailing person sees a doctor to have his advice. A Vastu consultant advises renovation of a building only when it is essential and there is no way out. He is like a good doctor who advises a patient to go for a surgery when the disease with which the latter is suffering from cannot be cured by medicines or by any other means. Vastu faults can also be removed without any renovation - by changing the place of the goods in the house and by selecting right direction for meal and slumber. They can be removed by worship of gods and deities. Fengshui, Pyramid, Yantra - Mantra can also be chosen as helping hands in attaining happiness and prosperity. In this book apart from a brief description of Vastu, different methods of remedies have been incorporated.

Remedies of Astrological Science Tilak Raj, Very often it is asked as to what is the use of astrology? Can the malefic result of planets be glozed? Suppose a man starts from home with an umbrella if he knows that it will rain today. He cannot prevent the rain but he can save himself to some extent with the umbrella. Likewise, we try to lessen the malefic effect of the harmful planets by Tantra, Mantra, Yantras, gems, worship or Jap if we know by Astrology that the period ahead is not auspicious. Different methods of remedies have been mentioned in this book. Learned astrologers prescribe various remedies to curb evil effects of planets. Some scholars advise to wear gems while others prescribe mantras. There are scholars who stress on Yantra-pooja or wearing Rudraksha. Some of them go for propitiating planets or for that matter tantrik remedies. This book explains that one should seek remedies for which planets and what type of remedies should be prescribed. Lal Kitab remedies have also been discussed in this book. One form of remedy can be to worship the planets by chanting their mantras. Recommendation of establishing Navgrah yantras is also very popular. The objective of establishing important yantras is also mentioned in this book. Those who do not know the mantras of planets

they can learn the important mantra of concerned from this book. If a planet is strongly placed in ones chart in that case the benefic effects of that planet can be multiplied by wearing its gem. This books also helps in selecting the appropriate gem for the native. Method of wearing gem has also been explained. This book in one of its chapters talks about the use of rare tantric items. In next chapter one can read about the healing touch of Rudraksha. In chapter no. 8 and 9 the remedies for the rectification of malefic influence of sadhesati and Kalsarpayoga are discussed. In concluding chapters the contemplation of God and worship of deities related to planets is discussed.
