**Vedic Astrology Demystified** Chandrashekhar Sharma,2014-08-24 Vedic Astrology Demystified is written for Jyotish students. The purpose of the book is to introduce the reader to the basics of Jyotish, starting with its origin. All essential information required for interpreting a chart is detailed, with a comprehensive look at each of the rasis, grahas and the 12 different bhavas. An overview is provided of many of the important yogas to look for in a chart and also emphasizes why a particular yoga gives its results in order to teach students how to interpret combinations themselves. After setting out the basics of a chart interpretation, Vedic Astrology Demystified details how to predict using Vimshottari Dasha system and how to incorporate transits into a prediction. The book finishes with a practical review of various charts and the timing of events using the knowledge learnt. Vedic Astrology Demystified is written in a friendly style, so that the reader feels he is having a personal lesson from the author. As there is much conjecture on various topics within Jyotish, the author has incorporated into the book his own practices when interpreting and predicting from a chart.

*Dots of Destiny* Vinay Aditya,2005-10-19 First ever book on Advanced Predictive Techniques of Ashtakavarga (Vedic Astrology) which leads the student step-by-step to the application of Ashtakavarga for everyday predictions. Reveals the decisive role of Ashtakavarga in analysing the dreaded period of sadhe-sati and much more. Vinay Aditya is the Associate editor of the 'Vedic Astrology' magazine, and author of a book on Ashtakavarga. Vinay Aditya holds a degree in engineering besides Jyotish Visharad from Bharatiya Vidya Bhawan, New Delhi. He has been teaching astrology for nearly 8 years, now with the ICAS. He has also been the faculty member at the ACVA conferences. He has given consultations to over thousand persons in Germany. Dots of Destiny describes advanced predictive techniques in a very lucid manner. Vinay Aditya, an engineer by education, opted for the highly evolved science of Vedic Astrology in India. Interestingly, also came across many articles by by Aditya, Vinay in 'Vedic Astrology' magazine. Great reading to all interested in Vedic Astrology and ancient predictive techniques of India. Basic knowledge of Vedic Astrology is a prerequisite to understand and enjoy reading Dots of Destiny. The entire edifice of astrology rests on the interpersonal play of planets in the backdrop of zodiacal signs. Ashtakavarga is the only method which puts this interplay into a competent system. A planet will do a job according to its strength. The other methods Shadbala (Parashari), Panchavargiya bala (Tajik), or Grahabala (Jaimini), have their own specific value, but they all seem to miss a very important point. And that is, that a planet does not operate in a vacuum, the other six planets are always somewherearound. Therefore, a planet will do a job only in as much measure as the other planets would allow it to do. The other planets either support its assignment or oppose it. In a nutshell, the native, at all times, experiences the combined results of all the planets. It is only a manner of speech amongst astrologers that a particular planet is causing trouble or otherwise because talking of all the seven planets in the same breath is difficult. It is for this reason that the Ashtakavarga system, when we say that Jupiter is powerful because it has 7 Bhinnashtaka bindus, or 42 Sarvashtaka bindus in a sign, what we mean is, that all the planets have gathered together to invest into Jupiter this power. In no other branch of astrology this truly democratic approach is visible so clearly. If there is any sanctity or rationale of Ashtakavarga in the birth chart, it ought to be explored in other charts too, since in all the charts, it is always the interplay of planets with each other that causes events. Whether the results of this exploration are acceptable to the astrologers, by and large, will depend on successful predictions made by the explorers using Ashtakavarga techniques. If and when a sufficient statistical proof is available, then these techniques may be inducted into astrological dicta of the present times. Ashtakavarga seems to be progressively getting out of bounds for those orthodox astrologers who, before they accept an astrological idea, keep propping up the refrain, Where is it written in the classics?

*Astrological Insights into Personality* Betty Lundsted,2004-09-01 This down-to-earth exploration of natal chart interpretation shows the familial, male-female patterns in the zodiacal signs and the potentials they hold in combination with planetary energies and house symbolism. Our personalities are strongly influenced by what was happening around us when we were infants and whether our needs were met. Lundsted explains that our natal chart is our parent's transit chart, therefore revealing the truth of our childhood family dynamics. Once we understand these dynamics, Lundsted helps us move beyond laying blame on our parents by identifying the compensating strengths revealed in the chart. She also shows us that the typically classified difficult or hard aspects in the chart actually hold the key to our transformation.

*GK win Degree System of Astrology* Tirupur S.GopalaKrishnan(GK),2019-06-18 It is a simple method for prediction through which, even a person with a basic knowledge of astrology can give predictions based on the birth chart. The method utilizes the degrees of the planets in the birth chart .The planets in the highest degree and lowest degree are taken into account. Even planets which are 6/8 positions away from each other, will be combined when their degrees are close. Through this method we can predict whose relationship will be beneficial for him/her. We can also predict the planets which will support him though out his/her life, the gods whom should be worship and so on. Predictions together with the planets in the transit and the birth chart are also easily given.

