Astrology: The Third Eye Of The Vedas Dr. Gopal Das Neeraj, Dr. Arastu Prabhakar, 2006

The Art of Prediction in Astrology Gayatri Devi Vasudev, 2012-01-01 Astrology and interest in it have been growing at a pace that does justice to the subject as a discipline of great consequence in handling the complexities and ills of human life and existence. Authoritative works on astrology abound in Sanskrit and several of them have been translated into English by scholars. These translations are a great boon to the diligent student and carry innumerable combinations and dicta covering almost all aspects of life. However, the difficulty lies in their actual application to horoscopes where the skills of the astrology student are challenged to the limit. The Art of Prediction in Astrology is a simple guide to the techniques of interpretation of the horoscope. This book teaches how to apply and interpret some important planetary combinations and dicta found in classical works to practical cases. This shows further how to analyse and understand: *Yogas for fame and lasting reputation, renunciation, spiritual realization, tyranny and homicidal tendencies. *Difficult concepts such as the difference between Resi and Bhave, Yamaganda and Yamakantaka, the Moon's role in understanding human psychology and behaviours and the nexus between Rahu-Ketu and schizophrenic tendencies. *Eclipses and how they influence the timing of events. *Solar activity and planetary movements in relation to weather, agricultural crops and tsunamis. *Principles of Muhurta and natal horoscopy in making forecasts on the fall and continuance of governments and how Martian movements can trigger terrorist attacks such as that of September 11, 2001. *Simplifies the intricate art of chart delineation with illustrations of important personalities.

Encyclopedia of Vedic Astrology: Your Profession (Ups & Downs with Remedial Measures) Shanker Adawal, The word 'Profession' brings into the horizon a belief of a person in his capabilities or inherent potentio which a native has but also symbolizes specialization on a knowledge and academic preparations and finally it also brings forth the needs of livelihood and vocation. It is common to have people in the Administrative Services who are Medical Graduates and Entrepreneurs with no specific knowledge skill but robust common sense. In this context, profession, determination and analyzing means a look at various aspects of the Horoscope. It means an analysis of education, knowledge, inherent nature, means of earning income and more complexed is determining the course and the graph of his professional achievement.

Planet SUN Secrets Saket Shah, 2020-01-05 The Sun god has two arms, he is seated on the pedestal of lotus; both of his hands are embellished with lotus flowers. There is a beautiful golden crown, on his head and a garland of gems around his neck. His radiance is just like the interior part of a lotus flower and he is mounted on the chariot pulled by seven horses. The Sun god is also known as 'Savita', which means - one who creates, 'SAVITA SARVASYA PRASAVITA' (Nirukta -10/31). According to the Rigveda the Sun god situated at the centre of the solar system is an inspirer of all, pervader of the internal parts and an embodiment of almighty god. According to the 'Markandeya Puran' Sun is the embodiment of Brahma, the

world originates from the Sun and is established in it. The Sun is the appearance of all the matters and elements and is the eternal almighty. This very God 'Bhaskar' creates nurtures and annihilates the world respectively in the form of lord Brahma, Lord Vishnu & Lord Shiva. Sun is the supreme deity amongst all the nine planets. When Brahma manifested himself by breaking the egg, then he pronounced 'OM'. This Omkar itself is the supreme soul and the very physique of Sun god. The four Vedas emerged from all the four mouths of lord Brahma, which were glowing by their own radiance. The powerful radiance emanating from the 'Omkar' covered the radiance of the Vedas and ultimately all of them unified. This very Vedic appearance of 'Omkar' is the sun god. This radiant sun was the first manifested during the times of creation, hence it was called 'Aditya'. Once the demons, the titans and the monsters unitedly fought with the deities and snatched their power and authority after defeating them. 'Aditi' - the mother of the deities did worship of sun god to get protection from this calamity. Being pleased with her the sun god took incarnation as her son and established the eternal path of the Veda after defeating the enemies of the deities. He is called Aditya also for this reason. The complexion of Sun god is red. His vehicle is a chariot. There is only one wheel in his chariot which is called 'Samvatsar'. The wheel of his chariot has 12 spokes, which symbolise the twelve months. The wheel has six circumferences, which symbolize the six seasons, and three 'Naves' which symbolise of the three four-months. The sages (rishi) and all the celestial supernatural beings like 'Gandharva', 'Apsara', 'Nag' yaksha and the deities move along with him doing his worship. The wheel, power, a loop and a hook are the weapons of sun god. His great-phase (Mahadasha) last for six years. The Sun is considered as a high planet, till the

tenth degree, in the zodiac of Aries. Lord Shiva is considered to be the deity of the Sun. To get his blessings and for his pacification, performance of 'Arghya' (pouring water facing the sun in the morning should be done and also the text of Harivansh purana should be listened to. Ruby should be worn on the body and donation of wheat, cow along with a calf, raw-sugar (gur), copper, gold and red-clothes should be made to the brahmins

