Planet SUN Secrets Saket Shah,2020-01-05 The Sun god has two arms, he is seated on the pedestal of lotus; both of his hands are embellished with lotus flowers. There is a beautiful golden crown, on his head and a garland of gems around his neck. His radiance is just like the interior part of a lotus flower and he is mounted on the chariot pulled by seven horses. The Sun god is also known as 'Savita', which means - one who creates, 'SAVITA SARVASYA PRASAVITA' (Nirukta -10/31). According to the Rigveda the Sun god situated at the centre of the solar system is an inspirer of all, pervader of the internal parts and an embodiment of almighty god. According to the 'Markandeya Puran' Sun is the embodiment of Brahma, the world originates from the Sun and is established in it. The Sun is the appearance of all the matters and elements and is the eternal almighty. This very God 'Bhaskar' creates nurtures and annihilates the world respectively in the form of lord Brahma, Lord Vishnu & Lord Shiva. Sun is the supreme deity amongst all the nine planets. When Brahma manifested himself by breaking the egg, then he pronounced 'OM'. This Omkar itself is the supreme soul and the very physique of Sun god. The four Vedas emerged from all the four mouths of lord Brahma, which were glowing by their own radiance. The powerful radiance emanating from the 'Omkar' covered the radiance of the Vedas and ultimately all of them unified. This very Vedic appearance of 'Omkar' is the sun god. This radiant sun was the first manifested during the times of creation, hence it was called 'Aditya'. Once the demons, the titans and the monsters unitedly fought with the deities and snatched their power and authority after defeating them. 'Aditi'- the mother of the deities did worship of sun god to get protection from this calamity. Being pleased with

her the sun god took incarnation as her son and established the eternal path of the Veda after defeating the enemies of the deities. He is called Aditya also for this reason. The complexion of Sun god is red. His vehicle is a chariot. There is only one wheel in his chariot which is called 'Samvatsar'. The wheel of his chariot has 12 spokes, which symbolise the twelve months. The wheel has six circumferences, which symbolize the six seasons, and three 'Naves' which is symbolise of the three four-months. The sages (rishi) and all the celestial supernatural beings like 'Gandharva', 'Apsara', 'Nag' yaksha and the deities' move along with him doing his worship. The wheel, power, a loop and a hook are the weapons of sun god. His great-phase (Mahadasha) last for six years. The Sun is considered as a high planet, till the tenth degree, in the zodiac of Aries. Lord Shiva is considered to be the deity of the Sun. To get his blessings and for his pacification, performance of 'Arghya' (pouring water facing the sun in the morning should be done and also the text of Harivansh purana should be listened to. Ruby should be worn on the body and donation of wheat, cow along with a calf, raw-sugar (gur), copper, gold and red-clothes should be made to the brahmins

**Astrology: The Third Eye Of The Vedas** Dr. Gopal Das Neeraj, Dr. Arastu Prabhakar, 2006

Fundamentals of Astrology M. Ramakrishna Bhat, 2013-01-01 Astrology is both Science and Art. Hence only the talented can appreciate and understand it. Rightly Visnugupta declares that nobody other than a sage can master the ocean-like science of astrology. The great Varahamihira declares, No sin will creep into a place that is sanctified by the presence of a true astrologer. No person who studies and divines the course of destiny will

ever be found in hell but will reside permanently in the world of Brahman. This book brings to the fore not only the rationality of astrology but also the nature and structure of the correct knowledge that our forefathers possessed regarding the predictable influences of planets on human beings, and gives a spiritual bias to astrology. The reader is taken step by step in this work from the rudiments Viz., the distribution of constellations in the Zodiacal belt which is divided into twelve Signs, and the planetary hierarchy, through the method of calculating the ascendant and other houses of a natal chart, assessment of the strengths, influences, aspects, affliction, mutual relations etc., of the planets, to the final stage of reading the brighter and darker sides of the subject's life, his chances of success and failure, their periods, ingress of the soul into the mortal coil and exit there from as well as its departure to other worlds according to its karma. In this book, an attempt has been made to give a good account of the science of astrology, with a view to making the reader a good and true astrologer. It also shows that astrology does not make a man a fatalist, helpless automation in the hands of a merciless Fate. It should, on the other hand, help him to take to self-exertion and self-help. This hoary lore, according to the author, is to be practised not for selfish ends but to guide the needy and the distressed, to remove the cause of their suffering and to turn their attention towards God.