**The Karakatvas** Sarajit Poddar,2021-05-13 Jyotish is an interplay of symbols embedded into the discipline in the form of Significations or Karakatavas. The primary building blocks in Jyotish are the Grahas, Rashis and Bhava. The Rashis are further subdivided into the Nakshatras and the Vargas. Each of these elements has a set of symbols associated with it. From the interplay of these symbols, we derive specific meanings in real life. For instance, one of the symbols of Surya is the father, and likewise, the father is seen from the 9th house, also called the Dharma Bhava or the Pitribhava. The Karakas are also defined based on the degrees of the Grahas, in a scheme known as Charakarakas. It is from Surya, the Chara Pitrikaraka and the 9th house; we decipher everything about the father. From a Rashi standpoint, Surya owns the Simha Rashi, and therefore, the Simha Rashi must also be judged for matters concerning the father.The Karakas are related to everything in the world, be it a Graha, Rashi or Bhava. With the interplay of these Karakas, and the Shubha or Krura yogas formed by them, the concerned matters in life should be judged. Therefore, the first and foremost step in studying Jyotish is to examine the Karakas. The Jyotish classical texts narrate several Karakas of the Grahas, Rashis and Bhavas; however, to apply them in real-life situations, we need to understand them clearly. I believe that this book provides a robust framework for understanding these Karakas.

The Strengths and Bhava Analysis Sarajit Poddar,2021-07-29 This volume of the book covers two important aspects of Jyotiṣa, strengths and Bhāva Analysis. The strength section covers several forms of strength, including the Ṣaḍbala, i.e., the six sources of strength, the Bhāvabala, the Rāśibala. This includes few other forms of strengths such as the Viṃśopaka Bala, Vaiśeṣikāñśa, Iṣṭa-Kaṣṭa Phala and the Graha Rāśmi. This should provide one with a comprehensive understanding of the matters concerning strength. The understanding of strength is highly significant because strength is ubiquitous. One cannot examine a Kuṇḍalī without considering the strength. We naturally use strength in the form of Graha in Sva, Ucca, Mūlatrikoṇa, Nīca or Śatru Rāśi. We use the strength granted by dr̥ṣṭi of Śubhagrahas or the Grahas in Kendras etc. The strength section provides a systematic method of dealing with various forms of strength. I have tried to explain each of them with copious examples, which I believe the seeker should find helpful. The following section provides a comprehensive method of judging a Bhāva. Everything that we experience in life is grouped into 12 different Bhāvas. If we take each Bhāva individually and analyse them sequentially one after the other, we can be assured that all aspects of the Kuṇḍalīs are covered. Undoubtedly, the Bhāva assessment is a significant area of Jyotiṣa. However, it is not easy. The results of a Bhāva is affected by several factors, and one must adopt a systematic approach to gain a comprehensive understanding of the Bhāva. In this regard, Ācārya Mantreśvara provides a systematic approach to analyse a Bhāva. They are a set of 31 rules which are covered exhaustively.

**Jataka Sara Sangraha** K. Guru Rajesh,2018-12-19 Jaimini system is a highly practical method which helps its practitioners to reach quick conclusions regarding the events and their timing in the life of a native. The rules are simple and straight forward and the Dasa durations can be calculated easily in mind. Jataka Sara Sangraha is a unique work in this branch of Jyotisha where the author ingeniously presents his material in a logical fashion drawing from the Jaimini Sutras and Vruddha Karikas. For the first time in the literature of Jaimini astrology the author explains the application of all the Ayurdasas by giving a single example Horoscope. This is one of the rare works where numerous Ayurdasas and Phalita Dasas are explained in detail.The treatise is divided into three Parichchedas or chapters. The first chapter deals with the methods of longevity determination of a native and explains the Ayurdasas which help to predict the time of death of the native and his relatives like parents, siblings, spouse and so on. The second chapter deals with different Phalita Dasas which help to predict the timing of various events in a native's life. The final and third chapter explains many Yogas. Jataka Sara Sangraha is a must for anyone who wants to grasp the nuances of Jaimini System and gain mastery over the subject.

**Krishneeyam** Alok Jagawat,2019-03-24 The great Acharya Shri Krishna composed this Grantha in 11th century A.D. Thereafter the book gained unequalled admiration and was quoted in later compositions like Prashnamarg, Vidhyâmādhaviyam and Rudra's commentary on Vrihad Jataka. The Malayalam literary composition like ũnniyaccicaritam carries citation from this great grantha. The earliest mention can be cited from Shri Govinda Bhattatiri of ṭalakkulam (a.d 1237-95) who quoted it frequently. Shri Vishnu the son of Mādhavaacharya has written the Sanskrit commentary caturasundari, which is included in this work. Sriyut Puliur Puruśottam ṇambudiri wrote the Malayalam commentary. This Grantha is the magnum opus of Horary astrology because of its historical value. This grantha is unique and different from most of the Jyotisha granthas. The grantha is neither too short nor too descriptive. The author mentions that he has done it intentionally so readers should not lose the interest or it should not become too complex. Level: This book is a part of advance Vedic Jyotisha related to ancient prashna system of Kerala.