Charisma of Navamsha - Composite Vedic and Nadi Approach Raj Kumar, Among various Varghas, the relative importance of Navamsha is universally acclaimed. Astrologers consider it to be just next to birth chart or equal to birth chart or even better than the birth chart. Almost all astrologers use Navamsha and birth chart together to assess strengths of various houses and planets before giving any opinion. In Vedic astrology, Navamsha occupies an outstanding position and draws one's attention for deeper understanding/ scrutiny due to its multifarious technique and usage. The additional inputs in the form of scintillating concepts by Jaimini and Nadi system have made the subject more engrossing. The author has tried to incorporate the same in the book. The study of a birth chart gives only the gross (Sthool) indications of characteristics of various houses and planets; while Navamsha offers their detailed (Sookshmatar) values. It is so because a Navamsha is basically equal to both in its size and extent to a quarter/ one fourth / pada of a Nakshatra, thereby giving it a stellar role. While a house represents a combined spectrum of 30 degrees, a Navamsha provides a microscopic view of 3° 20' or 1/ 9 part of a sign only.

Fundamentals of Astrology M. Ramakrishna

Bhat,1988 Astrology is both Science and Art. Hence only the talented can appreciate and understand it. Rightly Visnugupta declares that nobody other than a sage can master the ocean-like science of astrology. The great Varahamihira declares, No sin will creep into a place that is sanctified by the presence of a true astrologer. No person who studies and divines the course of destiny will ever be found in hell, but will reside permanently in the world of Brahman. This book brings to the fore not only the rationality of astrology but also the nature and structure of the correct knowledge that our forefathers possessed regarding the predictable influences of planets on human beings, and gives a spiritual bias to astrology. The reader is taken step by step in this work from the rudiments Viz., the distribution of constellations in the Zodiacal belt which is divided into twelve Signs, and the planetary hierarchy, through the method of calculating the ascendant and other houses of a natal chart, assessment of the strengths, influences, aspects, affliction, mutual relations etc., of the planets, to the final stage of reading the brighter and darker sides of the subject`s life, his chances of success and failure, their periods, ingress of the soul into the mortal coil and exit therefrom as well as its departure to other worlds

according to its karma. In this book an attempt has been made to give a good account of the science of astrology, with a view to making the reader a good and true astrologer. It also shows that astrology does not make man a fatalist, a helpless automation in the hands of a merciless Fate. It should, on the other hand, help him to take to self-exertion and self-help. This hoary lore, according to the author, is to be practised not for selfish ends, but to guide the needy and the distressed, to remove the cause of their suffering and to turn their attention towards God. Charisma of Upachaya House Raj Kumar, As per classics there could be four goals in human life- Dharma, Artha, Kaam & Moksha. However in the materialistic world of today, most of us think, plan and act of / for Artha & Kaam only. Artha covers any / all activities connected with finance & livelihood and Kaam includes all types of desires e.g. sex, comforts and luxuries. Upchaya literally means growth, accumulations, elevation, expansion, improvement, rise, aspiration, profit, gain, prosperity or excess of inflow without much effort and at a much faster rate. Upchaya group of houses contains the best of Artha & Kaam Trikones by excluding their Marka houses (2nd & 7th) and thus includes 3rd, 6th, 10th, & 11th houses. The rest of the houses are called Apchaya houses. The beauty of Upchaya houses is that even natural malefics produce excellent results here. They indicate growth & gain of any or all desires-whether good or evil. Every desire originates in 3rd house. It is nurtured by strong determination & hard work of 3rd house, pointed concentration & competitiveness of 6th house and 10th house provides controlled Kriyaman Karma to enable desire to be fulfilled in 11th house. Every planet associated with 11th house ensures gain/ profit in its own way. The progress which human beings have made so far, can be attributed to these fighting qualities only. The 6th is a Trika house and 11th a Badhak house for movable lagans. However, this book highlights only the positive aspects of

Upchaya houses.