*Planet Mars Secrets* Saket Shah, 2020-01-05 In a Vedic Astrology Horoscope, the positions and effect of 9 heavenly bodies are carefully examined. These are the seven planets - Sun, Moon, Mars, Mercury, Jupiter, Venus and Saturn along with two nodes - Rahu and Ketu. Each planet has a long list of significations which are further divided into the direction, metals, age, nature, elements, body part / body system, colors, rulership of zodiac signs and the host of other attributes which a good Astrologer has to keep in mind at the time of making the calculations and giving the forecast. While all planets are given equal attention but it is Mars which is given special attention to check for suddenness in giving bad results - if it is a malefic. At the time of matching the Horoscopes for marriage purposes, it is the presence or absence of Manglik feature which is checked before anything else. So let us go a little deeper into the nature, functioning, and mode of operation of Mars in a Horoscope. Is it always to be feared or does it have the power to give also? Mars is the fourth planet from the Sun. It is called Mangal in Hindi, Kujja in Sanskrit. West has named it after the Roman God of War. Mars is also referred to as the Red Planet because of its reddish appearance as seen from Earth. Similarly all the planets are divided into 4 elements of nature - Fire, Earth, Air and Water. Mars is supposed to be a fiery planet. As the story goes in the Vedic system, Mars is the commander-in-chief of the celestial army. It is therefore, quite natural to associate Mars with action & raw energy, after all it is fiery, hot red and fast (compared to Jupiter and Saturn it is a much

faster planet orbiting the Sun).

*Encyclopedia of Vedic Astrology: Wealth & Prosperity* Shanker Adawal, The interest of

every individual to know his financial status has inspired me to write this book. This is a part of the Encyclopedia captioned as 'Wealth & Prosperity'. It is the seventh book in the encyclopedia series. We have in this book tried to explain the combinations of wealth with an eye for the reader to understand the principles that decipher the quantum of wealth. In the beginning we have given a large number of examples which show the combinations that are instrumental in giving wealth. We have also outlined the combinations that generate wealth. From the third chapter onwards we embark upon analyzing a horoscope on the promise it holds for wealth and prosperity. It starts with explaining the impact of Signs and houses on there propensity as wealth providers. In basic predictive astrology the ascendant, second, fifth, ninth and eleventh house play critical role in predicting the wealth quantum. There are six chapters we have dedicated in the book explaining the impact of planets in houses and the placement of lords of ascendant, second, fifth, ninth and eleventh in different houses .In details the results have been written. This is the first basic principle that has to be understood and has been dealt at length.

*Charisma of Planets: Timing Events* Raj Kumar, Astrological analysis has two components. The first is the deduction of likely trends in the life of a native. This determines the basic promise of a horoscope. The second, and more important, is to determine the time when the relevant events, according to the promise, would happen. The first part requires astrological knowledge & calculations etc; while for the second part great perception, synthesis, intuition and divine help are required. Astrology is basically the art & science of deciphering the characteristics & impulses gathered by various planets by their position/ movement and their synthesis. It is the basic characteristics of planets as modified by various impulses/ vibrations which they receive and then imparts on the native. Essentially one has to understand planets- their relationship with houses, signs & Nakshatra and their roles as lords of sign/ houses, Nakshatra or its subdivisions, as dasha lords or their day to day transit with respect to their natal position or standard specific points like natal Moon, natal ascendant or dasha lords. This not only helps in understanding the basic promises, but the timing of their fructification as well.

Secrets of Planets Saket Shah, 2021-10-31 Dear Reader, The whole process of spiritual practice during the initial steps consists of neutralising karma and gaining poise. The inequalities of past karma manifest as the inequalities of the mentality, personality and

behaviour of man. Behaviour is only a response of the person to environment in terms of his own habit or past karma. This response also forms the basis of his future karma. Every step is subject to correction until poise is gained, “poise in food, expression and behaviour” is the path of yoga according to the Bhagavad Gita. Every planet in every sign in house represents our past life karma. To understand that first we need to understand the planets in astrology. This book is all about describing planets in astrology to give indepth knowledge and wisdom to the person to experience and learn fundamentals of astrology. Regards, Saket Shah

The book gives an approach for making relationships better if one understands the potential of planets in the birth chart. By understanding the weak and strong points in the chart one can mould himself accordingly and move in the right direction to get the desired result and improve his relationships and living.. In each chapter - the converse charts are taken to describe the events however it is advisable that no prediction should be made by studying the charts on the surface only. Each chapter is supported with suitable examples. All cases taken are genuine and supported by real incidents. The book is a result of some authentic research done by the author over the years. #v&spublishers
